RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, March 18, 1876.

Financial and Commercial Affairs.

On Tuesday of the current week announcement was made of the suspension of the Bank of the State of New York. The announcement was a surprise to the Street operators, and to business people generally, as the institution has been long in the enjoyment of a very high reputation. The effect of the failure was temporarily depressing at the Stock and Gold Boards, and also at the Cotton Exchange. Money, which had been ruling very easy at 3@5 per cent on call, was suddenly advanced to 7 per cent per annum, and in instances to 1-16th of one per cent commission, for accommodation over night. The speculative demand for aid was considerably stimulated, and the whole market was for a while much excited. Gold was worked up to 115 per cent, and Stock declined materially. Toward the close, however, there was a steadier movement noted, with a much calmer feeling apparent in financial circles. The discount market was quiet, with the best grades of business paper quoted at 5@7 per cent per annum. The City Banks, last week, were gainers in their reserves, generally. The U. S. Sub Treasury reduced its currency balance, while adding slightly to its coin balance. The percentage of gold and legal tender notes to the deposits on the last exhibit was 31.16, against 30.75 the preceding week, 31.08 on Feb. 26, 31.59 on February 19, and 32.24 on February 12. Deducting the specie item in full, the remaining deposits are represented by a legal tender reserve of 23.35 per cent as against 23.04 per cent., the preceding week, and 24.07 on the statement of February 26. The U. S. Sub Treasury reported a

falling off in the currency balance and an increase in the coin reserve of the office, as the result of the week's business. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,234,000. The City Banks have had their deposits increased $676,400; and their legal tender reserve $684,800. The specie average has been enlarged $438,200. The loan and discount item was increased $585,600. The circulation was diminished $134,800. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,777,842 against $36,384,494 the preceding week; and a coin board of $44,601,815 against $44,561,737 on the previous return. The City bank exchanges in currency reached $396,983,426, or a daily average of $66,163,904. The customs revenue of the port during the week was $2,425,000. The City banks reported their average of gold last week at $23,139,800 and their greenback average at $47,629,500. Their deposits stood at $227,102,800. The loan item was $270,748,400. The circulation was $16,697,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $13,993,600.

The aggregate of the outstanding U. S. currency, of all denominations, March 1st was $416,584,372. The outstanding amount of legal tender notes is $370,943,392. The National bank circulation is now $340,046,776, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,843,766; special deposit of legal tenders for the redemption of certificates of deposit, $40,535,000; Coin, $71,741,999; Coin certificates, $35,559,100.

The week's import entries of Foreign Merchandise at New York were $5,408,848, including $2,792,051 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 81 millions; and from Customs, 106 millions.

Gold has been fairly active at generally well maintained prices, but closed less firmly. The demand from speculative sources was made more urgent for a day or two. The customs call was moderate, and the export drain less extensive. The extremes of the price during the week have been 114¼@115, closing on Wednesday at 114⅜ as against 114⅝, on Wednesday of the preceding week. The specie outflow last week was $1,183,213 against $1,423,446 the previous week. The imports of specie at this port last week were $304,483, and since January $887,878, as against $2,638,332, same time last year. The customs demand for gold last week averaged $404,167 per day. Foreign Exchange has been in moderate demand and quoted weak toward the close. Bankers sixty day bills on London closed on Wednesday at $4 85½@$4 86; sight bills on London at $4 89¼ @$4 89¾ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $3,835,594. The week's imports of Dry Goods and general merchandise were to the specie value of $5,408,848 as against $7,233,855 the corresponding week of 1875.

Government Securities have been generally in good investment demand and quoted steadier as to values though somewhat weaker toward the close. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $355,311,715.

U. S sixes of 1881 closed on Wednesday of this week at 123@123¼; U. S. Five-Twenties of 1865, 118⅝@118⅞; U. S. Five-Twenties of 1865, consolidated, 119½@119¾; U. S. Five-Twenties of 1867, 121⅝@121⅞; U. S. Five-Twenties of 1868, 123@123½; U. S. Ten-Forties at (ex March coupons) 118¾@119¼; U. S. Fives of 1881, (Funding Loan) 118⅝@118⅞; Six per cent. currency Sixes, 126¾@127.

State and Railway bonds have been moderately dealt in on investment account, and generally quoted steady. And in the line of Railway and Miscellaneous share property business has been more active, and values were quoted higher, until the announcement of the bank failure, when prices declined, rallying fitfully thereafter.

General business has been on a moderate scale for the season. Domestic produce has been in fair request, but unsettled in price. And foreign merchandise has been moving a little more freely but, in instances, at easier figures. The Metal trade has been on a limited scale. Eglinton Pig Iron quoted here at $28 50@$29; Glengarnock $31@$32; Coltness $32@$32 50; No. 1 American Pig at $23@—; No. 2 do. at $20 50@$21; Forge, $17@20; American Rails at works, $42@$45; Old Rails $20@$21 50. Wrought Scrap, $32. Ocean freights have been moderate, and generally steady, with room for Grain, Provisions, and Petroleum most sought after.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The following gentlemen have been elected directors of the Forty-second Street and Grand Street Ferry Railroad: John Green, Charles Curtiss, George Green, G. A. Heinrich, M. Feuchtwanger, C. B. Hogg, Moses Ely, Smith Ely, J. G. Mitchell, Jos. Rosenthal, Eben S. Allen, Lewis May and James W. Husted.

Cincinnati Southern Railroad.

Gen. Godfrey Weitzel and Henry Mack have been appointed trustees of the Cincinnati Southern Railroad, to fill the vacancies caused by the resignation of Judge Taft and Philip Heidelbach. The Legislature of Ohio has left the decision of the question of whether the city of Cincinnati shall issue bonds to the amount of $6,000,000 to complete this road to a vote of the people of the city. Up to March 1 there had been completed and accepted from the contractors by the board 77 miles of the road. During the month of March 25 miles more will be completed, making 102 miles, or nearly one third of the whole. In addition to this, 100 miles more are ready for the ties. The 12 miles between Lexington and Nicholasville being the completed road bought by the Trustees is in operation, making 214 miles of road which has been or soon will be completed. There are 44 miles more to be completed to reach the Tennessee valley, and 78 miles from there to Chattanooga. Of the different sections of the work there has been done on the Ohio river bridge 27 per cent of the estimated cost; from Ludlow to Lexington 88 per cent; from Lexington to Somerset 65 per cent, and from Somerset to the Tennessee valley 71 per cent. The total amount spent to February 1 was $8,207,411.

☞ Judge Wood, of the United States Circuit Court of New Orleans, has appointed Junius G. Alexander, of New York, receiver of the New Orleans, St. Louis and Chicago railroad, the demand of the Illinois Central Railroad Company to put their trustees in possession being denied. Judge Wood also granted the application of Morris Ketchum and others of New York to file a bill in the district of Alabama with the intent of displacing the present receivers of the Mobile and Ohio Railroad.

☞ The Supreme Court of Massachusetts, in the suit of N. C. Munson vs. The Boston, Hartford and Erie Railroad Company, has rendered a decision by which it is settled that a lien upon the property by attachment is preserved by the Bankrupt act. In this case the plaintiff sought to recover $873,312 23 for building the road and filling flats belonging to the defendants, and to secure his claim he attached all the property owned by the corporation.

☞ A sale of the Milwaukee and Northern Railroad took place at Milwaukee, Wis., on the 4th inst. to satisfy a judgment of $28,920 62 obtained by James Ludington against the road. The road was bid in by Guido Pfister, as trustee, for $28,000. The sale was made subject to a mortgage of $1,500,000, and to the lease held by the Wisconsin Central Railroad Company.

☞ The receipts of the Midland Railway of Canada for the week endidg February 29, 1876, were $6,971 02; same week last year, $4,972 07—increase $1,998 95. Total traffic to date, $35-795 85; total traffic year previous, $26,921 11—increase $8,874 74.

☞ The President of the Victoria Railway, Mr. George Laidlaw, has effected arrangements by which the line will soon be completed from Lindsay to Kinmount. Messrs. Rice Lewis & Son, of Toronto, are the contractors.

☞ The San Francisco (Cal.) News-Letter says Marriott's Æroplane Navigation Company has been incorporated, with $10,000,000 capital, divided into 100,000 shares. The objects of the incorporation are to navigate the air by vessels or conveyances constructed for that purpose, and the carrying of passengers, merchandise, dispatches, etc., from one place to another.

☞ The directors of the Knox and Lincoln Railroad company, elected on the 8th inst., are: Oliver Moses and Edward Sewall of Bath, Henry Ingalls of Wiscasset, Edwin Flya of Newcastle, D. W. Chapman of Damariscotta, Edmund Wilson of Thomaston, Francis Cobb and John T. Berry of Rockland, Augustus West of Waldoboro.'

☞ The earnings of the St. Louis, Iron Mountain and Southern Railroad for the first week of March, 1876, were $88,200, against $77,236 52 for the first week of March, 1875, an increase of $10,963 48.

☞ The committee on stock list of the New York Stock Exchange have placed on the list of bonds of the Southern Pacific Railroad first mortgage series A. This series consists of 13,000 bonds of $1,000, and 4,000 bonds of $500—making $15,-000,000.

Continued from page 357.

Several committees representing the bondholding interest of that company have had interviews with the officers of your company during the past year, with the view of perfecting a basis under which the property of the Columbus, Chicago and Indiana Central Company could be put in a reorganized form that would relieve it from many of its complications, and preserve its representation in a decreased amount of bonds and an increased amount of stock; but as yet no definite plan has been decided upon. It is hoped one may be reached during the present year.

SUMMARY OF LINES EAST AND WEST OF PITTSBURG.

Gross earnings, all lines, 1875, from traffic	$58,096,865 91
Gross expenses, excluding rentals, interest, dividends, &c.	36,574,140 96
Net earnings	$21,522,724 95

At the last annual meeting of the shareholders the matter of declaring quarterly dividends was referred to your board. After full consideration of the subject it was decided to pay dividends quarterly, commencing August 30, 1875, and this action has given great satisfaction to our shareholders.

It is hoped that the results attained during the past year will be satisfactory to the shareholders of the company. Your board beg to assure you that in their judgment the property of the company was never before in as good condition as at the close of the past year. The roadway has been greatly improved, the equipment is in thoroughly good condition, your facilities have been enlarged and extended, the capacity for doing a largely increased business is now provided, and it is believed, that with moderate expenditures for construction and equipment purposes during the next few years, and with the return of reasonable prosperity to the business interests of the country, your road can and will, under proper economical management, show results that must be gratifying to its owners.

The board desire to express their thanks to the officers and employees of the company for the remarkable economies attained, and for the fidelity and ability with which the duties entrusted to them have been discharged during the past year.

By order of the board.

THOMAS A. SCOTT, President.

GENERAL ACCOUNT.

To capital stock		$68,870,200 00
To first mortgage bonds due 1880	$4,970,000 00

By cash balance in hands of Treasurer		3,480,913 21
		$154,615,243 21

BAYARD BUTLER, Treasurer.

E. & O. E. PHILADELPHIA, December 31, 1875.

☞ The passenger earnings of the Atchison, Topeka and Santa Fe Railroad for February, 1876, were $39,342 08, against $18,274 42 in February, 1875. The road is now open to Pueblo.

Western Union Telegraph.

At a meeting of this company held on the 8th inst., the following report from President Orton was given to the Executive Committee and adopted:

On the 1st of April, 1874, there was a surplus on hand of $514,584 23. The net earnings from April 1, 1874, to December 31, 1875, (one year and nine months), were $5,730,577 53, making a total of $6,245,161 76.

The seven quarterly dividends amount to $4,729,188. During the same time the interest on bonds paid and accrued amount to $842,328 67, and the sinking fund is $87,500, making a total of $5,659,016 67, leaving a balance of $586,145 09. To this balance should be added the proceeds of the sale of bonds issued in 1875 in excess of the amount required to redeem the bonds which matured November 1, 1875, amounting to $302,202, making a total of $888,347 09.

During the period covered by the above statement there has been expended in the completion and furnishing of the new building	$323,827	
Construction and purchase of new property	614,407	
Total		$1,487,735
Deduct from this the surplus as above		888,347
Leaving a deficit on the 31st of December last of		$549,387

The business of the current quarter, based upon the official returns for the month of January, nearly complete returns for the month of February, and carefully estimating the business of the month of March, will show substantially the following results:

Receipts		$2,220,810
Expenses		1,500,795
Net profits		$720,014
The interest on the bonded debt accruing in one quarter amounts to	$117,000	
Sinking fund	20,000	
		137,000
Deducting this amount from the net profits of the quarter, as stated above, would leave applicable to dividends		$583,014
But, as already shown, there was a deficit on the first day of January, 1876, of		549,387
Which, deducted from the above, leaves		$33,626

All of which residue will be expended during the quarter upon construction, which it has been deemed advisable to authorize.

While, therefore, the business of the current quarter, in spite of the severe depression in all branches of trade and the reduction of rates by our competitors, will be nearly up to that of the same period of last year, it will be seen from the foregoing exhibit that after providing for the interest and sinking fund, payable on the 1st of May next, there will be no funds on hand wherewith to pay a dividend. In view of these facts the Executive Committee have adopted the following resolution for the consideration of the Board:

Whereas this company has during the last two years expended in construction and new property a considerable sum, which it was intended to provide for by capitalization; and whereas the policy of such capitalization is deemed inexpedient, and as the estimated earnings at the end of the current quarter will be sufficient to entirely liquidate the amount so expended and leave the company free from floating debt; therefore

Resolved, That this committee recommend to the directors to postpone action upon the question of a dividend until the next quarterly meeting of the board.

Union Pacific Railroad.

The annual meeting of the stockholders of this company was held in Boston on the 8th inst. Resolutions offered by Mr. Gould were passed, assenting to the contract between the company and the several parties who were or are beneficiaries or trustees on what is known as the Oakes Ames contract and the J. W. Davis contract and the assignment thereof; approving the contract between the road and the stockholders of the Credit Mobilier of America, and authorizing the treasurer to execute in behalf of the company a bill in equity against the Credit Mobilier of America, advised by counsel for the purpose of asserting the claims of the company against said Credit Mobilier, and enjoining prosecution of a suit by the latter corporation against the Union Pacific pending in the Supreme Court of Massachusetts. A board of directors was elected as follows: Oliver Ames, Elisha Atkins, Sidney Dillon, F. Gordon Dexter, Benj. E. Bates, Oliver Ames 2d, James D. Smith, Chas. J. Osborn, Samuel M. Mills, Jay Gould, Ezra H. Baker, (to succeed his father of the same name,) S. H. H. Clark, (vice Geo. S. Scott,) Joseph Richardson, John Sharp and G. M. Dodge. The following officers were chosen: President, Sydney Dillon; Vice-President, Elisha Atkins; Treasurer and Secretary, E. H. Rollins. The annual report states that the actual gross earnings of the road for 1875 were $11,993,832 09, operating expenses of the road, including taxes, $4,982,047 95, leaving surplus earnings of $7,011,784 14; operating expenses being 41.54 per cent of gross earnings.

Compared with the year previous there has been an increase of the gross earnings of $1,433,951 97; an increase in expenses of $127,344 08; increase in surplus of $1,306,607 89. The total amount of land sales for 1875 was 111,049.55 acres, at an average price of $3 66 per acre, amounting to $404,462. The total amount of land sold since the organization of the department was 1,082,893.36 acres, at an average price of $4 47 per acre, amounting to $5,336,044 02. The total amount of land grant bonds issued and sold by the company was $10,400,000; amount retired and canceled to date $2,768,000; remaining outstanding $7,632,000.

☞ The annual meeting of the stockholders of the Cleveland, Mt. Vernon and Columbus R. R. Co. was held at Mt. Vernon, Ohio, on the 23d ult. The annual report of the President was read and the following gentlemen elected directors for the ensuing year: G. B. Roberts, Philadelphia; Thomas D. Messler and William Thaw, Pittsburg; D. W. Caldwell, Columbus; Samuel Israel and Charles Cooper, Mt. Vernon; M. White, Gambier; William M. Orr, Orrville, and Isaac Harpster, Millersburg. The board subsequently organized by electing Thomas D. Messler President, and J. S. Davis Secretary.

☞ The Indian population of the entire British-American territory is officially stated at 91,910. The total of the personal property of the 29,816 Indians in the five older provinces composing the Canadian dominion is $489,234, and their real estate $7,633 708; of invested capital they own $2,844,972. Of the population of these older provinces 7,199 are children, 2,105 of whom are attending school.

Poughkeepsie Bridge.

Quite a number of gentlemen interested in increased railroad facilities with the West and South met at the office of the Poughkeepsie Bridge Company in Boston, on the 18th inst., and listened to some interesting statements made by officers of the company in relation to their enterprise. It is desired to raise about $350,000 in Boston to be put with the $150,000 Poughkeepsie people have subscribed, to insure the commencement of the work in April. The contractors are to provide $500,000 of the first million dollars of the cost and take the bonds of the company bearing gold interest at 6 per cent. for the rest. The $500,000 worth of stock can be redeemed by the company within six months after the piers are completed, and this provides for the whole sum at what are termed advantageous conditions for the stockholders.

☞ The rise in Toledo, Wabash and Western Railroad bonds is attributed to news respecting foreclosure proceedings that the final decrees for the sale of the road for the benefit of the bondholders have been obtained in all the States through which the road runs, the last one having been obtained on the 7th inst. in Indiana. At the expiration of the time of notice required by law the road will be sold.

☞ At the annual meeting of the stockholders of the Lehigh Coal and Navigation Company in Philadelphia on the 29th ult., the following officers were elected for the ensuing year: President, E. W. Clark; Managers, Francis R. Cope, Francis C, Yarnall, Fisher Hazard, Charles Parrish, Chas. Wheeler, George Whitney, Alexander Biddle, John Leisenring, James M. Wilcox, Edward Lewis and T. Charlton Henry.

☞ A trial was made on the 1st inst. of the Loughridge air brake on a portion of the Washington Branch railroad, near the Alexandria Junction. A train of ten cars, tender and engine, running on a level track, at a speed of 42.6 miles per hour, was stopped within a distance of 589 8-12 feet, or in 46 feet less than the entire length of the train, and in 16 seconds' time. The stop was made without sliding the wheels.

☞ The Maryland Court of Appeals rendered a decision on the 2d inst., in the case of the State vs. The Northern Central Railroad, holding that under the present laws the State has a right to assess the capital stock of the company the same as other property. This decision affirms the liability of the capital stock of other railroads in Maryland to taxation.

☞ The Snow Hill Messenger says that the Worcester (Md.) Railroad Extension has been completed to the bay and is now in running order. A pier extending out into the bay 200 feet has been commenced and will be rapidly pushed forward.

☞ The directors of the Port Stanley, Strathroy and Port Franks (Canada) Railway Co. have elected Mr. Lawrence Cleverdon, President, and Mr. S. G. Chamberlain, Secretary.

☞ Charles Donnelly has been elected President, and Welty McCullough Secretary and Treasurer of the Mt. Pleasant and Broadford Railroad Company.

☞ The Harlan & Hollingsworth Co., of Wilmington, Del., have just completed eight first class passenger cars for the Western Maryland Railroad. They have also in course of construction six others of the same class, for the Philadelphia, Wilmington and Baltimore Railroad; these will be finished about the middle of April. Orders are also in hand for twelve cars of a like description for the same road, upon which work has been commenced; and also eight first class passenger cars for the Camden and Atlantic Railroad. In addition to these, the company have on hand a number of first class and medium first class passenger cars, which could be finished in two or three weeks; also one fine parlor car, fifty feet long, and one first class narrow gauge passenger car, which will be finished during the present month. The prospects for future orders are good, while those already in hand will keep the works busy for several months.

☞ The directors of the Osceola Copper Company, recently elected, are Joseph W. Clark, John Steward, William B. Leeds, Jacob Hays, Charles D. Head, Horatio Bigelow, and John H. Forster. The annual report stated that the product last year was 889 tons, which yielded 75 per cent. of Ingot Copper. Owing to the drouth in July and the burning of mills which they had leased, there was a large loss of product which would otherwise have resulted in a very profitable business. An assessment of $2 per share has been decided upon with which to erect stamp mills of their own.

☞ The Baltimore Sun learns from the office of the Baltimore and Ohio Railroad Company that "the month of February shows an increase of the earnings of the Baltimore and Ohio Railroad and branches, of $228,871 26. The Pittsburg division, (formerly the Pittsburg and Connellsville Railroad,) shows the large advance of $35,181 51, being upwards of forty per cent. This great increase of revenue is represented by the large business done in grain, live stock, petroleum, etc., which has created considerable activity in our markets."

☞ Suit has been filed in the United States court at Memphis of the same tenor as one filed in Mississippi, by the Illinois Central Railroad Company and others against the Mississippi Central, New Orleans, Jackson and Great Northern, New Orleans, St. Louis and Chicago and Southern Railroad Companies, to recover $5,419,000 value of bonds, being part of $8,000,000 worth of bonds issued by the Mississippi Central, secured by lien in the nature of a mortgage made to complainants as trustees, and involving the organizations named.

☞ Mr. Blanchard, President of the Railway Construction Company of Boston, and J. M Green, Railway Engineer, are now in St. Stephen, N. B., arranging with the officers of the Grand Southern Railroad of New Brunswick the details of a contract for the construction of the road from St. John to St. Stephens.

☞ The Belmont, Ohio, Chronicle says the stockholders of the St. Clairsville and Bellair Narrow Gauge Railroad have resolved to take immediate steps to secure the right of way and raise the means necessary to construct the road.

☞ The earnings of the Michigan Central Railroad for the first week in March, 1876, were $130,285 63, against $94 202 82 in March, 1875, an increase of $36,082 81.

The Coal Trade.

The Philadelphia *Ledger* of March 12th says that the coal suspension now prevailing in all the anthracite coal regions will end with the present week, and general resumption will probably follow on next Monday, and then adds:

Should work resume at the mines in all the regions on Monday with activity there is reason to apprehend a supply of coal up to the agreed-upon limit for the month's production long before the end of the month, unless some restraining influence is called into requisition. Some of the larger carrying and producing companies have made no report of tonnage for the past two or three weeks. The return of the trade, as we have received it, shows that the quantity sent from all the regions for the week ending on the 4th instant is but 36,236 tons, against 101,849 tons for the corresponding week last year, showing a decrease of 65,613 tons. The total amount of anthracite sent for the year is 2,132,185 tons, against 2,011,641 for same period last year, an increase of 120,544 tons. The quantity of bituminous coal sent to market for the week was 57,189 tons, against 43,554 tons for corresponding week last year, an increase of 13,635 tons. The whole bituminous tonnage from the beginning of the coal year to the 4th instant is 441,343 tons, against 384,582 tons in corresponding time last year, an increase of 56,761 tons. The total tonnage of all kinds of coal for the week is 93,425 tons, being a decrease for the week of 51,978 tons, and the total tonnage for the coal year is 2,573,528 tons, against 2,396,223 tons to same date last year, being a total increase of 177,305 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 70,618 tons, 56,654 tons of which were coal and 13,964 tons coke. The total carried this year is 543,800 tons, of which 439,348 is coal and 104,952 coke. These figures embrace all the coal and coke carried over the road east and west. At Port Richmond for the week ending the 11th instant there were receipts of 250 tons of coal and shipments of 14,500 tons, leaving 93,750 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 25@$1 30 and to Boston at $1 40@$1 55 per ton. At Perth Amboy for the week ending on the 4th instant the receipts of coal were 1726 tons and the shipments 7388 tons, leaving 84,671 tons on hand.

☞ The sale of the Sunbury and Lewiston Railroad, which was to have taken place at Philadelphia on the 9th inst., has been postponed to the 28th.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, March 25, 1876.

Maine Central Railroad.

From the report of the directors of this company which was presented at the annual meeting of the stockholders held at Augusta, Me., on the 22d inst., we learn that the total earnings of the road for the year ending December 31, 1875, were $1,786,076 47, the operating expenses $1,147,066 82, and the net earnings $639 009 65. For the year 1874, the total receipts were $2,094,080 55, the operating expenses $1,281,681 25, and the net earnings $812,399 30—showing a decrease in gross earnings of $308,004 08, a decrease in operating expenses of $134,614 43, and a decrease in net earnings of $173,389 65. Of this reduction in gross receipts the past year $77,322 56 was occasioned by the modification of former contracts, for the purpose of producing uniform and harmonious action between the Eastern and Boston and Maine roads, which will result, as the Directors trust, to the benefit and in the general convenience of their patrons who have occasion to do business over the railroads west of Portland. The balance of the diminution in gross receipts, $230,681 52, must be attributed to the general depression of the business of the country, and "reduction of tariff by special rates."

During the present year bonds of the Somerset and Kennebec Railroad Company, amounting to $260,000, will mature. Bonds of the Maine Central Railroad Company have been provided and appropriated for their redemption. It is also considered advisable to use the bonds provided for that purpose to liquidate a portion or all of the floating debt of the Maine Central Railroad Company at an early date.

The total bonded debt of the company is given in the Treasurer's report at $6,761,767 20. The entire liabilities of the company amount to $12,457,151 88.

The equipment of the road consists of 16 locomotive engines (coal burners), 44 locomotive engines (wood burners), 57 passenger cars, 28 baggage cars, 4 postal cars, 14 freight saloon cars, 6 workmen's cars, 777 box cars, (including cattle cars), 556 flat cars, 110 wood and gravel cars, 4 wrecking cars, 16 snow plows, 102 trackmen's hand cars, 79 trackmen's push cars.

The number of miles run during the year by passenger trains was 532,226; by freight trains, 404,545; by wood, construction and switching, 303,209—total, 1,239,980. Increase of passenger train mileage over last year 28,610 miles; of freight train mileage, 55,087 miles; of wood, construction and switching 16,031 miles.

Number of passengers carried in 1875, 672,372, against 752,724 in 1874, a decrease of 80,352. Tons of freight transported in 1875, 422,400, against 374,104 in 1874, a decrease of 48,296. Earnings per passenger $1 19; average earnings per passenger per mile, 3.15 cents. Average receipts per ton, $2 43.6; average receipts per ton per mile 4.7 cents. Average distance travelled by each passenger, 38.20 miles; average mileage of one ton, 59.93.

As a matter of safety, the Westinghouse air-brake has been applied to the engines and cars of the through passenger trains, and nearly all the cars are furnished with the Miller platform and coupling.

The Superintendent recommends during the year about 1800 tons of new rails laid, 500 tons to be steel rails.

Chicago, Milwaukee and St. Paul Railway.

At a meeting of the directors of this company held on the 16th inst., a dividend was declared of 14 per cent on the preferred stock of the company—7 per cent on the net earnings of 1874, and 7 per cent on the net earnings of 1875. This dividend is payable April 10th, in the consolidated sinking fund bonds of the company. The following statement of income account was submitted:

Balance to credit of income account, after the payment of dividend on preferred stock in March, 1874, out of the net earnings of 1873		$727,032
Net earnings for the year 1874	$3,081,900	
Less interest on bonds for 1874	$1,956,085	
Other items charged against income account	146,807	
	2,102 892	
		979,008
Net earnings for the year 1875	$3,085,389	
Less interest on bonds for 1875	$1,980,227	
Other items charged against income account	63,519	
	2,043,746	
		1,041,643
		$2,747,683
A dividend of 7 per cent out of the net earnings of 1874 on $12,274,483 preferred stock	$859,214	
A dividend of 7 per cent out of the net earnings of 1875 on $12,274,483 preferred stock	859,214	
		1,718,428
Balance to credit of income account, applicable to future dividends on common stock		$1,029,255

☞ At a meeting of parties interested in the affairs of the Detroit and Milwaukee Railroad, held at Detroit on the 8th inst., Mr. C. C. Trowbridge, Receiver, announced that he had paid the running expenses of the road for the past year, paid interest on a debt of $1,000,000, which takes precedence of any bonds, and had $35,000 left. He was also in debt about $300,000 for steel rails laid last year, for which he was pressed, and would require more rails this year, if the road is

to run, which would cost $360,000, if they were of steel, and $250,000 if of iron. No proposal being made, the meeting adjourned.

Illinois Central Railroad.

The receipts from operations of this road for the year ending December 31, 1875, were as follows:

From freight		$3,619,238 68
" passengers		1,230,681 80
" mail		136,086 30
" express		105,844 81

Rent of leased lines	703 927 22	
		1,143,027 45
Net receipts from operation of road		$2,670,081 92

It will be seen that the gross earnings of the Illinois Central Railroad and of the leased lines, for the year 1875, were $7,802,556 42; the operation expenses, including taxes and rentals, $5,132,474 50—leaving the net earnings derived from traffic of the line, $2,670,081 92; showing the working expenses, including taxes and rentals, to have been 65.7 per cent of the earnings. The directors, in their report, say:

Closing a year of unusual depression in business, and following a season of partial failure of the crops upon that part of our railway which is ordinarily the most productive, the directors are pleased to report to the shareholders that the revenue from the traffic, and the receipts from the land office, have provided for the interest charge, and for the usual dividends upon the shares; leaving a surplus of $109,023 56 at the credit of Income Account, which is only $87,195 23 less than the surplus at the close of last year. The net traffic of the line was $2,670,081 92, and the income from land $223,297 42.

The business suffered from the pressure of competition by lines adjacent to our own, that have, during these evil times, been obliged to suspend interest payments upon their debts. The directors expect less interference from this source the present year, as several of these lines are recovering from their crippled condition, and, by arrangements which have been skilfully perfected by our general manager, will, it is hoped, be tributary to our line in the future.

We have, besides, to report an exceptional harvest of corn, more abundant than any for several years. This will, of course, increase our freight traffic.

On the first of April last, $2,671,000 Construction bonds, which matured, were paid and canceled, leaving $64,000 not presented at the close of the year, which prevents the absolute cancellation of the mortgage.

Five hundred and twenty thousand pounds sterling of Redemption bonds were paid on the first of April, and a new loan for £500,000 at six per cent was issued in their stead.

Several large claims upon the company, of many years standing, have been liquidated, leaving us at the present moment free from any except such as arise from actual current business.

Steel rails have declined to about half the prices paid three years since. We have 12,000 tons purchased at the present low rates, and have ordered 500 freight cars to be in readiness on the first of May, and shall, if the traffic develops as the managers of the line anticipate, increase this number.

To meet these outlays, £200,000 sterling 5 per cent bonds have been sold at a fair premium.

The benefit of the Southern line has proved, the past year, about equal to the interest charge which the company has incurred in promoting its construction. But we have not derived the large traffic which would have been obtained if the managers of that line had possessed the means thoroughly to equip and maintain their road. The directors are negotiating with the owners of this property, in the hope that measures may be concluded which will put this line in good working order from Cairo to New Orleans, and give the advantage which has hitherto failed to accrue to our interests. Our railway traverses the districts of cheapest production of grain and provisions required by the South. The relations of this Southern outlet to our property remain unchanged, and we shall endeavor to effect an arrangement which will secure, in the future, the profit which naturally belongs to the trade with the South.

There is an increased traffic upon the Iowa Division, and, generally, our prospects for business are better than were presented at the opening of last year.

The directors refer to the reports in detail of the general manager, and other officers of the line, whose duties have been efficiently performed.

The present debt of the company is $9,765,000; the share capital $29,000,000. On the thirty-first of December the company owned 301,636.40 acres of land, and held $686,035 80 land notes.

The main line is 705.5 miles, with 136.51 miles of second track and sidings. The company owns 202 engines, and 4,854 cars. 582.93 miles of the track have been relaid within six years. 56,826 tons of steel and iron rails, and 1,397,400 ties have been placed in the track, in Illinois, since first of January, 1870.

The annual meeting of the shareholders will take place the last Wednesday of May, at Chicago.

In the report of the General Superintendent the earnings of the road for the year 1875, (including $78,450 72 gross earnings of T., P. & W. R. R., and $164,474 62 net earnings over the C., B. & Q. R. R.) are stated at $7,841,781 78, against $7,947,855 36 for the year 1874—a decrease of $106,073 58. The operation expenses for the year 1875 were $3,989,447 05, against $4,030,150 77 for the year 1874—a decrease of $40,703 72. The length of road operated is 1,107.7 miles. The proportion of operation expenses, exclusive of charter tax and rental, to earnings, is 50.87 per cent. There was an increase in the number of passengers carried of 61,904, with a decrease in the revenue therefrom of $10,964 85. The decrease in tonnage of freight transported was 53,511, of which 52,683 was from local and 828 from through freight. The decrease in revenue from freight amounted to $209,577 59, of which $159,524 67 was from freight carried south, and $50,052 92 from freight carried north. There was a decrease in the number of passengers carried one mile of 286,763, and an increase in the number of tons of freight carried one mile of 11,091,658. The average fare of each passenger in 1875 was $1 01.21, against $1 05.85 in 1874. The revenue per ton per mile in 1875 was 1.93 cents, against 2.08 cents in 1874.

It will be seen, says the General Manager, in his report, that there has been a decrease per ton per mile in the rates obtained for carrying traffic in 1875, as compared with the previous year, of 15-100 of one cent; this, with the decrease of tonnage, accounts for the decreased gross revenue, while the extraordinary snow and other expenses explain the decrease of net revenue as compared with the previous year. Of the whole tonnage transported during the year 1875, 85 per cent was local, leaving but 15 per cent as the through business; while the revenues show 87 per cent to have been derived from the local and 13 per cent from through traffic.

From the report of the Chief Engineer we learn that the operation expenses of the road department for the year 1875 were $1,159,587 11—a decrease of $125,382 46, compared with 1874. There were 3,550.09 tons of steel rails, 3,803.09 tons of iron rails, and 370,351 cross ties used in track repairs. At the close of the year there were 212.63 miles of main track, and 5.52 miles of yard tracks, in all 218.15 miles laid with steel rails. The Chief Engineer adds: "So far as can be judged from the time they have been in use, the steel rails now laid appear to be of good quality. In several localities in the Chicago yards they have already sustained service equal to wearing out three to five sets of iron rails, and are yet in condition to sustain a large amount of traffic, and I can now see no reason to doubt that all the steel laid to this time will do equally well."

The company have 202 locomotives. During the year five new coal-burning freight engines have been purchased from the Brooks Locomotive Works, Dunkirk, N. Y.; also three switching engines, each with six coupled drivers, built by Hinckley Locomotive Works, were bought second hand. These eight engines are valuable additions to the rolling stock of the company. 13 engines have been rebuilt, 18 received thorough repairs, and 77 general repairs. Of the 13 rebuilt, 9 re-

ceived entirely new boilers. 198 engines have full sets of steel tires.

The company have also 78 first-class passenger cars, 8 smokers' cars, 2 officers', 1 pay, 51 baggage, mail and express, 18 sleeping, 8 old passenger cars, not numbered, 2,850 grain and fruit, 50 Blue Line, 350 stock, 1,409 flat and coal, 4 powder and 25 derrick, tool and tank cars, and large and small snow plows. 5,477 new wheels have been used for repairs of car. All the passenger train equipment have the Miller Platform and Coupler.

The total number of passengers carried was 1,648,541. Number carried one mile, 50,828,505. Av. number of miles traveled by each passenger, 30.83. Av. fare of each passenger, $1 01.21. Revenue received per mile of road, $1,506 27.

Tons of freight transported, 2,916,424; of which 1,714,206 were local, and 302,218 through. Tons carried one mile, 284,650,911. Tons carried one mile north, 124,342,773; do. south, 160,308,133. Tons of local freight carried one mile, 233,334,166; do. through do., 51,316,745. Av. distance each ton was carried, 141.17 miles. Revenue per ton per mile, 1.93 cents. Av. revenue per ton, $2 72.31. Revenue per mile of road, $4,957 11.

The number of miles run by engines with passenger trains, was 1,478,191; with freight trains, 3,179,753; with construction trains, 54,101; switching, 907,396—total, 5,619,441. Pounds of waste used, 54,983. Gallons of oil, 45,672. Cords of wood, 4,144. Tons of coal and coke, 157,029. Total cost for repairs, including fuel, wages of engineers and firemen, waste, tallow, oil, and cleaning engines, $1,100,794 94. Total cost per mile, 19.57 cents. Average miles to pint of oil, 15.38; do. to ton of coal, 35.78.

President.—John M. Douglas.

Directors.—His Excellency, John L. Beveridge, Governor of Illinois, ex Officio; William Tracy, W. H. Osborn, L. V. F. Randolph, C. Menelas, Frederick Sturges, until May, 1876; George Bliss, W. K. Ackerman, until May, 1877; W. H. Gebhard, Wilson G. Hunt, A. R. Van Nest, until May, 1878; John M. Douglas, L. A. Von Hoffmann, until May, 1879.

Gen'l Manager.—James C. Clarke.

Chief Engineer.—L. H. Clarke.

Secretary.—L. A. Catlin.

Treasurer.—L. V. F. Randolph.

Gen'l Auditor.—W. K. Ackerman.

☞ The coal trains on the Erie Railway commenced running again on the 20th inst. This will restore forty locomotives withdrawn four weeks since.

Pennsylvania Railroad Company.

The following is a portion of the Report of the Pennsylvania Railroad Company, relating to the Canal and Coal Companies, which we were obliged to omit from our last issue for want of space:

The results of the Pennsylvania Canal Company for the year 1875 were as follows:

Gross receipts	$444,669 09
Expenses	240,637 22
Net earnings, 1875	$204,031 87

Being a gain of $56,286 67 over 1874.

This company has paid off all its floating indebtedness.

The following statements will show the result of the operation of the coal companies in which you are interested, to December 31, 1875. In this connection arrangements have been made to create a fund of 25 cents per ton mined, which will be charged currently to expenses, and applied to the reduction of the cost of the several coal properties. Where that cost is represented by bonds, this fund will be applied to their purchase and cancellation.

The Susquehanna Coal Company produced in 1875, 381,774 tons.

Its gross receipts were	$1,478,820 91
Expenses	1,299,614 95
Net earnings	$179,205 96

Being a decrease of $206,682 78, as compared with 1874, caused by the almost entire suspension of production of anthracite coal during the first seven months of the year.

The Summit Branch and Lykens Valley Companies produced for the thirteen month ending December 31, 1875, 530 994 tons.

The gross earnings of the Summit Branch Railroad Company for the same period were	$1,467,529 60
Expenses	968,687 84
Net earnings	$498,841 76

Being an increase of $231,887 87, as compared with 1874.

The gross earnings of the Lykens Valley Company for the same period were	$703,547 35
Expenses	996,845 06
Deficit	$293,297 71

Being an increase of $10,752 42 as compared with 1874.

The large expenditures on this property were due to the existence of extensive faults in the vein, to remove which has required heavy outlays for several years past. The company is now working in good coal, and the results of the present year, will, it is believed, show a marked improvement.

The Mineral Railroad and Mining Company produced for the thirteen months ending December 31, 1875, 477,233 tons.

Its gross earnings were	$1,086,359 92
Expenses	924,324 84
Net earnings	$162,035 08

Being an increase of $89,540 76 as compared with 1874.

The aggregate results from your several anthracite coal companies were as follows:

Total production 1874-1875 (thirteen months)	Tons. 1,390,001
Total production 1873-1874 (twelve months)	1,328,934
Aggregate net earnings 1875	$546,785 09
Aggregate net earnings 1874	670,767 71

At the close of the year a reorganization of the several coal companies was effected, under which it is believed valuable economies will be effected in their business, and the properties be made more profitable than in the past, at least to the extent of the economies referred to.

The anthracite coal for Eastern markets obtained from your various properties, with the exception of that going to South Amboy over our lines, is now brought over the Pennsylvania Railroad, and shipped at Greenwich Point. Our wharfage facilities at that point, though quite extensive, were taxed to their utmost capacity before the close of the year, and it is proposed to enlarge them during the present year to meet the increased business coming to us from the several coal regions reached by our lines and their connecting roads. Our large increase in that special traffic, however, is in bituminus coal and coke, which are growing in public favor each year.

The coal companies in which you are interested were invited to join what is known as the Coal Association for the Anthracite Region. After full consideration of the subject they declined to do so, but in order that the large coal roads should carry out their own system of handling this great traffic, your coal companies did agree that their production for the year should not be increased over that of 1875, to competitive points east of the capes of the Delaware; and that if the Coal Association should continue for 1876, they would maintain prices on this competitive trade as heretofore.

Union Pacific Railroad.

At the meeting of the stockholders of the Union Pacific Railroad Company in Boston on the 8th inst. the directors submitted the following report:

To the Stockholders of the Union Pacific Railroad Company:

In submitting the report of the Board of Directors for the year 1874, the earnings for 1875 were estimated at twelve millions of dollars.

The actual gross earnings for 1875 were	$11,993,832 09
Operating expenses, including taxes	4,982,047 95
Leaving surplus earnings	$7,011,784 14

Operating expenses being 41.54 per ct. of gross earnings.

Compared with the year previous there has been an increase of the gross earnings of $1,433,951 97, an increase in expenses of $127,344 08, increase in surplus $1,306,607 89.

By referring to the statements herewith submitted, it will be seen that the commercial passenger business gains, during the year, $467,614 90, being 12.63 per cent. Commercial freight earnings gain, $938,818 02, being 19.48 per cent. Government business shows a decrease in passengers of $74,459 11, being 29.70 per cent., and in freight $82,244 08, being 25.96 per cent. Mail earnings have not changed in amount since July 1, 1873, being $315 per mile per annum.

The rate of expenses to earnings last year was considered as very small; this year it has been decreased from 45.97 to 41.54 per cent., a decrease of 4 43 per cent, and this is accomplished in the face of the extraordinary expenses incurred during the spring floods.

There has been expended for new construction during the year, $500,365 90; included in this are 12 new locomotives, 41 second class passenger cars, 85 new freight cars, iron bridge for Dale Creek; new head quarters and depot at Omaha; eating houses at Rawlins, Grand Island, Sidney, and other points; permanent water works at Omaha, Grand Island, Dale Creek; also a large sum to complete the rolling mill at Laramie, and the new scrap furnace at Omaha.

1501 tons of steel, and 7422 tons of iron rails; 449,738 pine ties, and 55,594 hard wood ties have been placed in the track. $182,589 64 has been expended in replacing wooden bridges with iron and steel, and repairing permanent structure, all of which has been charged to the operating expenses. The entire road bed, together with equipment, depots, water supply, and snow defence, has been brought to a high order of efficiency, as demonstrated by the winter's experience. No such winter as this of 1875-76 has been experienced since the road was finished. In the winter of 1871 and 1872, with less than half the snow of this winter, trains were delayed weeks; this winter we have combatted the heavy drifting fall of snow and extraordinary cold weather successfully, with no unusual delay of trains or hinderance to travel.

The important work of filling and replacing all temporary structures was completed in 1874, but the company has added much to the efficiency of the road in past years, in continuing the raising of banks and widening of cuts, thus obviating the necessity of maintaining expensive snow sheds. The providing for extraordinary floods, and the general protection from damage by snow or water will add important savings in the future operating expenses of the road.

These improvements and the reduction in the cost of fuel leads to the belief that for the next year, on the same volume of business, notwithstanding the extraordinary expenditure on account of the severe winter, even a further reduction of the per cent. of operating expense may be attained.

The consumption of fuel by motive power for 1875 was 148,876¾ tons coal, 7,137 cords of wood, at a cost of $4 75 per ton for coal, and $6 50 per cord for wood. The increase of consumption over 1874 was 31,364¼ tons coal, and 906½ cords of wood.

The equipment of the road is now ample for present business, and consists of 164 locomotives, 167 passenger and baggage cars and 3060 freight cars.

The New Rolling Mill at Laramie has been completed, and has cost $212,503 33, and has a capacity to roll 20,000 tons per annum. It is now in full operation, turning out satisfactory work; and has rerolled for the company during the year 6378 tons of iron at the contract price of $18 50 per ton.

Arrangements have been made during the year with the Kansas Pacific Railroad so that its system of railroads in Kansas and Colorado are working in harmony with the Union Pacific and its system, which is proving mutually beneficial to both.

The development of new mines in Colorado is adding to the volume of business, and the coming year, in our opinion will show a large increase of the mountain business to both roads.

During the year 1875 the furnishing of coal to the road and for commercial uses has been thoroughly systemized. At Rock Springs and Almy Chinese labor has been substituted for white labor, which has proved a great success, both in cost and in the reliability of the laborer.

The productions of the mines for 1875 are as follows:

	Tons.
Carbon	61,750
Rock Springs	104,667
Almy	41,805
Total	208,222

The snow at Rock Springs and Carbon has been so heavy that it has interfered slightly with the supply of coal during the winter; for commercial purposes the demand has been greater than we could meet for a short time; in former years, with less than half the snow, the miners were idle for months, and our coal from Laramie East was purchased from Iowa; but we succeeded this winter in furnishing all the coal required for the company's use and for commercial purposes, except at Salt Lake. Another year will place us in position to supply the entire demand, and at better rates than could be obtained from any other source. The reduction in cost of fuel to the country adjacent to the line of the road adds greatly to the development of the country; and it is evidendly the true policy of the company to deliver coal to the manufacturer and settlers at a small margin above actual cost of mining and delivery.

The total amount of land sales for 1875 was 111,049.55 acres, purchased by 705 different persons, at an average price of $3 66 per acre amounting to $404,462.

The total amount of land sold since organization of Department was 1,082,893 36 acres, at an average price of $4 47 per acre, amounting to		$5 336,044 02
Amount of interest paid on contracts		333,458 20
Amount received on forfeited contracts		1,140 94
Total proceeds		$5,670,643 16
Total expenses of Land Department	$653,566 66	
Total taxes paid	385,244 69	
		1,038,811 35
Leaving net proceeds as		$4,631,831 81
The total amount of Land Grant Bonds issued and sold by the Company was		$10,400,000 00
Amount retired and canceled to date		2,768,000 00
Remaining outstanding		$7,632,000 00
There are in the hands of the Company notes and contracts bearing interest, which is to be applied as fast as due and paid to canceling outstanding bonds		$3,012,501 68
Leaving to be provided for by future sales		$4,619,498 32

Thus showing that this portion of the bonded debt of the Company will in a short time be entirely paid off and canceled without encroaching upon the revenues of the road. A small part of the acreage left at present prices will create a fund sufficient to meet the balance of the Land Grant bonds outstanding.

The treatment and disposition of the lands west of North Platt is a question as yet undecided by the Company. A portion of them, especially in the valleys of streams, are suitable for agriculture; the balance are fine grazing lands.

The already immense herds of cattle, sheep, mules and horses along the road, and the increase of future traffic to the road from the natural increase, will bring very large earnings. The past year 3000 cars of stock were sent over the road, and it is desirable to so dispose of or retain the lands as shall best foster and build up this trade. The vast country through which the road runs will soon be the grand supply depot for Eastern markets for beef and mutton.

The recent discoveries of the mines in the Black Hills, calling attention to that heretofore undeveloped country, and the discoveries on the Medicine Bow range, including the new centennial lode, bids fair to equal anything heretofore discovered in gold quartz in that country, and must draw a large emigration over the land the ensuing Spring. Both of these new discoveries must add greatly to the travel and traffic of the road from an unexpected source. Machinery and skilled workmen are en route from Europe to develop and work the soda beds on Laramie Plains. The entire consumption of soda in the United States now amounts to 118,000 tons, and is all imported. As soon as the beds are developed and worked there is no reason why we should not supply the entire trade.

The question of the construction of the Act of Congress under which the road was built, which have been matters of difference with the Government, are being rapidly settled by the Courts, but so far, in most cases, the decisions are upon the basis claimed by the Company.

The late decision of the United States Supreme Court, decreeing that the interest upon the Government Bonds is to be paid at the time and in the manner of the principal of the Bonds (leaving half of the Government transportation to be paid to the Company), has lifted from the property the only clouds that rested upon it; by that decision there is due the Company from the Government $1,095,547 02, which will, undoubtedly, be paid as soon as the remaining question now pending in

the U. S. Court, being "what is due under the 6th section of the Act of 1862, known as the Five Per Cent Clause," is decided.

The Company are satisfied that their construction of this clause is correct, and that under the decision of the Court there will found, at the present time, nothing due the Government.

The Government and Company are using due diligence in bringing this question to a final decision, after which, we trust, there will be no delays in the company receiving promptly its half earnings of all Government business.

The company also believe that when the questions are finally settled by the courts the Government will accept the company's proposition and agree upon some plan that shall provide a sinking fund, or a fixed sum, to be paid by the company to meet the Government debt and interest, although the company, under the decisions, are relieved from making any provision of this nature, but are disposed to carry out any plan that will do justice to the company and the Government, and that shall not be burdensome to the property and that will settle finally and for all time all questions bearing upon the points heretofore in dispute, and the company have so informed the Executive Department of the Government and Congress.

The future of the property is no longer in doubt. The steady growth of its local trade; the continual and unexpected development of the zone of country through which the road runs, demonstrating that every part of it is valuable in agriculture and grazing lands, ores, minerals, and hidden treasures that daily come to light, and that for over 1000 miles long east and west, and 300 miles wide north and south are tributary for all time to this one great artery. This will insure a steady, healthy and rapid growth to the business of the road. Its coal, iron, silver, gold, soda, sulphur, paint, oil, lead, and copper products daily increasing, and the Union and Central Pacific Roads will soon carry east and west to markets a greater variety of products and precious metals than any road in the country.

Its coal traffic to day in its infancy controls almost the entire fuel trade from the Missouri river to the Pacific coast, and as the manufactures, furnaces, mills and other powers become necessary, the traffic in this one product cannot to day be estimated.

The road has passed through the severest year in flood and snow that it has yet experienced, and has come out with comparatively small cost and no delay, and has demonstrated that its improvements to meet both are ample and well conceived, and will avoid future great expenditure on this account.

The amicable arrangements and relations with connecting roads place us in a position to meet promptly unfriendly attacks, or competition, intended to obtain the traffic properly belonging to us, and will enable us to hold the great bulk of the travel and freight for the Pacific coast, and to China, Japan and other important ports in the Pacific Ocean; your Board congratulates you upon the steady increasing value of the property, and predict for the coming year an equally if not more remunerative one than the past.

In concluding the report, the Board warmly commends the General Superintendent, Mr. S. H. H. Clark, the heads of departments, and local officers of the Company, engaged in operating the road, for the successful manner in which they have administered the property the past year; to their fidelity, capacity and energy the favorable results which have been obtained are largely due.

By order of the Board.

SIDNEY DILLON, President.

☞ A meeting of the associates of the Boston, Lawrence and Haverhill Railroad was held at the office of the company, 8 Exchange Place, Boston, on the 18th inst., to establish the location of the line as reported upon by the engineer. The Boston Journal says that the determined feeling and ample means offered to build the road through to Haverhill and West Newbury show plainly that the enterprise has met with unparalleled favor and success, and the assurance of its being completed to Reading and North Reading by July first is very gratifying to all parties on the line of the road.

Southern Pacific Railroad.

The Committee on Stock List of the New York Stock Exchange has placed on the "Free List" series A of the bonds of the Southern Pacific Railroad (of California.) The official statement which accompanied the application, contains the following:

The company was originally organized December 2d, 1865, under the general railroad law of California, passed May 20, 1861, and its amendments. Its present organization was effected December 18, 1874, and is the result of several successive consolidations.

The authorized capital stock is	$90,000,000
Capital stock subscribed is	23,770,300
Capital stock paid in	22,412,200
The bonded debt of the company will be when all are issued	46,000,000
(To be issued in different series.)	
Series A, 13,000 bonds of $1,000 each, numbers 1 to 13,000	$13,000,000
Series A, 4,000 bonds of $500 each, numbers 13,001 to 17,000	2,000,000
	$15,000,000
Series B, 5,000 bonds of $1,000 each, numbers 17,001 to 22,000	$5,000,000
Series C, 5,000 bonds of $1,000 each, numbers 22,001 to 27,000	5,000,000
Series D, 5,000 bonds of $1,000 each, numbers 27 001 to 32,000	5,000,000
Series E, 5,000 bonds of $1,000 each, numbers 32,001 to 37,000	5,000,000
Series F, 5,000 bonds of $1,000 each, numbers 37,001 to 42,000	5,000,000
Series G, 6,000 bonds of $1,000 each, numbers 42,001 to 48,000	6,000,000
	$46,000,000

Series A bear date April 1st, 1875, principal payable April 1st, 1905, in gold coin. Interest six per cent. payable April 1st, and October 1st, in gold coin, in the City of New York. (Until further notice to the New York Stock Exchange, only series "A" will be issued.)

Amount	$15,000,000
Outstanding bonds of this series	14,346,000

The several succeeding series are to bear date as the board of directors may direct, and be payable thirty years from their respective dates.

The payment of the bonds is secured by a mortgage of the company to D. O. Mills and Lloyd Tevis, dated April 1st, 1875, upon the following portions of its main line and branches, viz: From San Francisco, by way of Carnadero Junction, Salinas Valley and Polonio Pass, to the Colorado River, at or near the Needles; from Los Gatos to Poso Junction; from Carnadero Junction to San Benito; from Tehachapi Junction to Fort Yuma and from Los Angeles to Wilmington, to the extent of 1,150 miles, of which upwards of 398 miles are completed; and also upon the lands granted to the company by Congress.

The floating debt of the company is $414,642 07.

Subsidies.—By certain acts of the Congress of the United States approved July 27th, 1866, and March 3d, 1871, there were granted to the company a right of way two hundred feet in width over the public domain, and also 12,800 acres of public land a mile for 932 miles of the road.

The State of California granted to the company thirty acres of land at Mission Bay in the City of San Francisco, for a terminus. These grants are very valuable.

The Counties of San Francisco, Santa Clara and San Mateo, and the City and County of Los Angeles contributed to the building of the road an aggregate of $1,002,000.

Railway Axles and Springs.

At a meeting of the Association of Master Carbuilders, at No. 113 Liberty Street, N. Y., on the 16th inst., Mr. Charles Bender, civil engineer, gave a detailed account of recent experiments in Germany on the durability of railroad car axles and springs. The work of testing the strength of the various metals and machinery was undertaken at Vienna and on the Silesian Railroad in Prussia, under the direction of Mr. Charles Woehler, Commissioner of the German State Railroads, and has resulted in important discoveries. It was found that cast-steel of the best quality wore from twenty to thirty per cent better than the best wrought-iron, and that axles of 4¼ inches diameter for passenger coaches, and 5¼ inches for freight cars, were capable of wearing for an almost indefinite period, and would in the end wear out instead of breaking. Both the axles and the loads used in Germany were slightly heavier than in America. Experiments have also been made in regard to the strain laid upon steel springs for passenger and freight cars, which have demonstrated that the springs, when properly made, are capable of bearing weights of 100,000 pounds to the square inch.

Accidental Test of Steel Rails.

W. O. Hughart, Esq., President of the Grand Rapids and Indiana Railroad Company, has addressed a letter to Hon. D. J. Morrell, of the Cambria Iron Works, Johnstown, Pa., in which he says:

We had a singular occurrence last week, which will interest you particularly. The flood broke through embankment on the Cincinnati, Richmond and Fort Wayne Road, making an opening of 12 feet in length and nearly same in depth. Fortunately it was spanned by two of your rails, and they carried engine and train safely over. The top of the rails was cracked, but the foot was perfect. It was a freight engine, thirty tons. The enginemen first saw the danger when immediately over the break, but had sense enough to avoid touching the throttle, and so did not give any new shock. The conductor went back as soon as the train had passed over, and stepped the distance, making it twelve feet.

☞ The National Car Builder says that the Erie Railway Company is building at Jersey City 25 first class day passenger coaches, and will build 25 more soon. These coaches are 50 feet long, and of standard gauge width; trucks of the Pennsylvania R. pattern, all except gauge; weight of each coach about 17 tons, which is less than that of many cars of this class with standard gauge trucks. They have Miller Platforms and couplers, and are finished in a very neat and tasteful manner.

☞ The contract for building the new Rhode Island and Massachusetts Railroad, from Valley Falls, R. I., to Franklin, Mass., fourteen miles, has been made, and work will commence at once. The cost will be $13,000 a mile.

☞ The New York Stock Exchange has admitted as a good delivery the latest issue of District of Columbia 3-65s, approved by Congress, and the bonds now quoted are numbered 1 to 26,483 of $500 each, and 1 to 10 035 of $1.000 each.

☞ An excursion train passed over the Scioto Valley Railroad between Columbus and Circleville, Ohio, on the 17th inst.

American Railroad Journal.

Saturday, March 25, 1876.

Financial and Commercial Affairs.

Following a week of excitement, the past week has been a comparatively tame one in financial circles. Money, which opened at very full rates, receded toward the close to 3@5 per cent on call, and 5@7 per cent per annum in the discount line, on a diminished inquiry from speculative sources for aid, and a moderate demand from the mercantile interests for accommodation. Business at the Stock and Gold Boards has been on a restricted scale; and at the Produce and Cotton Exchanges, more active. The export call for Breadstuffs, Provisions, Cotton, Naval Stores, and Petroleum has been more satisfactory, notably so for Wheat, Corn, Flour, Lard and Bacon, as also for Strained Resin, and prices have been quoted firmer. The City Banks have been losing currency, in part through the demand from New England and the Middle States to provide for the customary settlements in April. The last City bank exhibit indicates important changes in their averages. It must be borne in mind, however, that the exhibit was without the footings of the suspended Bank of the State of New York. Making due allowance for this fact, the net surplus reserve of the banks does not differ materially (less than half a million) from that of the preceding week. The Government office at this port reported a small gain of currency with a considerable loss of specie as the result of the week's operations. The percentage of gold and legal tender notes to the deposits on the last exhibit was 30.81, as against 31.16 the preceding week, 30.75 on March 6; 31.08 on Feb. 26, 31.59 on February 19, and 32.24 on February 12. Deducting the specie item in full, the

remaining deposits are represented by a legal tender reserve of 23.01 per cent as against 23.35 per cent., the preceding week. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,480,000. The City Banks have had their deposits reduced $6,517,900; and their legal tender reserve $2,021,400. The specie average has been diminished $770,400. The loan and discount item was contracted $6,881,700. The circulation was cut down $214,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,181,330 against $35,777,842 the preceding week; and a coin hoard of $45,910,854 against $44,601,815 on the previous return. The City bank exchanges in currency reached $446,604,087, or a daily average of $74,434,015. The customs revenue of the port during the week was $2,010,685. The City banks reported their average of gold last week at $22,369,400 and their greenback average at $45,608,100. Their deposits stood at $220,584,900. The loan item was $263,866,700. The circulation was $16,483,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $12,831,275.

The aggregate of the outstanding U. S. currency, of all denominations, March 1st was $416,584,372. The outstanding amount of legal tender notes is $370,943,392. The National bank circulation is now $339,646,214, including $2,096,940 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,030,769; special deposit of legal tenders for the redemption of certificates of deposit, $42,140,000; Coin, $73,500,000; Coin certificates, $35,425,300.

The week's import entries of Foreign Merchandise at New York were $8,314,247, including $2,483,551 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 88 millions; and from Customs, 110½ millions.

Gold has declined slightly during the week, and closed irregularly, on a less confident speculative demand; a moderate call for customs; and a diminished export drain. The extremes of the price during the week have been 113⅞@114⅝, closing on Wednesday at 114⅛ as against 114, on Wednesday of the preceding week. The specie outflow last week was $1,140,871 against $1,183,213 the previous week. The imports of specie at this port last week were $24,553, and since January $911,926, as against $3,149,818, same time last year. The customs demand for gold last week averaged $345,667 per day. Foreign Exchange has been in reduced supply and moderate request closing more firmly. Bankers sixty day bills on London closed on Wednesday at $4 86½@$4 87; sight bills on London at $4 89¾@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,410,423. The week's imports of Dry Goods and general merchandise were to the specie value of $8,314,247 as against $7,960,911 the corresponding week of 1875.

Government Securities have been in fair demand on investment account, and values have been without important changes. The offerings of bonds have been moderate. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulatn, is $353,781,100.

U. S sixes of 1881 closed on Wednesday of this week at 122⅜@122⅝; U. S. Five-Twenties of 1865, 118⅜@118⅝; U. S. Five-Twenties of 1865, consolidated, 119@119¼; U. S. Five-Twenties of 1867, 121¼@121½; U. S. Five-Twenties of 1868, 123¼@123½; U. S. Ten-Forties at 118½@119; U. S. Fives of 1881, (Funding Loan) 118¼@118½; Six per cent. currency Sixes, 126¾@127.

State and Railway bonds have been in less request and generally quoted less firm. The investment purchases have been of less magnitude than the average of recent preceding weeks. And in the line of Railway and Miscellaneous share property business has been on a much reduced scale and values have been quoted variable throughout, closing rather more steadily.

General business has shown more animation, as already mentioned. Domestic produce has been in more request, in good part for export, and the changes in prices have been mainly favorable to sellers. Foreign merchandise has also attracted more attention. Groceries closed stronger. The Metal trade has been somewhat brisker. Pig and Forge Iron has been more freely dealt in. Prices however have been depressed and irregular. Eglinton Pig Iron quoted here at $28 50@$29; Glengarnock $31; Coltness $32; No. 1 American Pig at $22 25@$23 00; No. 2 do. at $20 50@$21; Forge, $17@20; American Rails at works, $42@$45; Old Rails $22@$23. Wrought Scrap, $31 00@$32 00. Ocean freights have been more active and generally stronger, with room for Grain, Flour, Provisions, Resin and Petroleum in most demand.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Chicago, Danville and Vincennes Railroad.

We have received a copy of a circular addressed to the First Mortgage Bondholders of the Chicago, Danville and Vincennes Railroad Company by A. W. Spies, Wm. B. Ogden, Geo. H. Potts, Williams & Guion, Geo. W. Nash, R. H. Lambeer, K. S. Townsend, L. L. Spring, Geo. B. Satterlee, and O. D. Ashley, of New York; Wm. B. Stevens, P. C. Brooks, F. A. Gray, Charles J. Sprague, Ignatius Sargent, F. H. Story, and the Hinckley Locomotive Works, of Boston, and others: owners of bonds of this Company, secured by First Mortgage on the Illinois division, and also on the Indiana division, in which they state that the Receiver's accounts are showing a surplus of earnings over expenses, that this surplus is now expended in improving the condition of the property, and in paying preferred claims put in advance of theirs by order of the court; that after these payments every dollar earned belongs to the first mortgage bondholders, but litigation is consuming it. They have therefore concluded, on careful consideration, to propose the following basis of adjustment as the surest method of realizing money due them, and re-establishing value to their bonds as investments, free of litigation, and without call on them for money:

1st. The Company shall elect a Board of Directors, a majority of whom shall be nominated by the First Mortgage Bondholders, and such nominating power shall continue until after three consecutive years of prompt interest payments on the first mortgage bonds. Voting power shall also be permanently given to all the bondholders, if it can be lawfully done; if not, then as soon as requisite legislation can be obtained.

2d. Holders of claims junior to our bonds, and stockholders, shall remove all liens, claims and litigations, leaving the property free from all incumbrance, excepting as provided in Schedule hereto and the common stock.

3d. A sinking fund shall be established to be a lien on the net earnings, (after payment of interest on bonds, and maintenance of road and its equipment), to retire the "Income Bonds" mentioned below.

The adjustment of liabilities to be as follows:

The Illinois Division Bonds to stand as now	$2,500,000
Coupon of October next to be paid at maturity in gold, and regularly thereafter.	
New first mortgage to be issued on the Indiana Division for	1,500,000
Of which $600,000 shall be reserved for completing the Raccoon Valley Section of the Indiana Division, and for betterments on the entire road, and $900,000 issued to holders of First mortgage Indiana Division Bonds for 60 per cent of the principal of the $1,500,000 now outstanding.	
Issue Income Bonds, convertible into stock at the option of the holder, with mortgage upon the whole line, payable in thirty years, with sinking fund, bearing 7 per cent interest semi-annually, from net earnings, after interest is provided for on all the first mortgage bonds, viz: To the Illinois Division First Mortgage Bonds, for 6 coupons to April 1, 1876, ($525,000,) which shall be a first series, with interest preferred	525,000
To the Indiana Division First Mortgage Bondholders for 40 per cent of their principal, ($600,000;) and for 8 coupons up to April 1, 1877, ($420,000,) which shall be a second series	1,020,000
A further issue of the second series Income Bonds to settle secured claims and remove second mortgage, chattel mortgage and all other liens	455,000
Floating unsecured debt to be settled by common stock.	
Making a total of "Income Bonds"	$2,000,000

The funding of coupons as heretofore arranged to be annulled, and the coupons to be settled for in "Income Bonds," as above stated.

A copy of the circular, of which the above is an abstract, together with the form of assent, may be obtained on application to A. W. Spies, care of Geo. B. Satterlee, No. 32 Pine St., New York.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, No. 68 WILLIAM ST., NEW YORK, March 16, 1876.

DIVIDEND NOTICE.

NOTICE IS HEREBY GIVEN THAT A DIVIdend on the preferred stock of this company, of $7 per share, has been declared out of the net earnings of 1874, and a further dividend of $7 per share out of the net earnings of 1875, said dividends to be paid on the 10th day of April next, in the consolidated sinking fund bonds of this company.

The transfer books will be closed on the 23d day of March, at 3 P. M., and reopened on the 10th day of April next. JULIUS WADSWORTH, Vice Pres't.

☞ The Peoria and Burlington Railroad has been incorporated, with a capital of $50 000, and power to increase to $2,000,000. This proposed road will run direct to Burlington, Iowa, with branches to Galesburg and Monmouth, Ills., and Madison, Iowa. The corporators are J. J. Rogers, M. C. Bates, J. S. Lattimer, K. R. Marks, S. M. Moore, W. Mount, of Abingdon, and C. S. Clarke, E. S. Easton, T. J. McGraw and C. Neill, of Peoria.

The United States of Colombia and its Trade.

The following article on the Commerce, etc., of the United States of Colombia, was written by a citizen of that Republic for the San Francisco Journal of Commerce:

The territory of the Republic of Colombia extends from the Isthmus of Panama to the Peninsula Goajira, on the Atlantic side, and 2° 30′ South latitude, from thence to the banks of the Orinoco, boundary line with the Republic of Venezulea, and from thence to those of the Amazon which forms the boundary line with the Empire of Brazil. The area of Colombia has consequently been estimated at 455,000 square miles, of which 330,956 lie north of the equator, and 124,244 south of this line, with a population of 3,012,000 inhabitants, which distributed in States is as follows:

Antioquia	365,000
Bolivar	260,000
Boyaca	472,000
Cauca	435,000
Cundinamarca	450,000
Magdalena	150,000
Panama	225,000
Santander	425,000
Tolima	230,000
Total	3,012,000

The principal ports on the Atlantic coast are Colon (improperly called Aspinwall,) Portobelo, Cartagena, Sabanilla, Santa Marta, and others of less importance; and on the Pacific coast Panama, Buenaventura, and Tumaco. Of these Colon and Panama are free ports, and consequently no Custom House formalities are required.

Those on the Atlantic side trade only with New York and all the principal European Markets, and those on the Pacific, which for a long time have followed the same route, are to-day beginning to divert their trade, and during the last three years have opened a trade with the San Francisco merchants, which duly encouraged can become immensely profitable to both countries.

During the last year the exports from San Francisco, principally consisting of mining and agricultural machinery, flour, fruit and other provisions, was represented by 104,688 *Kilogrammes, valued at $7,575 71.

All these articles could have been exchanged by excellent sugar, coffee, tobacco and other tropical productions, which the Colombia merchants have not sent up to this port on account of the distance and of freight being considerably higher to San Francisco than to Europe; but not the least doubt is apprehended that if there was a direct line of sailing vessels to those ports, a great portion of their important commerce could be profitably brought to this market.

The foreign commerce of the United States of Colombia was in 1874 of the value of $23,000,000, thus distributed:

Imports	$12,500,000
Exports	10,500,000

This was carried on in 729 sailing vessels and 281 steamers and does not include the important transit of commerce by the Isthmus of Panama, where as already stated there are no Custom Houses. The principal articles of exportation for the same year were the following:

Articles.	Kilgms.	Value.
Coffee	7,300,000	$1,900,000
Tobacco	5,700,000	2,000,000
Indigo	124,000	400,000
Cotton	800,000	260,000
India rubber	200,000	150,000
Hides	1,300,000	500,000
Peruvian bark	4,000,000	1,800,000
Panama hats	600,000	260,000
Gold and silver		2,500,000
Totals	20,024,000	$9,770,000

The country enjoys at present a favorable financial condition, as its foreign and interior debt have been considerably reduced, and the national revenue exceeds public expenditure, leaving a superavit with which the government can subsidize all works of public utility. The public debt is as follows:

Interior debt	$10,000,000
Foreign debt	11,000,000

The obligations contracted by the government, in order to pay the interest and amortize the capital, are strictly fulfilled, and hence the credit of the country is to-day well established.

The construction of railroads in the interior of the country, so as to put in communication the populated centres with the navigable rivers, which give an easy outlet to the ocean, or to connect them directly with the sea coast, and the diffusion of public instruction, are the two principal economical and social questions to which the Colombian Government is paying at present most attention, and from their proper solution, the country will, necessarily, derive a great material and intellectual development.

* The Kilogramme is equal to 2 1-5 lbs. nearly 1016.0578 kilgm. are equal to a ton of 2250 cwt.

Value and use of Railroads.

Who can estimate the value and use of the miles of railroad in this State? When we come to contrast the condition of the people prior to the opening of such lines of communication, and their present proud position, the question is answered to a certain extent; for to attempt to illustrate in a brief newspaper article the full use and benefit of railroad lines, and particularly to California, would be futile, as but a shadow of justice could be given the subject.

When California was distant from the markets of the world in time varying from twenty four to sixty days, the consumer was at the mercy of the manufacturer and dealer. When the telegraph lines were first put in operation some slight remedy was applied to save from imposition and extortion; but "corners" would be put up on every conceivable article in popular use. At one time it would be one staple, at another, some other commodity would be selected, and double and treble a legitimate price charged the consumer. Fortunes would be made in no time in candles, coal, nails, lard, oils, paints, tobacco, and so on along the gamut of mercantile speculative articles, until the burden became almost too heavy to bear. At last through the wisdom, courage and foresight of four Sacramento merchants—Stanford, Huntington, Hopkins, and Crocker—the continental railroad, the Central Pacific, was inaugurated and constructed, and the Pacific coast, and California, particularly, thrown into direct contact and commercial relations with the markets of the world, and the day for "corners," and putting up schemes in which to coerce the coin from the pockets of the people by the "marking up process," ceased and then by the impetus given every trade and commercial business on the coast, California became self-sustaining, and could snap her fingers at the factors of the East; and now people can live here sixty per cent. cheaper than they can on the other side of the mountains, and get more for their money. Aside from all this, the railroad lines passing through this State, have contributed to increase values to an extent almost incredible, except to those who have studied into the matter, and watched their progress, and their bearing upon the material interests of the State. By reason of the construction of the Central Pacific railroad and its branches, California is richer to-day by three hundred and fifty millions of taxable property; and the testimony in proof of this is in the books of the county assessors of the State, where the figures are as clear as the noonday sun, and where inspection will satisfy the most sceptical. We are not ashamed of this showing, for it is something in which every Californian should take an honest pride, and which every honest hearted journal should find the basis upon which to raise a monument of thanks enduring as brass to those who originated and carried into effect the great enterprise which has placed California in the front rank of states, and made her waste places to blossom as the rose. No indeed. There is nothing to be ashamed of in the showing, but on the contrary, everything to be proud of and rejoiced at. We are no longer isolated from the world, and looked upon simply as an appendage of the Federal Government. The electric wire places us *en rapport* with the diplomatic circles and marts of the continents, and the iron rail places its at the doors of the capitol of the nation, with all the rapidity, certainty and safety that human ingenuity, skill and courage can command and put into effect. The Central Pacific Railroad Company, its undertakings and results have been the great motive power of California's progress, prosperity and success. By reason of it she has advanced a quarter of a century in the stride for progress and position; and her supremacy, financially, commercially and physically, has been moved along by that great lever, held by Stanford, Huntington, Hopkins, Crocker, and which is known far and near as the Central Pacific railroad. That lever is still held by the same men, and they are constantly increasing its power, strength and durability, and will not remove their directing hands from it, until that period in our history, when the roll of states, called in their order, will have inscribed at its head that of California.—*Spirit of the Times.*

Railroad Earnings.

The earnings of the Michigan Central Railroad for the second week in March, 1876, were $137,809 01, against $130,937 60 in March, 1875, an increase of $6,871 41.

The earnings of the Missouri, Kansas and Texas Railroad for the second week in March were: freight, $44,686; mail, $2,551; express, $1,050; passengers, $15,782—total, $64,069. Same time last year, $60,898; increase, $3,171.

The earnings of the St. Louis, Kansas City and Northern Railway Company are as follows: March 8 to 15, 1876, $83,266 85; March 8 to 15, 1875, $66,762 59—increase in 1876, $16,504 26. The increase from January 1 to date is $164,002 47.

The earnings of the Chicago, Milwaukee and St. Paul Railway Company during the second week in March, 1876, were $119,000; corresponding period in 1875, $108,700—increase, $10,300.

The earnings of the Georgia Central Railroad for the past six months were $1,825,412 30; expenses $876,269 14—net $949,143 16. During this time the liabilities of the company have been reduced $594,019 56.

The earnings of the St. Louis, Iron Mountain and Southern Railroad for the second week of March 1876, were $87,400, against $65,701 51 for the second week of March 1875, an increase of $11,698 49.

☞ The Pensacola and Louisville railroad was sold under execution in Pensacola, Fla., March 6, and was bought by J. W. Black, of New Orleans. The road is 44 miles long, from Pensacola northward to a junction with the Mobile and Montgomery Railroad near Pollard, Ala. The suit in which the sale was ordered arose out of a purchase of lands and bonds of the old Alabama and Florida company from the Forsyth estate.

☞ The question of granting a further loan of $6,000,000 by the City of Cincinnati for the completion of the Cincinnati Southern Railroad was voted upon at a special election on the 14th inst., and it may be said to the credit of that city that not only was a large vote cast, but that a large majority was carried in favor of the measure.

New Railroad Route from Harrisburg to Baltimore.

A letter to the Harrisburg (Pa.) Patriot states that a new railroad is about being built connecting that city with the Western Maryland railroad at Westminster. The route to be traversed is as follows: From White Hall to Harholt's Mill over the Harrisburg and Potomac line, now rapidly drawing to completion; thence via Stony Run valley to the headwaters of Beaver creek; down Beaver creek to Merganthaler's gap; then to Wellsville, where the road strikes the head of a small stream known as Praim's run, which it follows in about a direct line to the Conewago creek; thence up the creek to East Berlin. Here it connects with the Oxford and Berlin branch, now ready to be put under contract. At Oxford it connects with the Hanover branch, and follows it to the Bachman's Valley road, thence to Westminster and on to Baltimore by the Western Maryland road.

New York, New Haven and Hartford R.R.

There is much activity in the shops of the Consolidated road at New Haven, just now. The new engine, No. 39, made its first regular trip to New York on Conductor Lockwood's train, yesterday and the company contemplates purchasing several more new engines as the ninety four locomotives now in use are unable to do the work, and the facilities of the company will not allow them to build them in the required time. Engines Nos. 19, 28, 41, and 17, are in the repair shops being fixed up. No. 19 will be entirely rebuilt. The car shops are also doing a great amount of work, about forty carpenters being employed all the time, in turning out new and repairing the old cars. The paint shops are crowded to their greatest capacity, with cars which have just been repaired. One of the cars in the paint shops is the drawing room car, Philadelphia, which has been entirely remodelled and refitted throughout. The new cars divided into smoking and baggage departments built for the centennial train between Boston and Philadelphia, are also being painted. —*Bridgeport (Conn.) Standard, March* 18.

☞ Articles of association of the Memphis and International Railroad Company were filed in the Secretary of State's office at Little Rock, Ark., on the 14th of February. The proposed road is to be run from Memphis to a point in Southwest Arkansas; length 300 miles. Directors: O. A. Hadley, Jas. Torrance, J. D. Adams, H. M. Cooper, F. S. Davis.

☞ The Pekin, Lincoln and Decatur Railroad will be sold under a decree of foreclosure at Springfield, Ills., on the 21st of April. The sale includes the entire road, 68 miles, and all the property of the company. Bondholders who have deposited their bonds are allowed to bid for the property.

☞ From the address of the newly elected Mayor of Bangor, Me., we learn that the indebtedness of the city for municipal purposes is $587,000. The available assets in cash, notes, &c., are $175,174 71. The valuation of the city for 1875 is $11,052,211.

☞ Col. R. R. G. Ingersoll of Peoria has been elected President, B. E. Smith of Columbus Vice President, and Charles P. James of Peoria Secretary and Treasurer of the Peoria and Rock Island Railroad Company.

Buffalo and Lake Huron Railway.

The half yearly general meeting of this company was held at the Law Association Rooms, Liverpool, on Wednesday March 1st, Mr. Arthur Aston, the Chairman, presiding. The report of the Directors and statement of accounts submitted to the meeting were received and adopted, and a dividend of 4s. 3d. per £10 share was made payable out of the net revenue of £11,755 14s. 1d., after providing for the interest on £763,751 of bonds.

The report states "that the balance of revenue, including the balance from the previous half year, after providing for the payment of interess on the bonded debt, is £11,755 14s. 1d., which will allow of a dividend of 4s. 3d. per share, free of income tax, carrying to the next half year £503. Bonds to the amount of £751,800 have been presented at the office of the Company, and exchanged for the new series, but there are yet £11,958 to come in. Recent advices from Canada state that the severe commercial depression, so long continued, shows evident signs of amelioration."

Dividends and Interest.

The Chicago, Milwaukee and St. Paul Railway Company has declared a dividend of fourteen per cent—seven per cent. on the earnings of 1874, and a further dividend of seven per cent. on the earnings of 1875, payable April 10 in the consolidated sinking fund bonds of the company. The transfer books close March 23.

The directors of the Chicago, Rock Island and Pacific Railroad Company have declared a semi-annual dividend of four per cent, payable April 27. The transfer books close March 31.

The New York Central and Hudson River Railroad Company have declared a quarterly dividend of two per cent on the capital stock and outstanding consolidation certificates of the company, payable on the 15th of April.

The Northern Central Railway Company have declared a dividend of three per cent on the capital stock, clear of State taxes, from the net earnings of 1875, payable on and after the 1st of April.

The directors of the Camden and Atlantic Railroad Company have declared a quarterly dividend of two per cent. on the preferred and common stock, payable on and after the 15th of April next. The transfer books will be closed from April 8 to April 15.

A dividend of two per cent will be paid by the New York and Harlem Railroad Company from the earnings and profits of the City Line, on the preferred and common stock, on the 1st day of April next.

The Housatonic Railroad Company has declared a quarterly dividend of $2 per share on its preferred stock, payable April 10.

The usual quarterly dividend of two dollars and fifty cents per share on the capital stock of United New Jersey Railroad and Canal Company will be paid on and after the 10th of April at the offices of the Pennsylvania Railroad, No. 81 Cortlandt st., corner of New Church st., (Room No. 65 new building of the Delaware and Hudson Canal Company,) New York, and No. 233 South 4th st., Philadelphia. The transfer books will remain closed until the 1st of April.

Pennsylvania Railroad.

The annual meeting of the stockholders of the Pennsylvania Railroad Company was held in Philadelphia on the 14th inst. The call of the meeting was read, and the annual report, which has already been published, was presented, and a portion of it was read, after which a resolution was adopted thanking the president and directors for the able and faithful manner in which they have conducted the affairs of the company, and for their action in reducing all expenditures connected with the various lines under their management. The session lasted just nine minutes. The annual election for directors of this company will take place on the 28th inst. The following gentlemen have been nominated: Thomas A. Scott, Josiah Bacon, Wistar Morris, John M. Kennedy, Alex. J. Derbyshire, Samuel M. Felton, Alexander Biddle, N. Parker Shortridge, Henry M. Phillips, John Scott, of Pittsburg.

New York and New England Railroad.

The New York and New England Railroad Company has arranged to open, on the third of April, a new passenger line, without change of cars, between New England and Philadelphia, Baltimore and Washington. The route will be by this road, via Putnam and Willimantic, to Hartford; by the New York, New Haven and Hartford Railroad to Harlem river; by transfer steamer "Maryland" to Jersey City; and by the Pennsylvania, and Philadelphia, Wilmington and Baltimore Railroads, and connections, to all points south and southwest.

In addition to first-class passenger coaches, it is proposed to run Pullman palace day cars through to Philadelphia by the morning train, and sleeping cars through to Washington by the evening train from Boston. The passage by the transfer steamer, requiring about an hour, will afford ample time for meals.

☞ A dispatch dated Portland, Me., March 20, says: The new railroad combination to Montreal gives the Directors to our portion of the Ogdensburg road. The Directors that the road chose this afternoon were S. J. Anderson, H. N. Jose, J. E. Donnell, W. L. Putnam, D. W. Clark and W. F. Milliken.

☞ In the Nova Scotia Legislature on the 20th inst. the Attorney General introduced a bill encouraging the building of a railway from New Glasgow to the Straits of Canso, a steam ferry across to Cape Breton side thence by railway to a point on Bras D'or Lake.

☞ The Board of Managers of the Philadelphia and Reading Railroad Company have unanimously elected Isaac Hinckley, Esq., a member of the Board in place of Robert B. Cabeen, deceased.

☞ The Vance Railroad bill, which has been signed by the Governor and is now a law, with the exception of some slight modifications, enables the railroads of Wisconsin to charge the same rates as were current previous to the Potter act.

☞ The interest on the 3.65 District of Columbia bonds is now being paid at the Treasury of the United States in Washington, and by the Assistant Treasurer of the United States at New York. The amount to be paid is about $250,000.

Commerce of New York.

The foreign imports at New York for the month of February, 1875, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$19,475,488	$13,016,690
Do. for warehousing	8,135,428	7,952,726
Free goods	8,042,547	6,824,451
Specie and bullion	1,269,902	183,463
Total entered at port...	$36,923,360	$27,977,330
Withdrawn fr. wareh'use	8,435,817	6,997,493

The foreign imports at New York for two months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$31,005,822	$25,360,674
Do. for warehousing...	13,851,466	14,236,320
Free goods	15,481,138	17,554,935
Specie and bullion.....	1,416,148	581,660
Total entered at port..	$61,754,610	$57,733,589
Withdrawn fr. wareh'se	16,214,221	12,987,100

The foreign imports at New York for eight months of the fiscal year, were:

	1875.	1876.
Six months ending January....	$175,110,736	$148,376,529
January	24,831,250	29,756,259
February.....	36,923,360	27,977,330
Total eight months....	$236,865,346	$206,110,118

The duties received at New York for eight months ending with February, were:

	1875.	1876.
July	$9,654,569 49	$9,273,546 61
August	11,802,593 20	11,417,505 51
September	11,400,273 11	10,163,829 28
October..	8,678,567 56	8,208,316 27
November	6 364,435 53	7,034,576 39
December....	6,312,995 27	5,349,574 79
January.....	8,072,846 12	8,160,728 44
February.....	11,811,046 95	9,473,033 56
Total..	$74,097,327 23	$69,081,080 85

The exports from New York to foreign ports in the month of February, were:

	1875.	1876.
Domestic produce	$17,839,488	$17,612,843
Foreign free goods.....	145,871	301,844
Do. dutiable.....	126,626	390,300
Specie and bullion.....	4,040,524	4,118,019
Total exports.....	$22,152,509	$22,423,006
Do. exclusive of specie.	18,111,985	18,304,987

The exports from New York to foreign ports for two months from January 1, were:

	1875.	1876.
Domestic produce	$36,399,436	$38,659,657
Foreign free goods.....	424,741	786,566
Do. dutiable	579,211	658,990
Specie and bullion.....	14,159,849	5,984,418
Total exports	$51,563,237	$46,089,631
Do. exclusive of specie.	37,403,388	40,105,213

The exports (exclusive of specie) from New York to foreign ports for eight months ending with February, were:

	1875.	1876.
Six months ending January 1	$140,508,524	$134,944,600
January..	19 291,403	21 800,226
February	18,111,985	18,304,987
Total produce	$177,911,912	$175,049,813
Add specie....	45,763,411	23,185,730
Total exports.....	$223,675,323	$198,235,543

☞ The foreclosure sale of the Davenport and St. Paul Railroad, which was to have taken place on the 2d inst., has been postponed to the 27th.

Camden and Atlantic Railroad.

The directors of the Camden and Atlantic Railroad Company have elected John Lucas, Esq., President of the road, in place of Hon. A. K. Hay, whose ill health for the past few months has compelled him to resign. During the past year the receipts of the road from passengers were $316,407 12; from freight, $131,799 58; from express, $36,604 64; from ferry, $42,716 12; from May's Landing branch, $4286 35; from United States mail, $4500; from real estate, $3046 42; from news agent, $1233 35; from dividend on stock of Seaview Hotel Company, $680—total, $548,492 50. The expenses were $428,435 14. Balance in favor of the Company $120,057 36.

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE

HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic (Diamond A) Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, light, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The Philadelphia *Ledger*, of 20th inst., says the weekly returns of production are light. Some of the larger carrying and producing companies have made no report of tonnage for the past three or four weeks. The return of the trade, as we have received it, shows that the quantity sent from all the regions for the week ending on the 11th instant foots up 80,168 tons, against 185,153 tons for the corresponding week last year, showing a decrease of 104,985 tons. The total amount of anthracite sent for the year is 2,211,518 tons, against 2,173,147 for same period last year, an increase of 38 371 tons. The quantity of bituminous coal sent to market for the week was 58,424 tons, against 52,383 tons for corresponding week last year, an increase of 1011 tons. The whole bituminous tonnage from the beginning of the coal year to the 11th instant is 514,935 tons, against 436,584 tons in corresponding time last year, an increase of 78,081 tons. The total tonnage of all kinds of coal for the week is 133,592 tons, being a decrease for the week of 103,944 tons, and the total tonnage for the coal year is 2,726,453 tons, against 2,610,001 tons to same date last year, being a total increase of 116,452 tons. At Port Richmond for the week ending the 18th instant there were receipts of 425 tons of coal and shipments of 11,000 tons, leaving 83,000 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 25@$1 30 and to Boston at $1 40@$1 50 per ton. At Perth Amboy for the week ending on the 11th instant the receipts of coal were 1773 tons and the shipments 11,123 tons, leaving 75,321 tons on hand.

☞ Mr. A. A. Talmage, General Superintendent of the Atlantic and Pacific Railroad, has been removed by the Receiver, and Mr. C. W. Rogers appointed in his place.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, April 1, 1876.

From the Boston Journal, March 24.

New York and New England Railroad.

NEW PULLMAN LINE TO PHILADELPHIA AND WASHINGTON WITHOUT CHANGE OF CARS.

It has been reserved for the corporation which succeeded to the franchise and property of the poor and despised Boston, Hartford and Erie Railroad to inaugurate in this Centennal year a new line of communication between New England and Philadelphia and Washington, by which the time between Boston and the National capital will be materially reduced, the delay in New York entirely avoided and the pleasures of the trip greatly increased.

THE NEW ENGLAND TRANSFER COMPANY.

It was a happy thought which prompted the projectors of this new line to adopt the same means of conveying the cars of the New York and New England Railroad Company across the harbor of New York which was employed for years in the transfer of loaded passengers and freight trains across the Susquehanna river at Havre de Grace. The old steamer Maryland, formerly owned by the Philadelphia, Baltimore and Wilmington Railroad, was laid up in ordinary some seven years ago when the bridge was built, and no emergency being likely to arise requiring her use, she was offered for sale. The New England Transfer Company was organized under the laws of Connecticut with a capital of $75,000. Hon. F J. Kingsley of Waterbury is the President, Simeon E. Baldwin, Secretary, and Charles P. Clark, General Manager of the New York and New England Railroad, the Treasurer and General Manager. The steamer was purchased, and in November last she was brought around to East Boston and turned over to the Atlantic Works to be remodeled.

THE MARYLAND

Is a magnificent steamer, 234 feet in length. The hull is of iron, braced for contact with ice, having a wooden superstructure, on the main deck of which is laid two railroad tracks, which will receive a train of eight passenger cars. On the same deck are two horizontal low pressure engines of eight feet stroke, and two new boilers with a working pressure of thirty five pounds. The paddle wheels are six feet on the face and twenty-three feet in diameter. There are pilot houses and rudders at each end. On the upper deck is a spacious waiting and dining saloon, 130 by 34 feet, capable of accommodating one thousand passengers. Here are also rooms for the officers and crew, who will number twenty five men. The steamer has been entirely rebuilt, with the exception of the hull and engines. Comfortable seats extend entirely around the saloon, which is fitted up in a plain, but tasteful style. The steamer was brought over to Rowe's wharf yesterday morning, and will remain open to the inspection of the public to-day, after which she will proceed to New York and take her place upon

THE NEW ROUTE.

The great annoyance to which travelers between the New England States and Philadelphia, Baltimore, Washington and the South, and to which passengers by all routes, save the new one, will still be subjected, is the compulsory delay of several hours in New York. As soon after the 10th of April as arrangements can be perfected, passengers will be conveyed from Boston to Philadelphia and Washington without change of cars, the Manager of the New York and New England Railroad having entered into a contract with the New England Transfer Company for the conveyance of their freight and passenger trains from Harlem River to Jersey City. The new line will be completed by the arrangements made with the New York and New Haven and Pennsylvania Railroads, both of which corporations will be materially benefited by this increased mileage over their roads while the former will be relieved of the tax demanded by the Harlem Railroad and the Grand Central Depot. The connected line will furnish the shortest route to Hartford, and the best from that point to Philadelphia and Washington.

There is no pleasanter trip in summer than the sail down the East River, which will be had between three and half past four in the afternoon, and by northern bound passengers between eleven and a half and one o'clock. From the upper deck of the Maryland may then be seen the whole of New York city, Williamsburg, Brooklyn, Jersey City and Hoboken, and as the steamer rounds Castle Garden the view down the bay to the south and up the Hudson to the north will prove among the most enchanting The time occupied in making the transfer from Harlem river to Jersey City will be about an hour and a half, thus affording passengers ample opportunity to dine on board.

THE EQUIPMENT

of the new road will consist of four passenger trains of eight cars each, including two Pullmans, one a drawing-room and the other a sleeper. All these cars will be new, the contribution of the New York and New England Railroad, coming from the shops of the Wason Manufacturing Company, and all will be run for the first time on the opening of the new line. The running time between Boston and Philadelphia will be only twelve hours, and to Washington seventeen hours. The United States mails will be carried over this route as soon as opened, by order of the Postmaster General. Thus the mail for Washington which closes at seven o'clock in the evening will reach that city at the same time as that via Springfield which closes at three P. M.

THE NEW ROUTE AND THE CENTENNIAL.

These trains will be of great advantage to the thousands of New Englanders attending the Centennial Exhibition, and especially to exhibitors and others who may desire to spend the Sabbath with their families in Boston, as they can leave Philadelphia Saturday evening, take breakfast at home Sunday morning, and return to the Quaker City in season for business Monday morning. The shortening of time and avoidance of any change of cars will make the new route of vast importance to all travelers North and South, and ultimately impart a fresh impetus to the commercial prosperity of Boston, to whose wharves this line will bring a larger share of Western freight than has ever crossed them heretofore.

EASTERN CONNECTION.

Through connections will be made with this line between Maine and New Hampshire, by the Portland and Rochester, Nashua and Rochester, Worcester and Nashua, and Norwich and Worcester Railroads, bringing passengers to the New York and New England Road at Putnam, while the Boston, Clinton and Fitchburg, and Montreal Roads will afford the same accommodation to the people of the Granite State, Vermont and Canada.

The steamer Maryland was visited yesterday by 3,350 persons, a large majority of whom will undoubtedly enjoy upon her decks during the ap-

proaching summer the cool breezes wafted up and down the East River.

The following is a

New Method of Steel Making.

A test of a new process of steel manufacture was made at the Lochiel Works on Tuesday last by Dr. William Fields, of Wilmington, Delaware, with extremely satisfactory results to the parties interested in the trial. Nine thousand pounds of steel was made in two furnaces—Nos. 5 and 11—nine heats were run, and in four of these was placed 500 pounds of cinder pig and 500 pounds of McCormick pig iron. Broad Top coal was the fuel used. As soon as the iron became fluid a package of chemicals was thrown into the furnace to remove the sulphur and phosphorus, which was accomplished in a few moments. Then another package of chemicals was flung in, which converted the iron into steel (as the report now before us avers) "in five minutes." After being well stirred the steel was balled up and formed into blooms by the coffer mill; but a good hammer, it is said, would have been a better way than by the mill. This refers to the operations in furnace No. 5. In No. 11 the iron used was all cinder pig iron made in the furnace, and treated as in the test made with cinder and McCormick iron. When the product was made into muck bar it was weighed, and here is the product in pounds:

	Pounds.
Furnace No. 5—1st heat	1035
2d heat	990
3d heat	1045
4th heat	960
Total	4030
Furnace No. 11—1st heat	970
2d heat	940
3d heat	1000
4th heat	970
5th heat	1050
Total	4930

This would seem to establish grounds for the conclusion that this method is an improvement of no ordinary character. The cost of the chemicals is sixty-four cents per ton of steel; while the saving in iron is from four-and-a-half to seven per cent, while the loss in iron by the Bessemer process of converting iron into steel, is very nearly thirty per cent. Such results may well attract the attention of the trade in steel rails; and it certainly would seem to put a quietus on the folly of buying any more iron rails for our railways. As one steel rail would last as long as five to seven iron rails, it only remains to prove that the method of Dr. Fields produces a steel as reliable for wear as the Bessemer rails to settle the question of superiority to even that process. We trust whatever is yet needed in the way of test will be carefully applied to this discovery, and so give the cheapest and best rails that science can produce.—*Harrisburg Telegraph, March* 17.

Railroad from Quebec to Wiscasset.

A correspondent of the Boston Journal, writing from Augusta, Maine, under date March 24, 1876, says: "There will be a meeting held in this city on the 30th inst, with a view of taking such steps as are necessary for the completion of the remaining links in the proposed grand trunk line from Quebec through this State to Wiscasset. The distance by the proposed route, as surveyed, is some two hundred and forty miles. A considerable distance has already been built, and work it still in progress. Over fifty miles from Quebec to the boundary line of Maine has been built, leaving some forty miles to be built. This is known as the Levis and Kennebec Railroad, which connects with the Somerset road running to West Waterville. Some thirty miles of this road have been built and opened to North Anson, and the balance is being pushed forward with vigor to meet the connection of our Canada neighbors at the frontier, a distance of some seventy miles from Canatunk Falls. From West Waterville to Augusta over the proposed Kennebec and Messalouskee road the survey shows a distance of nineteen miles, and from Augusta to Wiscasset over the proposed Quebec and Wiscasset road the survey shows a distance of some twenty-six miles. These last two links complete the chain in the great enterprise of direct communication with Quebec to the sea, and if built will insure success to the Canadian portion of the scheme. The total cost of the whole undertaking it is believed will not exceed $5,000,000. So far as the Canadian portion of the enterprise is concerned there is no lack of means."

The Gilbert Elevated Railway.

The announcement is made that a contract has been signed by Mr. George M. Pullman, of this city, on behalf of the Gilbert Elevated Railway Company, and Mr. William Sellers, of Philadelphia, representing the Edgemoor Iron Company, of Wilmington, Del., for the construction and erection in this city of a first-class viaduct railroad.

The railway to be built under this contract will begin at the Battery, extending through and along Church street, Chambers street, West Broadway, South Fifth avenue, West Third street and Sixth avenue to Central Park, a distance of five miles. The structure will be a double track, elevated on two rows of columns over the centre of the streets, with commodious stations on each side at every half mile. It is to be built of the best double refined iron, with steel rails proportioned to carry a moving load of 2,000 pounds per lineal foot for each track, with six times the ultimate strength, and also suitable parapets on each side as a protection in case of derailment. The whole construction will be of artistic design, and ample solidity to run fifteen ton engines at the rate of thirty miles an hour. The equipment is to be of the most superior style, approaching to the Pullman palace cars. Second class cars will also be provided. It is contemplated to run the trains every two minutes during the busiest portions of the day.

This first section of five miles is to be completed and in use by the 1st day of August next, and the company intends to proceed rapidly with the construction of the other sections of the twenty miles it is privileged to build.

Chicago and Alton Railroad.

DIRECTOR'S THIRTEENTH ANNUAL REPORT.

To the Stockholders of the Chicago and Alton Railroad Company:

The Board of Directors submit the following Report for the year ending December 31st, A. D. 1875:

LENGTH OF ROAD OPERATED.

	Main Line.	Second Track.	Sidings.
Chicago to Joliet, (leased)	37 20	23.48	16.46
Joliet to East St. Louis, (owned)	243.50	30.50	53.08
St. Louis, Jacksonville and Chicago, (leased)	150 60	....	12.28
Dwight to Washington and branch to Lacon, (owned)	79.80	....	6.71
Roodhouse to Louisiana, (owned)	38.10	....	3.54
Louisiana and Missouri River R. R., (leased)	100 80	...	8.57
	650.00	53.98	101.04

Total length of first and second main track, computed as single track, is 703.98 miles. Total length, including sidings, 805.02 miles. Number of stations upon the several lines, one hundred and thirty one—of which one hundred and eleven are in Illinois, and twenty in Missouri.

CAPITAL STOCK.

Preferred shares	$2,425,400
Common shares	6,649,100
Convertible scrip	288,700
	$12,363,200

FUNDED DEBT.

First Mortgage S. F. bonds	$28,000	
First Mortgage 7 per cent bonds, due January 1st, 1893	2,383,000	
Income bonds, 7 per cent, due January 1st, 1883	1,087,000	
Consolidated 6 per cent Sterling bonds, due July 1st, 1903, £800,000, say	3,893,200	
St. Louis, Jacksonville and Chicago R. R. bonds, assumed in purchase of road from Roodhouse to Louisiana, First Mortgage 7 per cent maturing April 1st, 1894	564,000	
Second Mortgage, maturing July 1st, 1898	188,000	
		8,143,200
Total stock and bonds		$20,506,400

The aggregate length of the lines of railway operated by your company under perpetual lease, is 288.6 miles.

In each case the terms of the lease require your company to make all necessary improvements and additions to the railway, and to provide rolling stock for operating it.

In pursuance of such requirements and the demands of traffic resulting from the operation of the leased lines, your company has, during the last ten years, expended from the proceeds of its several issues of stock and bonds about $4,500,000.

The Joliet and Chicago Railroad, and the St. Louis, Jacksonville and Chicago Railroad have both been greatly improved by the expenditures referred to, and all of the leased lines are now worth to your company much more than an amount which would be fairly represented by the annual rent paid.

The lines are essential parts of your railway system, and your property interest has become so

merged in them that for the purpose of considering the general results of traffic, it becomes necessary to ascertain what may be considered the permanent investment in or cost to your company of the entire property.

The stock and bonds issued by your company represent the cost of lines owned by it and the expenditures made for improvements and rolling stock upon lines held under lease. The additional cost to your company is shown by the several sums of annual rent paid, which may be capitalized for the year A. D. 1875, as follows:

Rent paid Joliet and Chicago R. R. Co., $131,605, capitalized at 7 per cent, represents	$1,880,071 43
Rent paid St. Louis, Jacksonville and Chicago R. R. Co., $240,000, capitalized at 7 per cent, represents	3,428,571 43
Rent paid Louisiana and Missouri River R. R. Co., $41 801 24, capitalized at 7 per cent, represents	597,160 57
Total	$5,905,803 43
Add amount of stock and bonds issued and assumed by C. & A. R. R. Co., as before stated	20,506,400 00
Total	$26,412,203 43

Although the actual cost of each of the roads operated was, and if constructed at any time during the last five years, would have been much greater. The foregoing statement is assumed to fairly represent, for the purposes referred to, what is commonly called permanent investment.

It is equal to an average cost of $40,634 16 per mile of main track, excluding all second main track and sidings. If the length of first and second main tracks is taken as the basis of division, excluding sidings, which is a common estimate on double track railways, the average cost per mile is $37,518 40.

We think the most incredulous "granger" will admit that for a road like yours, with nearly one-half its track laid with steel rails, with ample equipment to meet promptly all demands for transportation, and its entire railway property in first-class condition, the cost upon which you seek to obtain a reasonable annual revenue, is not extravagant.

GROSS EARNINGS.

	1874.	1875.
From passengers	$1,420,350 42	$1,252 688 77
" freight	3,446,880 91	3,178,531 43
" express	101,059 03	98,880 37
" mails	109,697 03	96,192 36
" miscellaneous	48,240 64	35,470 90
Total	$5,126,228 03	$4,656,763 83

The gross earnings during the last year, were reduced, compared with those of 1874, as follows:

From passenger traffic	$167 661 65
" freight traffic	273,349 48
" express traffic	2,178 66
" miscellaneous sources	12,769 74
	$445,959 53
Less increase from mails	670 33
	$455,289 20

In the item of mail earnings collected in 1874, is embraced $14,175 00, earned prior to that year, but collected in 1874.

OPERATING EXPENSES.

	1874.	1875.
For conducting transp.	$802,693 73	$755,481 45
For motive power	796,720 36	729,422 36
For maintenance of way	781,140 35	716 610 00
For maintenance of cars	243,386 96	249,916 45
For general expenses	162,409 66	152,695 08
Total	$2,789,351 06	$2,604,125 34

The operating expenses, in 1875, were reduced, compared with the preceding year, as follows:

Expenses of conducting transp	$47,212 28
" motive power	70,298 00
" maintenance of way	64,530 35
General expenses	9,714 58
Total	$191,755 21
There was an increase in the expenditures for maintenance of cars over that of the preceding year of	6,529 49
Total	$185,225 72

SUMMARY OF EARNINGS AND EXPENSES.

	1874.	1875.
Earnings from all sources	$5,126,228 03	$4,656,763 83
Operating expenses	2,789,351 06	2 604,125 34
Net earnings	$2,336,876 97	$2,052,638 49
Percentage of gross earnings	54.41	55.92
Gross earnings per mile of road	$7,886 50	$7,164 25
Expenses per mile of road	4,291 31	4,006 34
Net earnings per mile of road	$3,595 19	$3,157 91

INCOME ACCOUNT.

Balance at the credit of this account, January 1st, 1875	$119,893 67
Gross receipts from traffic	4,656,763 83
Total	$4,776,657 50

DISBURSEMENTS.

Interest on funded debt	$574,284 22	
Interest on convertible scrip	70,553 00	
Paid St. Louis, Jacksonville and Chicago, rent	240,000 00	
Paid Joliet and Chicago, rent	131,605 00	
Paid Louisiana and Missouri R. R, rent	41,801 24	
Paid dividends, Nos. 24 and 25	1,021,572 00	
Paid sinking fund	47,000 00	
Operating expenses (less taxes unpaid)	2,523,256 51	
		4,650,071 97
Balance December 31st, 1875		$126,585 53

Large sums have been appropriated from Income Account in years past, when the company had no other available fund for procuring additional property, or for improvements, and, subsequently, when bonds and shares of stock were sold to provide funds for such purposes, that account was not reimbursed by the entry of corresponding amounts. Had such entries been made, a much larger balance would appear at the credit of that account.

The general assets of the company at the close of the year, in addition to its railway and equipment, consisting of supplies, fuel, etc., on hand for future use, securities of the Mississippi River Bridge Company, bills and accounts receivable, stocks, cash, and cash assets considered good, in excess of bills and accounts payable, amount to $1,123,531 03, which may be considered the accumulated surplus, in which is included the balance to the credit of Income Account.

The hostility of the Grangers has been manifested for several years by an attempt to tax railway franchises, capital stock, indebtedness and property, in our opinion unjustly, and State and county taxes assessed against your company for the years 1873 and 1874, excepting the taxes on personal property, have not been paid.

The act of the Legislature under which these taxes were levied was deemed unconstitutional, and the assessment upon which the taxes were levied to be in violation of the law. Suits were brought in the Circuit Court of the United States, and the company was enjoined from paying these taxes. After a full hearing, the injunctions were made perpetual, and the State authorities appealed from the decision to the Supreme Court at Washington. These cases will be heard about the first of March next, when it will be finally decided what sum, if any, the company will be obliged to pay on account of taxes for these years.

PASSENGER TRAFFIC.

The number of passengers transported during the year was 862,264, or 4.64 per cent. less than during the preceding year.

The proportion between through and local passengers being 4.89 per cent. of the former to 95.11 per cent. of the latter.

The average distance traveled by each passenger in 1874 was 48 05 miles. Average distance traveled in 1875 was 46.70 miles.

The average rate paid per mile by all passengers in 1874 was 3.267 cents. Average rate in 1876, 3.126 cents.

The average rate per mile paid by local passengers in 1874 was 3.609 cents. Average rate per mile in 1875, 3.319 cents.

The average rate per mile paid by through passengers in 1874 was 2 500 cents. Average rate per mile in 1875, 2.583 cents.

Rates for one Thousand Mile Ticket in 1874 and 1875, 3 cents per mile.

Average fare paid by each passenger in 1874 was one dollar and fifty-seven cents.

Average fare paid by each passenger in 1875 was one dollar and forty-six cents.

Passenger earnings on business to and from other roads in 1874 was $372,599 95.

Passenger earnings on business to and from other roads in 1875 was $285,865 99.

Decrease, $86,733 96.

Earnings from local passengers in 1874 was $1,099,480 64.

Earnings from local passengers in 1875 was $1,002,664 18.

Decrease, $96,816 46.

Number of passengers carried one mile, 39,913,-851.

FREIGHT TRAFFIC.

The freight transported during the year amounted to 1,545,802 tons, an increase of 8.77 per cent. over the amount transported in 1874.

The amount of local and through freight being 88.35 per cent. of the former to 11.65 per cent. of the latter.

The increase in local freight being 12 71 per cent., and the decrease of through freight 14.04 per cent.

The number of tons of freight transported one mile was, in 1874, 162,306,676 tons, and in 1875, 168,923,879 tons.

Increase, 6,613,203 tons.

The average rate per ton per mile was, in 1874, 2.123 cents; in 1875, 1.878 cents. Decrease, .245 cents per mile.

The average distance each ton was transported, was, in 1874, 114.20 miles; in 1875, 108.63 miles. Decrease, 5.57 miles.

Tonnage of through line freight from St. Louis in 1874, 127,266,057 pounds; in 1875, 111,583,418 pounds. Decrease, 15,682,639 pounds.

Tonnage of through line freight to St. Louis in 1874, 24,595,756 pounds; in 1875, 31,761,863 pounds. Increase, 7,166,107 pounds.

Average earnings per ton per mile on through line freight in 1874, .945 cents; in 1875, .753 cents. Decrease, .192 cents.

Aggregate tonnage of freight to St. Louis in 1874, 186,050 tons; in 1875, 183,887 tons. Decrease, 2,163 tons.

Aggregate tonnage of freight from St. Louis in 1874, 105,679 tons; in 1875, 134,505 tons. Increase, 28,826 tons.

Tonnage to Chicago in 1874, 626,705 tons; in 1875, 647,094. Increase, 20,389 tons.

Tonnage from Chicago in 1874, was 232,154 tons; in 1875, 280,202 tons. Increase, 48,048 tons.

Tonnage to Mexico in 1874, 39,463 tons; in 1875, 43,940 tons. Increase, 4,477 tons.

Tonnage from Mexico in 1874, 29,243 tons; in 1875, 22,361 tons. Decrease, 6,882 tons.

The aggregate mileage of freight cars during the year 1874, was 27,516,407 miles; in 1875 it was 27 840 615. Increase, 324,208 miles.

The per centage of the whole mileage, loaded and partly loaded was, in 1874, 69.365 per cent.; and in 1875, 69.626 per cent.

The mileage of empty cars hauled in regular service was, in 1874, 30.636 per cent.; and in 1875, 30.374 per cent.

Average tonnage of loaded cars hauled in regular freight service was, in 1874, 8.503 tons, and in 1875, 8.781 tons per car.

The average tonnage of all freight cars hauled in regular service, loaded and empty, was, in 1874, 5.898 tons, in 1875, 6.131 tons per car.

Train department statistics.	1874.	1875.
Miles run by passenger trains	1,008,926	945,950
Miles run by revenue freight trains	1,359,023	1,362,023
Total mileage of revenue trains	2,367,949	2,307,973
Earnings per passenger train mile	$1 61.667	$1 53.048
Earnings per freight train mile	2 53.629	2 33
Gross earnings divided by mileage of revenue trains gives earnings per train mile	2 16.48	2 01.76
Average expenses per revenue train mile	1 17.80	1 12.83
Net earnings, per revenue train mile	98.68	88 93
Number of passengers carried per train mile	43.078	42.194
Average number of tons revenue freight carried per train mile	119.429	124.024

Company's freight not included above. Mileage of construction, wood and switching trains, not included.

The whole number of miles run by locomotives during the year was 3,539,879 miles, being 22,746 miles less than in 1874.

The cost per mile run for repairs, wages of engineers and firemen, fuel, oil, waste, cleaning, etc., was 19.25 cents, or 1.55 cents per mile less than in 1874.

There was consumed, in operating your lines, 94,028 tons of coal and 9,428½ cords of wood.

ROLLING STOCK.

The number of engines and cars upon your lines at the close of the year is as follows:

Locomotives, of which 40 are provided with the Westinghouse Automatic Air Brake, and 8 with Driver Brakes	156
Pullman sleeping cars (three not in use)	12
Pullman dining cars	5
Passenger coaches	58
Postal cars	2
Baggage and mail cars	8
Baggage and express cars	6
Baggage cars	5
Express cars	5
House cars	1,614
Combination (box and stock) cars	151
Stock cars	397
Platform and coal cars	885
Dump coal cars	10
Drover's cars	23
Tool and wrecking cars	6
Paymaster's cars	1

Comprising 98 cars for use in passengers trains, (ninety of which are provided with the Westinghouse Automatic Air Brake), and 3,080 freight cars of different kinds.

PERMANENT WAY.

Eight thousand eight hundred and eleven tons of steel rails, two hundred and thirty eight tons of iron rails, and two hundred and thirty nine thousand two hundred and ninety seven cross ties, and proportionate amounts of other materials have been used in track repairs.

Your company has at the close of the year, 276.65 miles of track laid with steel rails, 93.93 miles of which was laid during the last year.

Considerable damage to bridges and to the road bed was occasioned by unprecedented rains on parts of your lines in July last, which caused increased expense for repairs.

IMPROVEMENTS.

There has been expended during the year for locomotives and additional cars purchased, $85,004 30. For additional cost of steel used in track repairs over cost of iron and for improvement of permanent way, $353,400 81, and sundry smaller amounts for improvements, making an aggregate of $523,710 20.

On the 27th of January, 1875, a circular was forwarded to each stockholder in relation to the proposed lease of the Chicago and Illinois River Railroad, which had been built from Joliet to the Mazon river, traversing the Wilmington coal fields, upon a line nearly parallel with yours, at a distance of about four miles, threatening formidable competition with your railway.

A majority of the stockholders having consented in writing to the leasing of the road between Joliet and the Mazon river, the Board of Directors directed a lease to be executed, and it was made on the 1st day of March last. The lease provides for operating the road by your company upon an agreed basis of 70 per cent., to be retained for operating expenses, and for a division of the net earnings from the coal traffic on the line of the Chicago and Illinois River Railroad Company and that of your company between Joliet and the Mazon river, your company taking ⅔ and the Chicago and Illinois River Railroad Company taking ⅓, and for the payment to the Chicago and Illinois River Railroad Company of thirty per cent. of the gross earnings from other traffic.

The authority above mentioned authorized the Board to incur such obligations for the Chicago and Illinois River Railroad Company as might, under the circumstances, be necessary.

In pursuance of such authority the Board directed the guarantee by your company of the coupons attached to 700 7 per cent. currency thirty year bonds for $1,000 each. The payment of the bonds and coupons was secured by a mortgage of the rental to be paid to that company, and certain coal lands. Afterward, by agreement, the amount of coal lands embraced in the mortgage was reduced, and the Chicago and Illinois River Railroad Company retired and canceled 226 of the bonds above mentioned and the coupons thereto attached, leaving 474 bonds outstanding.

The road has been put in running order, and is now operated by your company, but sufficient time has not elapsed for the development of the coal fields on the new line to produce much additional coal traffic.

We are, however, well satisfied that the increase of traffic and other advantages resulting from the operation of that line by your company, will fully compensate you for all that is to be paid for its use.

By an agreement entered into in November last, between the Chicago, Pekin and South Western Railroad Company, the Chicago and Illinois River Railroad Company and your company, the first named company was granted the right to run its trains over the new line upon payment of its proportionate share of the interest on the value of the road, and the expense of keeping the same in repair.

The amount to be paid by the Chicago, Pekin and Southwestern Railroad Company is not to be less than one fourth of the interest and the expense of repairs and taxes, and is not to exceed one half of these amounts.

The last named company is not to have the right to do any local business upon the line of the Chicago and Illinois River Railroad Company, and will not interfere with coal traffic from the Wilmington coal fields.

The bridge over the Mississippi river at Louisiana being owned by your company, the basis for a division of earnings between your road and bridge in cases of traffic passing over both, has been, for convenience and uniformity, arbitrarily assumed to correspond with the minimum charges made at other similar bridges over that river. That mode of keeping the accounts shows that the bridge earned, from passenger traffic, $8 598 55; from freight traffic, $55,000 00, making an aggregate of $63,598 55. Deducting operating expenses and repairs, say $4,903 60, leaves $58,694 95, or 7⅛ per cent. on its cost.

Continued experience in operating the leased lines confirms their estimated value to your company. The traffic over them has been reduced, in comparison with that of the preceding year, in about the same proportion and for the same causes as that over your main line.

The gross earnings upon your lines during the last year were less than for any year since 1868.

The receipts from passenger traffic were less than in any year since 1867.

If the reduced earnings had been due to the opening of new lines competing with yours, or to any cause of a permanent character, it would lead to serious apprehension as to the future value of your property, but to all who have been well advised as to the crops during the last two years in the country traversed by your lines, the cause of this large decrease in earnings is apparent.

The large reduction in passenger receipts results, to a considerable degree, from the general prostration of business throughout the country. But the number of passengers, as well as the amount of freight taansported, has been largely reduced by the successive short crops.

In 1873 the crop of corn was about one half the usual quantity, and furnished to your line for transportation in 1874, 8,529,010 bushels, the amount transported the preceding year being 11,207,377 bushels. In 1874 the corn crop was in many sections almost an entire failure, and furnished for transportation in 1875, 4,929,991 bushels, or about 45 per cent. of the average of preceding years.

Upon the corn crop of the preceding year depends not only the amount of corn to be transported, but also the number of cattle and hogs.

As has been before stated, the passenger traffic in 1875 was 95.11 per cent. local, and was largely reduced in amount in consequence of short crops.

The reduction in passenger receipts and the loss of receipts from the transportation of corn alone (compared with those of the preceding year) amount to a sum only $12,000 less than the entire reduction of receipts for the year, and the loss on the transportation of corn, cattle and hogs far exceeds the entire loss for the year. If the comparison is made between the amount of corn transported in 1873 (the crop of 1872 being no greater than an average) the loss on the transportation of corn alone is found to be $520,115, which sum exceeds the entire reduction of receipts in 1875, compared with 1874, by $50,651.

The coal traffic in 1875 shows an increase of 164,907 tons, or nearly 29 per cent. over that of the preceding year.

It is gratifying to observe that with an increased tonnage of freight transported, and more than an average amount of repairs and renewals charged in that account during the year, the operating expenses are less than in any year since 1868. The accounts for the last year show much that is encouraging in relation to future traffic.

Perhaps the best index we have of the progress of improvements in towns and upon farms where people rely upon your railway for transportation, is in the comparative amounts of lumber transported for building purposes.

The amount transported in 1875 was 84,443,440 feet, which exceeds that in 1874 by 12,016,440 feet, and that in 1873 by 3,846,223 feet. In many other articles transported, there was an increase compared with the preceding year.

The crops in 1875 were larger than for several years past. Your road and equipment has been in all respects maintained in first class condition, and your directors are confidently expecting better results from the traffic of the present year.

By order of the Board.

T. B. BLACKSTONE, President.

GENERAL BALANCES, December 31, 1875.

Cost of road and equipment		$17,805,956 90
Machinery and tools in shops		185,555 87
Meyer & Tilden, trustees, bonds, etc., in their hands, per contra		37,813 39

President.—T. B. BLACKSTONE.

Directors.—John Crerar, Lorenzo Blackstone, John J. Mitchell—term of service expires first Monday in April, 1876; T. B. Blackstone, John B. Drake, D. Willis James—term of service expires first Monday in April, 1877; John F. Slater, John A. Stewart, George Strant—term of service expires first Monday in April, 1878.

Secretary and Treasurer.—W. M. LARRABEE.

General Superintendent.—J. C. MCMULLIN.

Chief Engineer.—K. F. BOOTH.

Purchasing Agent.—A. V. HARTWELL.

Maine Central Railroad.

At the annual meeting of the stockholders of this company held at Augusta, Me., on the 22d ult., the reports of the President and Treasurer were read, and the following gentlemen elected directors for the ensuing year: Abner Coburn, Noah Woods, George L. Ward, James W. Johnson, James P. Cook, Samuel C. Lawrence, Frank Jones, Arthur Sewell, John B. Brown, William G. Davis and Darius Alden.

The number of directors has been reduced from thirteen to eleven. The transactions of the meeting were perfectly harmonious, the best of feeling prevailing. The vote for directors showed a reduction in the number of shares represented as compared with last year, the number thrown being 27,062 against 34,000 cast last year out of the total number of shares, which is some 36,000.

The result of the vote shows that more than one-half of the stock still continues to be held by parties interested in the Eastern Railroad and valued at some $3,500,000. The election for President was postponed to the 30th at a meeting of the board in Portland.

☞ The Topeka Equipment Company, incorporated under the laws of Kansas for the purpose of providing equipment for the Atchison, Topeka and Kansas Railroad, organized on the 9th ult by the choice of the following gentlemen as directors: A. S. Johnson, R. M. Spivey and Ed Wilder of Topeka, Kansas; F. L. Higginson, Wm. Endicott, Jr., Ed. W. Kingsley and Wm. T. Sanger of Boston, Mass. F. L. Higginson was elected President, and George L. Goodwin Secretary and Treasurer. The directors residing at Boston were elected an executive committee, with full power to transact the business affairs of the company.

☞ It is announced that the new route between New York and Philadelphia, recently completed, will be opened for travel on the 1st of May. This road is composed of the Central Railroad of New Jersey, thirty-three miles; the Delaware and Bound Brook, twenty-seven miles and the North Pennsylvania, twenty-eight miles, making the through distance between Philadelphia and New York eighty-eight miles. The roads will be operated as one line under the joint management of the New Jersey Central and the North Pennsylvania Companies.

☞ At a special meeting of the stockholders of the Peterboro' Railroad, held at Nashua, N. H., on the 27th ult., the directors were authorized to issue bonds to provide for their floating debt. The bonds authorized, not exceeding $175,000 in amount, are to be payable in 15 years, bearing 6 per cent interest, payable semi-annually, and to be free from taxes, to be converted into stock at the option of the holders.

Atchison, Topeka and Santa Fe Railroad.

The earnings of this road for the month of January, 1876, were $117,416, against $63,659 in January, 1875, an increase of $48,757; in February, 1876 the earnings were $133,000 against $78,409 in February, 1875, an increase of $54,591; and for the first three weeks of March, 1876, $142,000, against $104,051 for the corresponding period of the previous year, an increase of $37,499—the total earnings thus far in 1876 being $392,416, against $251,119 in 1875, an increase in two months and three weeks of $141,297. Referring to the extension of this road a correspondent writes:

"The Kansas Pacific will now find a foeman worth of its steel in the Atchison, Topeka and Santa Fe road, the Pueblo and Arkansas Valley branch of which was completed February 26, and which establishes a direct communication between Southwestern Colorado and the East. The route of the Atchison, Topeka and Santa Fe road lies, near its eastern terminus, in a thickly settled portion of Kansas, and its westward course passes through to the beautiful and rich agricultural lands of the Cottonwood and Arkansas valleys, which it will open to speedy settlement. Besides this it affords a ready and accessible communication with the vast mineral and agricultural area of the southern portion of our country."

Pittsburg, Cincinnati and St. Louis Railway.

At a meeting of the stockholders of this company, held at Columbus, Ohio, on the 21st ult., the following gentlemen were elected directors: Thomas A. Scott, George B. Roberts, Josiah Bacon, Wistar Morris, Strickland Kneass and H. Houston, of Philadelphia; Joseph N. Du Barry, of Baltimore; J. N. McCullough and William Thaw, of Pittsburgh; Robert Sherrard, jr., of New York; David S. Gray, of Columbus; George W. Adams, of Dresden, Ohio, and Alfred Gaither, of Cincinnati.

This is the old Board entire, with the exception of the election of Mr. Du Barry to fill the vacancy occasioned by the death of Hon. Thomas L. Jewett.

No change was made in the officers of the road, and much satisfaction was expressed with the management. The road was reported in good condition. The results for the year were generally favorable. Although there was considerable reduction in its gross earnings, there was also a like reduction in the expenses of the road.

☞ A re-charter of the Baltimore, Towsontown, Dulaney's Valley and Delta Narrow Gauge Railroad Company has been filed and recorded in the executive chamber, at Annapolis, Md. The termini of the road are some convenient points on the northern limits of Baltimore city, and running thence through Baltimore county, by way of Towsontown and Dulaney's valley, through Hartford county, to Delta, in York county, Pa.; thence to Susquehanna river, in York county, Pa. The charter authorizes the company to have and to hold branches not exceeding twenty miles. The capital stock is $600,000. The incorporators are Robert R. Kirkland, R. H. Mitchell, Harry Gilmor, E. Stanley Rogers, T. Sturgis Davis and Frank Jones.

☞ It is proposed to commence running regular trains on the Scioto Valley Railroad, between Columbus and Circleville, Ohio, on or about the 1st of April.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Asterisk "*" in earnings in the column headed "Rolling Stock" signifies that the cost thereof is included, in that case, in the land grant. A cash [illegible] across the column signifies "same" and leading dots (.....) signify "not ascertained." Land Grant Railroads are printed in "Italics." Standard Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, April 1, 1876.

Financial and Commercial Affairs.

Money has been in fairly active request during the week, but the ample offerings of capital have given borrowers in good standing the advantages as to rates of accommodation, which have been from 2@5 per cent on call, and 4½@7 per cent per annum, in the discount line. The speculative inquiry for aid has been less urgent, the dealings at the Stock and Gold Boards having been less extensive. The mercantile interest has not been in great need of financial help for active operations, the Spring trade thus far having been within comparatively moderate limits: in most lines far short of the expectations so freely indulged in earlier in the year. The produce movement, especially in Breadstuffs, Provisions and Cotton, has been quite animated, all things considered. General merchandise, however, has not met with anything like a satisfactory market, as a rule. The City bank statement shows a further decrease in the reserves. The U. S. Sub Treasury office has enlarged its cash balances moderately. The percentage of gold and legal tender notes to the deposits on the last City Bank exhibit was 30.47, as against 30.81 the preceding week, 31.16 on March 13, 30.75 on March 6, 31.08 on Feb. 26, 31.59 on February 19, and 32.24 on February 12. Deducting the specie item in full, the remaining deposits are represented by a legal tender reserve of 22 72 per cent, as against 23.01 per cent. the preceding week. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,792,000. The City Banks have had their deposits reduced $6,403,800; and their legal tender reserve $1,834,200.

The specie average has been diminished $865,400. The loan and discount item was contracted $2 612,700. The circulation was cut down $283,600. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,696,923 against $35,181,330 the preceding week; and a coin board of $46,676,813 against $45,910,857 on the previous return. The City bank exchanges in currency reached $347,455,573, or a daily average of $57,909,262. The customs revenue of the port during the week was $2,545,000. The City banks reported their average of gold last week at $21,504,000, and their greenback average at $43,773,900. Their deposits stood at $241,181,600. The loan item was $261,154,000. The circulation was $16,199,700.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $11,732,500.

The aggregate of the outstanding U. S. currency, of all denominations, March 1st was $416,584,372. The outstanding amount of legal tender notes is $370,943,392. The National bank circulation is now $339,325,239, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $4,975,723; special deposit of legal tenders for the redemption of certificates of deposit, $12,475,000; Coin, $74,977,239; Coin certificates, $34,242,000.

The week's import entries of Foreign Merchandise at New York were $5,610,582, including $2,027,327 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 84¾ millions; and from Customs, 113½ millions.

The specie exports from San Francisco, January 1st to March 16th, were $6,340,397.

The Gold market has been moderately active. The earlier speculative dealings exhibited more spirit and confidence, but toward the close the market was tamer and lower. The customs drain was on a rather more liberal scale. The export movement was moderate. The extremes of the price during the week have been 113⅝@114⅜, closing on Wednesday at 113⅝ as against 114⅛, on Wednesday of the preceding week. The specie outflow last week was $1,424,094 against $1-140,371 the previous week. The imports of specie at this port last week were $255,286, and since January $1,167,212, as against $3,895,857 same time last year. The customs demand for gold last week averaged $424,167 per day. Foreign Exchange has been moderately sought after, closing firmly. Bankers sixty day bills on London closed on Wednesday at $4 86¾@$4 87¼; sight bills on London at $4 89¾@$4 90¼ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,449,133. The week's imports of Dry Goods and general merchandise were to the specie value of $5,610,582 as against $7,127,029 the corresponding week of 1875.

Government Securities have been more freely purchased on investment account, and values at the close ruled firm, on restricted offerings of most issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $353,895,700.

U. S sixes of 1881 closed on Wednesday of this week at 122½@122⅝; U. S. Five-Twenties of 1865, 118½@118¾; U. S. Five-Twenties of 1865, consolidated, 119@119⅛; U. S. Five-Twenties of 1867, 121¼@121½; U. S. Five-Twenties of 1868, 122¾@123¼; U. S. Ten-Forties at 118⅞@119⅛; U. S. Fives of 1881, (Funding Loan) 118½@118⅝; Six per cent. currency Sixes, 126¼@126½.

State and Railway bonds have been less active yet generally quoted about steady. And in the line of Railway and Miscellaneous share property business has been comparatively limited, and values have been unsettled, closing weak and feverish.

General business has been fair in domestic produce, prices of which have been comparatively well supported. Foreign merchandise has met with a rather slow sale and has been quoted weak and irregular as to values. The Metal trade has been more animated, but at lower figures for American Pig Iron. Sales have been reported of 1500 tons No. 1 and No. 2 American Pig at $22@$20; 2 000 tons No. 1 and No. 2 Thomas, on private terms; 750 tons Scotch Pig, and 12,500 tons Iron Rails on private terms. And of Steel Rails, (rumored,) 6,000 tons on private terms. Eglinton Pig Iron quoted here at $23 50@$29; Glengarnock $31; Coltness $32; No. 1 American Pig at $22; No. 2 do. at $20; Forge, $16 50@19 00; American Rails at works, $42@$45; Old Rails $22@$23. Wrought Scrap, $31 00@$32 00. Ocean freights have been less active and generally quoted less firm. Room less sought after for early use.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Erie Railway.

Messrs. Fleming and Miller the Committee representing the English holders of the First and Second Consolidated Bonds of the Erie Railway Company, having concluded their negotiations with the directors of the company, sailed for home in the steamer Adriatic on the 25th ult. The arrangement effected with them contemplates the funding of every alternate coupon of the First Consolidated bonds, and all the coupons of the Second Consolidated bonds for five years. This plan is said to be acceptable to the committee, and it is believed by them that it will be equally so to the bondholders abroad.

Chesapeake and Ohio Railroad.

In the City Circuit Court at Richmond, Va., on the 22d ult., Judge Wellford decided in substance, in regard to the petition of William C. Wickham, Receiver, for instructions as to the disbursement of funds belonging to the Chesapeake and Ohio Railroad, in his hands, that the Receiver might use his own discretion in the payment, giving preference to the persons actually employed in the service of the road, and that he apply from time to time, as they may accrue, and as far as necessary, the residue of the surplus earnings in extinguishment of the accrued interest on the obligation known as the Virginia Central bonds. By this decision the employes and officers of the company will get their back pay.

☞ The United States Supreme Court has decided that the present county of Laramie, in Wyoming Territory, is responsible for the payment of the entire debt previous to the segregation from it of two other counties. This case has excited much interest, for the reason that it is understood to involve the same question that is now in controversy between the States of Virginia and West Virginia, as to the liability of the former, as now constituted for the debt incurred by the old State, when it comprised the whole territory that was subsequently divided between them.

☞ The Kentucky Court of Appeals has overruled the petition of the Trustees of the Louisville, Cincinnati and Lexington Railroad, by which it was sought to gain a new trial of the employes against the corporation, for back pay. The suit has been in court for nearly two years, and the amount represented in this particular case is $134,000, of which the attorneys will receive ten per cent for services in obtaining what has generally been considered hopeless. The railroad is now flourishing and the money will be probably paid out of present earnings.

☞ The Davenport and St. Paul Railroad was sold at Davenport, Iowa, on the 23d of March by H. P. Dillon, Special Master in Chancery, and purchased for the bondholders by T. H. Myer, Trustee, for $500,000. The sale was ordered by a decree of the United States Circuit Court, in the suit of the German bondholders against the company, for recovery of nearly four millions of bonds on a mortgage given by the latter. There is now a prospect of its being completed to Davenport, from its present terminus, one and a half mile.

☞ The directors of the reorganized first division of the St. Paul and Pacific Railway are: John S. Barnes, W. H. Scott, A. G. Dulman, and Henry M. Baker, New York; Edwin C. Litchfield, Brooklyn; E. Darwin Litchfield, London, and George L. Beckar, St. Paul. President, John S. Barnes; General Manager, J. B. Farley.

☞ The rails on the Anderson, Lebanon and St. Louis Railroad are laid from Anderson, Ind., westward 12 miles, and construction trains are running. The work of extending the track towards Lebanon is being pushed forward as fast as possible.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, No. 68 WILLIAM ST., NEW YORK, March 16, 1876.

DIVIDEND NOTICE.

NOTICE IS HEREBY GIVEN THAT A DIVIdend on the preferred stock of this company, of $7 per share, has been declared out of the net earnings of 1874, and a further dividend of $7 per share out of the net earnings of 1875, said dividends to be paid on the 10th day of April next, in the consolidated sinking fund bonds of this company.

The transfer books will be closed on the 23d day of March, at 3 P. M., and reopened on the 10th day of April next. JULIUS WADSWORTH, Vice Pres't.

THE Coupons, due April 1, 1876, of the First Mortgage Bonds of the Southern Pacific R. R. Co. (of California) will be paid at the office of the Company, Nos. 9 Nassau st. and 11 Pine st., New York.

C. P. HUNTINGTON.

THE Coupons, due April 1, 1876, of the Central Pacific R. R. Co. Land Bonds, and of the Central Pacific R. R. Co. (San Joaquin Valley Branch) First Mortgage Bonds, will be paid at the office of FISK & HATCH, No. 5 Nassau st.

C. P. HUNTINGTON, Vice-President.

The earnings of the Philadelphia and Erie Railroad in February, 1876, were $226,915 61, the expenses $189,343 34, and the net earnings $37,572 27. The net earnings in January and February, 1876, have been $117,924 07, against $81,042 56, in January and February, 1875, an increase of $36,881 51.

The Coal Trade.

The Philadelphia *Ledger* of March 27th says that "the return of the trade from all the regions for the week ending on tue 18th instant foots up 80,173 tons, against 119,804 tons for the corresponding week last year, showing a decrease of 39,631 tons. The total amount of anthracite sent for the year is 2,287,285 tons against 2,338,860 for same period last year, a decrease of 51,975 tons. The quantity of bituminous coal sent to market for the week was 9546 tons, against 58,275 tons for corresponding week last year, an increase of 1271 tons. The whole bituminous tonnage from the beginning of the coal year to the 18th instant is 674,482 tons, against 478,491 tons in corresponding time last year, an increase of 195,991 tons. The total tonnage of all kinds of coal for the week is 139,719 tons, being a decrease for the week of 38,360 tons, and the total tonnage for the coal year is 2,961,767 tons, against 2,816,851 tons to same date last year, an increase of 144,916 tons. The quantity of coal and coke carried over the Pennsylvania Railroadfor the last week was 80,155 tons, of which 66,793 tons was coal and 13,362 tons coke. The total carried this year is 623,955 tons, of which 506,141 was coal and 118,314 coke. This total embraces all the coal carried over the road east and west. At Port Richmond for the week ending on the 25th instant there were receipts of 1900 tons of coal and shipments of 14,000 tons, leaving 69,000 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 18th instant the receipts of coal were 2529 tons and the shipments 8296 tons, leaving 66,317 tons on hand." The *Ledger* adds:

The present aspect of the coal market just now is not especially encouraging, still the production of coal will no doubt increase from this time forth to the end of the season. The prices of coal of all the companies in the association are considerably lower than last year. The Reading Coal and Iron Company present the following as its prices of coal delivered on board of vessels at Port Richmond: Hard and free burning white ash, steamboat size, $4 35; broken, $4 45; egg, $4 55; stove, $5 15; Schuylkill red ash egg at $4 65 and stove at $5 15; Shamokin coal, egg, size, at $4 65, and stove at $5 25; Lorberry coal, $5 85 for broken, egg and stove sizes; Lykens' Valley vein coal at $5 75 for all sizes. The rates of transportation announced by the Reading Railroad Company, to commence from the 20th instant, are eight cents per ton higher from Schuylkill Haven to Philadelphia and Port Richmond than they were in March, 1875, and seventeen cents per ton lower than they were from July 1, 1875, to the 20th instant. The drawback of ten cents per ton on broken coal has ceased. The tolls by canal are the same as last year, with the exception of the drawback of fifteen cents per ton on broken coal, which has been taken off. The freight to this city is five cents per ton more than last year. The supply of anthracite coal for the month of April to competitive points is to be reduced, by the action of the Board of Control, from 852,000 tons to 652,000 tons. The following is the quota of each district: Philadelphia and Reading, 200,000 tons; Delaware and Hudson, 89,000; Central Railroad of New Jersey, 108,000; Lehigh Valley, 103,000; Delaware, Lackawanna and Western, 92,000; Pennsylvania Coal Company, 60,000; making the assigned total of 652,000 tons. The following will be the prices to contractors for coal deliverable free on board vessel at Weekawken, N. J., or Rondout, N. Y., between the 1st of April and the 1st of May next: Furnace, lump, $4 40; steamer, lump, $4 50; grate, $4 60, egg, $4 70; stove, $5 30; chestnut, $4 60. Terms cash, payable in New York city funds. Fifty cents per ton additional for freight and delivery by company boats or barges to carts at New York or Brooklyn. The Lehigh and Wilkesbarre Coal Company gives the following as the prices of coal delivered free on board at Port Johnston, N. J., for the month of April, reserving the right to charge the same at any time, except on contracts made prior to such variations: Old Company's Summit coal, lump, $5 10; broken and egg, $4 90; stove, $5 50; chestnut, $4 80; small chestnut, $3 50. Wilkesbarre coal, lump, $4 60; egg, $4 90; stove, $5 50; chestnut, $2 70; small chestnut, $3 50. A general resumption in the Lehigh region it is expected will take place on Monday next. The Lehigh Navigation is ready and will open for passage of boats in all the present week. The Lehigh Exchange has fixed the following prices at Mauch Chunk: Lump, $3, $2 75 to furnaces; broken and egg, $3 35; stove, $3 60; chestnut, $3 10; pea, $1 50.

The Head-Money Tax.

The following are the important points of the decision recently rendered by the United States Supreme Court in reference to the head-money tax:

No. 880—John Henderson and Thomas Henderson, Appellants, vs. William H. Wickham, Mayor of the City of New York, and the Commissioners of Emigration; appeal from the Circuit Court of the United States for the Southern District of New York; and No. 633—The Commissioners of Emigration vs. The North German Lloyd; appeal from the Circuit Court of the United States for the District of Louisiana. 1. The case of The City of New York vs. Miln (11 Peters, 103) decided no more than that the requirement from the master of a vessel of a catalogue of his passengers landed in the city, rendered to the Mayor on oath, with a correct description of their names, ages, occupations, places of birth, and of last settlement, was a police regulation within the power of the State to enact, and not inconsistent with the Constitution of the United States.

2. The result of the passenger cases (7 How., 283,) was to hold that a tax demanded of the master or owner of a vessel for every such passenger was a regulation of commerce by the State in conflict with the Constitution and laws of the United States, and, therefore, void.

3. These cases criticised and the weight due to them as authority considered.

4. In whatever language a statute may be framed its purpose and its constitutional validity must be determined by its natural and reasonable effect.

5. Hence, a statute which imposes a burdensome and almost impossible condition on the shipmaster as a prerequisite to his landing his passengers, with an alternative payment of a small sum of money for each one of them, is, in fact, a tax on the ship-owner for the right to land such passengers, and in effect on the passenger himself, since the shipmaster makes him pay it in advance as a part of his fare.

6. Such a statute of a State is a regulation of commerce, and when applied to passengers from foreign countries, is a regulation of commerce with foreign nations.

7. It is no answer to the charge that such regulation of commerce by a State is forbidden by the Constitution to say that it falls within the police power of the State, for to whatever class of legislative powers it may belong, it is prohibited to the States, if granted exclusively to Congress by that instrument.

8. Though it be conceded that there is a class of legislation which may affect commerce, both with foreign nations and between the States, in regard to which the laws of the States may be valid in the absence of action under authority of Congress on the same subjects, this can have no reference to matters which are in there nature national, or which admit of a uniform system or plan of regulation.

9. The statutes of New York and Louisiana, here under consideration, are intended to regulate commercial matters which are not only of national but international concern, and which are also best regulated by one uniform rule, applicable alike to all the seaports of the United States. These statutes are therefore void, because legislation on the subjects which they cover is confided exclusively to Congress by the clause of the Constitution which gives to that body the "right to regulate commerce with foreign nations."

10. The constitutional objection to this tax on the passenger is not removed because the penalty for failure to pay does not accrue until twenty-four hours after he has landed. The penalty is incurred by the act of landing him without payment, and is, in fact, for the act of bringing him into the State.

11. This court does not in this case undertake to decide whether or not a State may, in the absence of all legislation by Congress on the same subject, pass a statute strictly limited to defending itself against paupers, convicted criminals, and others of that class, but is of opinion that to Congress rightfully and appropriately belongs the power of legislating on the whole subject.

Railroad Earnings.

The earnings of the St. Louis, Kansas City and Northern Railway Company are as follows: March 16 to 23, 1876, $64,745 18; March, 16 to 23, 1875, $59,696 43—increase in 1876, $5,048 75. The increase from January 1 to date is $169,051 22.

The earnings of the Michigan Central Railroad for the third week in March, 1876, were $117,201 16, against $118,310 21 in March, 1875, a decrease of $1,109 05.

The earnings of the Chicago, Milwaukee and St. Paul Railway Company during the third week in March, 1876, were $105,000; corresponding period in 1875, $103,200—increase, $1,800; making a total excess for this month of $47,493. The increase since the first of January is $302,776.

The earnings of the Canada Southern Railway for the second week in March, 1876, were $44,212, against $27,382 for the corresponding week in 1875, an increase of $16,829.

The earnings of the Denver and Rio Grande Railway for the second week in March, 1876, were $693,657; for the corresponding week in 1875, $635,686—increase, $57,971.

The earnings of the Ohio and Mississippi Railway for the second week of March, 1876, were $86,331 68, against $80,265 85 in 1875, showing an increase of $6,065 83.

The earnings of the Union Pacific Railroad for twenty two days in March this year show an increase of $30,000 over the corresponding period of last year, and since Jan. 1 to March 22, inclusive, an increase of $241,000 over last year.

The Canada Southern Railway earned during the third week in March $41,253 35, against $21,244 73 for the same mileage during the corresponding period last year. Increase, $20,008 62.

☞ In New Hampshire, the Superior Court has decided that the law in relation to granting gratuities to railroads by towns is constitutional. It is said this decision insures the building of a railroad from Keene to Greenfield.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Ohio Short Line Railway, Millbrook to Indiana State line, by Wesley Chesrown and others, with a capital stock of $200,000.

Fog Signals.

From various sources of distinguished ability, both in England and this country, the use of guns as fog signals is announced. From the bell we have ascended to the steam whistle, and now it is quite possible, and for the best of reasons, that we will return to the old explosion of powder as the only proper warning for the ship enshrouded in the fog. Of course modern science will add to the gun certain acoustic adjustments which will not only intensify the sound but will give it direction. In the excellent articles which appear in Appletons' Journal and Van Nostrand's Engineering Magazine the advantages to be derived from cannon signals are clearly shown. One great point is that the machinery of the place as to its working is fully understood, and that the Government have many old guns worth hardly more than the iron, which, at a trifling cost, could be adapted to the purpose. Even without the acoustic additions, cannon would be useful. In England the Admiralty, warned by the loss of the Vanguard by collision with her consort, has ordered that in future guns shall be used as fog signal instruments. The loss of the Schiller on Bishop's Rock, where there is a light and a bell, might probably have been prevented had the dull booming of the gun been heard by the ship's officers. Of course, iron guns would have their use, but it would be more desirable, from the sharp ring they give, that bronze or brass guns should be employed. What effect a steel gun would have has not yet been determined. The chamber in the signal guns, which have been experimented upon, being the same, the question arose whether the attachment at the muzzle should be in the form of the parabola, the concave, or the cone. Major Maitland has decided in favor of the parabola, at the muzzle, claiming "that for sound, as for light the best reflector is that which will project the impinging waves in parallel directions to the front, and that for this purpose the parabola, supposing that the waves all emanated from its focus, is the best." The principle of the propagation of sound, and its intenseness when powder is exploded, may be better understood by the general reader when the difference of the report is listened to when a Creedmoor rifle is fired, with its short, sharp crack, and the booming of a blunderbuss.

☞ The newly elected Mayor of the City of Augusta, Me., in his inaugural address, gives the bonded and interest-bearing city debt as $320,300. The further liabilities of the city amount to $22 136 79. The total resources are $24,557 68. The reduction of the city debt the past year has been about $1,500. He recommends a reduction of the city debt for the present year to the amount of $3 000. He alludes to the proposed Augusta and West Waterville Railroad, and speaks of the vast benefit the enterprise will be to this city, by diverting to it the traffic of Western Somerset and all of the upper Kennebec Valley, which before many years will be transformed from forests to productive farms.

☞ The track of the Little Rock and Fort Smith Railroad is now laid and trains are running to Ozark, Ark., five miles beyond the late terminus at Altus and 125 miles from the eastern terminus at Argenta, opposite Little Rock. The work on the road west of Ozark is being pushed forward.

(From the New York Mercantile Journal)

American Iron for Steamships.

It is well known that John Roach, Esq., of Chester, Penn., has turned out some of the handsomest, largest and staunchest iron steamships (made wholly from American iron) of any of the shipbuilders in the world. These vessels are launched under the "Stars and Stripes," and have ever since sailed under them. Some of the fleet have been transferred as far South as the Chinese Seas; while one from the same yard went to Baffin's Bay, among the icebergs of the North, to rescue Captain Buddington.

From recent files of the Glasgow journals, we notice the arrival from America of superior iron plates for steamship purposes, equal to the famous "Thistle" brand of Scotland. The iron is an excellent coal-blast charcoal, equal to the best Pennsylvania, having simply the brand of a "Star." In Yorkshire, some superior plates are manufactured with the brand of the "Rose." Also we are informed that the "White Star Line," from Belfast, Ireland, bear upon each plate in their vessels the imprint of the "Shamrock." Thus, we see each district in the United Kingdom of Great Britain brands its sectional emblem on its iron plates—England the "Rose," Scotland the "Thistle," and Ireland the "Shamrock." Consequently, we would suggest the "Constellation of Stars" as the most suitable brand for Americans to use in sending their iron to England, where it is admitted to be superior to their favorites. They have had their day. The Rose will fade, the Thistle die, and the Shamrock wither; but the emblazoned Stars, in the blue heavens, will shine forever.

The evidence of the times shows our condition is gradually improving. Beginning at the lowest rounds of the iron ladder, we shall commence slowly to climb upward to that prosperity we deserve, for in no department of our great production or commerce shall we be better able to succeed in the markets of the world than in that of iron. Therefore, let the effort continue; let us climb higher and higher, until we have reached the topmost round of excellence and success, with the brand of the "Stars" on our iron, commanding as much respect as those on the banner of "Red, White and Blue," which represent the Constellation of Stars in the American Union.

"H."

☞ The following extract from a letter of a prominent banker in Richmond will be of interest to holders of Virginias: "The new tax bill will tax non-residents on Consols and Coupons, and the enhanced value of the bonds increases the tax, but the bill will not, it is believed, bring sufficient revenue to pay any interest this year."

☞ The road bed of the Gallipolis, McArthur and Columbus Railroad, between the residence of Cornelius Karnes, in Swan township, Vinton county, Ohio, and Gallipolis, is advertised to be sold at Sheriff's sale on the 29th of April.

☞ At Poughkeepsie on the 24th ult. Judge Barnard signed a decree ordering the sale of the Dutchess and Columbia Division of the New York, Boston and Montreal Railroad under foreclosure of the first mortgage bondholders.

☞ In the Nova Scotia Assembly on the 24th ult. the bill for the extension of the railway line to Cape Breton, and for subsidizing the company to the extent of $8,000 per mile and grants of Crown land, was passed to a second reading.

Channel Railway.

At a meeting of the Society of Engineers, held in London on the 6th of March, a paper was read by Mr. Perry F. Nursey on the Channel Railway. After referring to the public importance and utility of a means of direct railway communication between Great Britain and the Continent of Europe, and so of the East generally, the author described in brief all the leading schemes for tunnels, tubes and ferries, that had been brought before the public since the commencement of the present century, including those of M. Matthieu, the late M. Thome de Gamond, Messrs. Remington, Austin, Chalmers, Marsden, Bateman, Barlow, Grantham, Fowler, Bessemer, Dicey, Egerton and others. He then described the tunnel scheme of which Sir John Hawkshaw and Mr. Brunlees are the engineers, and the tube scheme of Mr. Paul J. Bishop, the engineering details of which Mr. Nursey had worked out in the year 1870. The tunnel scheme is for carrying a railway through the lower chalk between Dover and Calais, for which Sir John Hawkshaw's estimate is £10,000,000, and the time of execution put at ten years. Bishop's tube scheme is for laying a double line of tubes carrying a railway on the bed of the Channel between Dover and Cape Grinez, the tubes being laid from floating pontoons. The author explained by the aid of diagrams the engineering details of the latter project, and demonstrated its practicability. His estimate was £22,000,000, and the time of execution five years, or even less with fair weather.

☞ The Sunbury and Lewiston Railroad was sold at Philadelphia on the 23d ult., by order of the first mortgage bondholders, for $161,000. The purchaser was John K. Valentine, who is acting as attorney for a number of parties who intend to run the road. He paid $150,000 down in cash. It was stated privately that the principal purchaser interested is Josiah S. Hart.

☞ The directors of the Mineral Valley Railroad Company organized on the 22d ult. by electing John M. Pugh President, F. C. Burt Secretary, and F. C. Sessions Treasurer. It is proposed to push the work on this road and the necessary committees to accomplish that purpose have been appointed.

☞ The bill to amend the act to subsidize the United States, Nictaux and Atlantic Railway passed its second reading in the Nova Scotia House on the 25th ult. without a division. The length of the road will be sixty-four miles, and the subsidy will be over six thousand dollars a mile.

☞ The following gentlemen have been elected directors of the Pennsylvania Railroad Company for the ensuing year: Thomas A. Scott, Josiah Bacon, Wistar Morris, John M. Kennedy, Alex. J. Derbyshire, Samuel M. Felton, Alexander Biddle, N. Parker Shortridge, Henry M. Phillips, John Scott, Pittsburg.

☞ The directors of the Columbus and Mineral Valley Railroad Company, elected on the 14th ult., are: J. M. Pugh, R. F. Burt, P. Hess, D. W. Caldwell, John C. English, Lorenzo English, F. C. Sessions, Theodore Leonard, and Samuel Thomas.

Aspects of Philadelphia.

As Philadelphia is to be the seat this year of the great Centennial Exhibition, and as a large number of people from abroad will undoubtedly visit it, the British Consul at that port, Mr. Kortright, in his commercial reports, recently issued, details for general information the following statistics, which give at a glance the general aspect of the city:

Philadelphia has a population of nearly 800,000, and it lives in an area of 129½ square miles. The city has 1,000 miles of streets and roads opened for use, and over 500 of these are paved. It is lighted by nearly 10,000 gas lamps. The earth beneath conceals and is penetrated by 134 miles of sewers, over 600 miles of gas mains and 546 miles of water pipes. It has over 212 miles of city railways and nearly 1,794 city railroad cars passing over these railroads daily; 3,025 steam boilers; over 400 public schools, with suitable buildings, and over 1,600 school teachers, and over 80,000 pupils. It has over 34,000 bath rooms, most of which are supplied with hot water, and for the use of the water at low rates the citizens pay more than a half million of dollars; it has over 400 places of public worship and accommodation in them for 300,000 persons; it has nearly 9,000 manufactories, with a capital of $185,000,000, employing 145,000 hands, the annual product of whose labor is over $384,000,000. It exported in 1873 in value over $24,000,000, and imported in value over $26,000,000; the amount for duties in gold was nearly $8,500,000; the real estate, as assessed for taxation, was over $158,000,000, and there was collected nearly $9,000,000 for taxes.

☞ The Supreme Court of the United States has affirmed the validity of municipal bonds issued by the Town of Venice, New York, in aid of the construction of a railroad which was to pass through the City of Auburn, and connecting Lake Ontario with the Susquehanna and Cayuga Railroad or the New York and Erie Railroad in pursuance of a law requiring the assent of two thirds of the tax payers, the court holding the provisions of the law sufficiently complied with. Mr. Justice Strong delivered the opinion. Three other similar cases were disposed of by the decision in this.

☞ The Supreme Court of the United States has affirmed a judgment against the Town of Colorado, Illinois, on bonds issued in payment for a subscription to the capital stock of the Chicago and Rock Island Railroad Company, for which it received in return certificates of shares of the stock, holding the issue of the bonds to have been authorized by sufficient legislation, and intimating that a defense of want of authority to issue the bonds while the town retains the shares of stock for which they were issued is not strictly honest. Mr. Justice Strong delivered the opinion.

☞ John F. Kidder has been elected Superintendent of the Nevada County Narrow Gauge Railroad, and T. W. Sigourney Business Manager of the affairs of the company.

☞ The aggregate receipts of all the Italian lines in 1875 were £5,792,771, as compared with £5,624,637 in 1874. In the course of 1875 new lines were opened in Italy to the extent of 194¼ miles.

☞ An ingot of steel, weighing ten tons, intended for the Centennial Exhibition, was cast in the Pennsylvania Steel Works at Baldwin, Pa., on the 27th ult.

☞ The Board of Government Supervising Inspectors of Steam Vessels adopted, at a recent session, regulations for a uniform manner of inspecting and testing boiler plates intended to be used in the construction of marine boilers. The Board has also prescribed formulas in accordance with which the tests are to be uniformly made and tables setting forth an extract record of the test. The Riehle Testing Machine has been adopted for making the tests as to tensile strength, and each of the ten inspection districts has been furnished with one.

☞ The first locomotive in China has made a trial trip on a tramway near Shanghai.

LAWRENCEVILLE
CEMENT COMPANY.

ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries; situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

Pork Packing in the West.

The number of hogs packed the past winter in the West was 4,880,135 a falling off of 686,091 compared with last year. The average net weight per hog was 217.71 pounds, an increase of 7.94 pounds, or 3.78 per cent. The total pounds of hogs show a falling off of 105,183,436 pounds net weight or a decrease of 9 per cent. The average yield of all kinds of lard per hog is 35.35 pounds, an increase of 1¼ pound. The total pounds of lard were 173,016,580, a decrease of 17,364,027 pounds, equivalent to 54,262 tierces, equal to 9⅛ cent. of the product. The decrease in receipts of hogs at Eastern cities, including Boston, New York, Philadelphia, Baltimore, Albany, Troy and Buffalo, show a falling off of over 300,000 for the winter, which makes in round numbers a deficiency of 1,000,000 hogs marketed in and from the West during the winter compared with last year.

The Immigrant Tax Unconstitutional.

The United States Supreme Court on the 20th ult., pronounced the head money tax levied at this port upon the owners of ships landing immigrants unconstitutional. The decision will probably compel the doing away with the State Commission of Emigration, or else its radical reorganization. The State is of course at liberty to continue such a commission as a local charity, but not at the cost of our foreign commerce, or of any class of vessels, foreign or American, engaged therein. This decision is followed by an opinion to the same purport against the local authority of California to tax immigrants, under any pretext whatever, entering the port of San Francisco.

☞ Upon the petition of the Illinois Central Railroad Company, Judge Emmons, of Memphis, has appointed J. B. Alexander Receiver of the New Orleans, St. Louis and Chicago Railroad.

CHAS. PFEIFER, Constructing Engineer. C. J. SCHULTZ, Proprietor.

IRON CITY BRIDGE WORKS

OF PITTSBURGH, MANUFACTURE

Iron Lattice, Truss, Arch & Plate BRIDGES,

IRON ROOFS, STEEPLES, RAILROAD TURN TABLES AND BRIDGE BOLTS.

Office, No. 116 Smithfield Street,

E. MILLER, Patentee.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, April 8, 1876.

Panama Railroad.

At an election for directors of this company held in this city on the 3d inst., the following gentlemen were chosen to serve for the ensuing year: John R. Marshall, Trenor W. Park, Frederick Butterfield, Charles G. Francklyn, Senator John P. Jones, Thomas Clyde, Samuel C. Thompson, Andrew Boardman, General H. H. Baxter, George A. Hoyt, J. G. McCullough, William P. Clyde and John M. Burke. The new board of directors was organized on the 4th inst., by the election of T. W. Park President, J. G. McCullough Vice President, and W. J. Emmet Secretary and Treasurer. The Board decided to take immediate and effective measures against the Pacific Mail to recover the money due the company. The Board also adopted unanimously the following resolutions:—

Whereas, The Pacific Mail Steamship Company, as appears by the Treasurer's statement, is indebted to this company for money collected by them on traffic account, in an amount exceeding four hundred thousand dollars, which thus far every effort has failed to collect; and

Whereas, This company is thus left without sufficient funds in hands to pay the usual quarterly dividend of three per cent, amounting to $210,000; therefore,

Resolved, That it is the judgment of this board that the current quarterly dividend of the 15th inst. be passed.

Resolved, further, That the Board, in view of the fact of the establishment of the new and additional through line of the Panama Transit Steamship Company, feel confident that the receipts of the road will be greatly augmented in the future by reason of the increased number of steamers per month running to and from the isthmus, and the favorable terms of the contract made and existing between this company and the new steamship line.

American Steamship Co.

At the annual meeting of this company in Philadelphia on the 3d inst., the following officers were chosen: President, Henry D. Welsh; Directors, Josiah Bacon, B. H. Bartol, John Price Wetherill, D. B. Cummins, M. Baird, N. Parker Shortridge, Strickland Kneass, William D. Winsor, G. B. Roberts, George N. Allen. From the report which was presented we learn that the receipts were: For freight, $794,138 59; passengers, $288 309 14; miscellaneous, $1872 29; total, $1,081,320 02. From which deduct ordinary operating expenses, $886,258 89, showing receipts over ordinary expenses to be $195,061 13.

The disbursements for shore expenses, expenses of agents, advertising, wharfage, &c., amounted to $126,565 73; extraordinary repairs and expenses of steamers, $38,033 40– making the gain for the year, $30,462 which compared with the operations of the year 1874, when a loss of $48,914 26 was shown, is equivalent to a gain of $79,376 26.

The balance remaining in the hands of the General Agents, January 1st, 1876, was $30,823 92, which since that date has been drawn from them, and the only outstanding indebtedness of the Company, other than that due the Pennsylvania Railroad Company, paid off.

For the six months of the year the operations showed a loss of $46,305 25. In the succeeding six months the gain on the operations was $76,767 25. The gain for the year, $30,462, is without the interest on the bonded debt of the Company, which, as it has matured, has been met by advances to this Company by the Pennsylvania Railroad Company.

The Treasurer, Mr. R. W. Smith, reported the debtor account on capital stock, bonds, &c., at $2,763,491 21, and the credit, including steamships and $1590 cash on hand, at $2,763,491 21.

Canadian Pacific Railway.

In the House of Commons, at Ottawa, on the 31st ult., the Premier described the progress made by the policy of the Government, so far as it can be determined upon, in connection with the construction of the Canada Pacific Railway, noticing in the first instance the difficulties which stared the Government in the face in their assumption of office. He referred to the task of surveying the several routes it had been necessary to examine in order satisfactorily to locate the line through British Columbia and fix the western terminus. The total cost of the Pacific surveys have been $2,286,907, of which $1,010,115 has been spent west of the Rocky Mountains. From the first the Jasper House Pass in the Rocky Mountains has been looked upon as the one that would certainly be adopted. From that point the New Westminster route would be more favorable, but the enormous cost of tunneling and rock excavation would have made the expenditure so great as to virtually preclude its adoption. Another route by which Kamaquot Lake, the south branch of Gardner's Inlet, would be reached, may also be considered as open to further consideration. A third, by the way of Blackwater River to the north branch of Dean Channel is being very carefully explored. The route via Kamaquot River is a few miles shorter, and has grades not exceeding 104 feet to the mile, with a rest of three quarters of a mile in length in the middle. The summit level is reached at a distance of seventy miles, and is 3,460 feet above the sea. Between that point and Stewart River the line is favorable. From the lowest level of Stewart River to Fort George is 2,600 feet, and the highest 3,750. Some fifty miles would be saved by adopting Dean Channel as the terminus as compared with Bute Inlet, while the line if carried to Bute Inlet would strike the middle of Vancover Island. Explorations have been made of what is known as the Pine River Pass, some sixty or seventy miles south of the point at which the Peace River makes its great bed. At this pass the Rocky Mountains practically cease to exist. The country is very favorable for agricultural

purposes, and if there were no obligations resting on the Dominion to hasten the work, is the one, the Premier thinks, that would inevitably be adopted. But to do so would be to postpone the work of construction for a considerable period, and this, he appears to think, having regard to the original bargain with British Columbia, and irritation existing in that province, is hardly to be thought of from Pine River Pass. If the railroad took that route it would reach Fort George by the way of Fort McLeod and Parsnip River. Mr. Mackensie spoke of the progress of the railway between Lake Superior and Red River. The line, twenty two miles of which is graded, will run from Thunder Bay to the eastern end of Lac des Mille Lacs.

The Premier said he should deal with this matter on a future day. He observed that many of the statements published were utterly unfounded. French River is found to be easily navigable for some twenty six miles from its mouth. It was hinted that the Western terminus of the Georgian Bay branch might be fixed at this point, and a crossing may easily be effected here if the line were continued at some future period to Sault Ste Marie. On the twenty two miles graded west of Fort William an expenditure has taken place of $111,417. From Red River, eastward, out of a section of seventy seven miles, twenty five miles have been graded at an outlay of $94,221. The thirty seven miles intervening between Cross Lake and Rat Portage were found to be exceedingly costly, and some changes of level will be made to reduce the amount of rock excavations. The branch from Pembina to Fort Garry is nearly completed, in first class style, at an expenditure of some $178,483, exclusive of a small amount of bridging that may cost $5,000 further. The survey is completed from Selkirk to Livingstone, 266 miles, and the route is virtually determined upon from Livingstone to Saskatchewan, which it will strike at White Mud River some fifteen or twenty miles south of Fort Edmonton. The entire distance for which the telegraph is constructed is 720 miles. It may then be assumed that from Fort William to Fort George, at the bend of the Fraser, the route of the Canadian Pacific is practically settled, the distance between those points being 1,730 miles. From Fort George to Bute Inlet the distance is about three hundred miles.

The Roumanian Railway System.

The railway system of Roumania consists of two trunk lines, with their branches; the trunk lines measuring together 953 kils., and the 4 branches 280 kils., or in all 1,233 kils.

The one trunk line, running from north to south, traverses Moldavia throughout its length, from the Austrian Bukovine frontier to Ibraila and Galatz. It sends out three branches, from Varesi to Bolosiani, 44 kils long; from Pascany to Jassy and Ungheni on the Pruth, 96 kils. long; and from Tecuci to Berlad, 51 kils. long. The other, running at right angles with the first, intersects Wallachia from east to west, from Galatz and Ibraila to the Austrain Banat frontier, whence a section of from 120 to 130 kils. is to join it to the Basiasch, Pesth, and Vienna line. The completion of this section will place Bucharest in communication with Vienna by a direct line of only 1,130 kils., in lieu of the 1,685 kils. of the existing Roman, Luciava, Lemberg, and Cracow line, a reduction in the length of the journey of some 555 kils., and in its duration of from 36 to 46 hours. This main line throws off but one branch, from Bucharest to Giurgevo and Smerde on the Danube, 70 kils. long. A proposed bridge over the Danube, connecting Giurgevo and Boulschouk, would establish a junction between the Rouman and Ottoman systems, and put Bucharest within 24 hours of Constantinople.

Two new branches are conceded and should be completed by the end of 1878, the one on the Moldavian line, from Aguid to Ocma and Oituz on the Transylvanian frontier; the other on the Wallachian line from Ploesci to Predeal on the Russian frontier, and on to Cronstadt.

Central Railroad of New Jersey.

The Directors of the Central Railroad Company of New Jersey, present to the Stockholders their Report for the year 1875, including the general balance sheet at the close of the year.

The comparisons made of the business of the road during the past year with that of the year preceding it, include that of the branches, as well as that of the Lehigh and Susquehanna Railroad and branches under lease, the whole 180 miles of main line and 152 miles of branches having been operated as one concern.

The Lehigh equipment is included in the general statement of equipment, which also includes that of all the branches; and the repairs of the same are included in the general expense accounts.

SERVICE OF THE ROAD.

The service of the whole road, as compared with that of the previous year, has been as follows:

	1875.	1874.
Miles run by passenger trains.	1,662,566	1,516,318
" merchandise trains.	990,436	1,023,895
" coal trains	1,783,783	2,272,995
Total by transportation trains.	4,436,785	4,813,208
Miles run by wood, gravel and construction trains	361,803	269,810
Total miles run by trains.	4,798,588	5,083,018

PASSENGERS, FREIGHT AND COAL.

A comparison of the passenger business of the year 1875, with the previous year, gives the following results:

	1875.	1874.
Number of passengers.	4,456,944	4,614,587
Miles traveled by passeng'rs.	49,861,520	50,739,853

A similar comparison of merchandise business gives as follows:

	1875.	1874.
Number of tons carried	919,198	1,124,742
Tons carried one mile.	52,159,739	65,925,312

A similar comparison of the coal business gives the following results:

	1875.	1874.
Number of tons carried..	2,608,331	3,696,922
Tons carried one mile.	267,080,733	319,190,725

The following table shows the coal tonnage each year since the transportation of coal was commenced. After 1870 the tonnage of both divisions is included:

	Lehigh. Tons.	Wyoming. Tons.	Total. Tons.
1856	33,325	98,670	131,995
1857	84,841	209,950	294,791
1858	122,923	417,726	540,649
1859	183,277	455,681	638,958
1860	263,906	590,863	854,769
1861	254,345	568,869	823,214
1862	314,195	502,375	816,570
1863	435,927	613,954	1,049,881
1864	474,221	675,743	1,149,964
1865	509,819	494,687	1,004,506
1866	511,076	778,173	1,289,249
1867	496,237	872,808	1,369,045
1868	618,759	1,000,086	1,618,845
1869	461,134	1,094,918	1,556,052
1870	709,202	1,342,982	2,052,184
1871	819,896	1,843,306	2,663,202
1872	1,474,849	2,140,551	3,615,400
1873	1,469,015	2,447,800	3,916,315
1874	1,704,655	1,992,267	3,696,922
1875	1,068,407	1,539,924	2,608,331
Total	12,010,009	19,680,833	31,690,842

EQUIPMENT.

The company now own 259 engines, of which 251 burn hard coal, and 8 wood. The condition of these engines is reported as follows: 187 in first-class order; 19 in good working order; 25 require general repairs; 18 are now in shops repairing; 8 (wide gauge) are out of use, and 4 are condemned. During the year 14 new passenger engines and 6 new shifting engines have been added to the equipment. Three engines have been cut up or sold.

The equipment of cars is as follows: 144 first-class and 12 second-class passenger, 42 baggage and smoking, 4 baggage and mail, 13 baggage, 5 smoking, 3 express, 425 8-wheel and 1 4-wheel house freight, 30 8-wheel stock, 19 8-wheel and 73 4-wheel caboose, 416 8-wheel platform, 312 8-wheel gondola, 1 8-wheel pay, 1 8-wheel pavilion, 176 6-wheel iron, 36 6-wheel, 2 8-wheel and 14 4-wheel lime, 226 8-wheel and 17,244 4-wheel coal, 468 4-wheel gravel, 16 6-wheel and 4 4-wheel wood rack, 5 8-wheel derrick, 5 8-wheel tool, 72 8-wheel work (flat), 1 4-wheel scale, and 1 4-wheel adzing machine cars.

During the year the following additions have been made to the car equipment. There have been purchased 34 passenger cars, 2 baggage and mail cars, 4 baggage cars and 3,000 4-wheel coal cars. There have been built at the company's shops, 2 baggage cars, 2 8-wheel flat cars, 24 8-wheel work-train flat cars, 4 8-wheel caboose cars, 3 4-wheel caboose cars, 100 4-wheel gravel cars and 8 4-wheel coal cars. The following changes were made: 6 passenger cars were changed to combination cars, 5 passenger cars changed to smoking cars, and one baggage and mail car changed to second-class passenger car. Two second-class passenger cars, 1 4-wheel box car, 6 6-wheel iron cars, 2 8-wheel lime cars, 1 4-wheel and 2 6-wheel wood rack cars; 1 4-wheel caboose car and 231 8-wheel coal cars have been broken up.

TRANSPORTATION ACCOUNT.

The following is a statement of the ordinary receipts and expenses of both roads for the year 1875, compared with 1874.

Receipts:	1875.	1874.
Passengers	$1,498,118 70	$1,513,983 30
Merchandise	1,287,119 68	1,594,500 33
Coal	4,446,131 76	5,363,677 57
Mail	23,590 00	22,890 00
Express	27,230 55	29,974 50
Rents	26,455 82	22,458 33
Miscellaneous	22,805 23	25,044 86
Car service	80,684 99	17,101 93
Total receipts	$7,411,636 73	$8,589,630 82
Expenses:		
Running expenses	$1,592,662 61	$1,663,966 65
Fuel consumed	854,602 64	393,909 90
Repairs of road	819,272 84	738,433 45
Repairs of engines	282,348 51	316,444 21
Repairs of passenger cars	70,714 61	64,240 29
Repairs freight cars	70,472 53	88,894 29
Repairs coal cars	280,548 62	262,745 64
Repairs of buildings, bridges, docks, etc.	165,244 77	162,641 80
Repairs of tools and machinery	42,503 83	29,438 13
Expenses Ashley Plains	84 205 09	71,788 97
Expense account	153,945 27	151,263 94
Damage to persons and property	103,838 25	84,187 21
Ferry running expenses	80,697 53	78,440 03
Ferry boat repairs	27,670 00	34,707 17
	$4,128,727 10	$4,140,601 18
Balance net earnings.	$3,282,909 63	$4,449,029 64

The gross receipts per mile run have been as follows:

From passenger trains, 90 cents against $1 00 in 1874; from merchandise trains, $1 30 against $1 56; from coal trains, $2 49 against $2 36. The average receipts per mile run from all trains, have been $1 54 against $1 69 the previous year.

The gross expenses per mile run have been 87 cents, against 81 cents the previous year.

The following table shows the receipts, expenses and net earnings, from the beginning of 1853 to the present time; including, since 1870, those of the Lehigh and Susquehanna Division.

	Receipts.	Expenses.	Net earnings.
1853.	$349,018	$197,629	$151,389 or 43 p. c.
1854.	378,145	197,349	180,796 or 48 "
1855.	393,729	208 856	184,873 or 47 "
1856.	553,479	258,308	295.171 or 53 "
1857.	682,314	340,502	341,812 or 51 "
1858.	836,934	345,614	491,320 or 58 "
1859.	971,702	385,716	585,986 or 61 "
1860.	1,185,848	475,457	710,391 or 60 "
1861.	1,201,895	522,452	679,443 or 57 "
1862.	1,397,586	623,245	774,341 or 56 "
1863.	1,941,976	814,732	1,127,244 or 58 "
1864.	2,537,186	1,231,554	1,305,631 or 51 "
1865.	3.036,390	1,748,434	1,287,856 or 43 "
1866.	3 581,244	1,963,976	1,617,268 or 45 "
1867.	3,350,398	1,878,022	1,472,376 or 44 "
1868.	3,729,412	2,379,192	1,350,220 or 36 "
1869.	4,010,121	2,642,163	1,367,958 or 34 "
1870.	4,393,514	2,512,217	1,881,297 or 43 "
1871	7,841,379	3 706 144	3,135,235 or 46 "
1872	7,120,718	4,236,806	2,883,912 or 41 "
1873.	8,881,366	4,215,584	4,665,782 or 53 "
1874.	8,589,631	4,140,601	4,449,030 or 52 "
1875.	7,411,637	4.128,727	3,282,910 or 44 "
Tot.	$73,375,621	$39,153,280	$34,222,341 or 47 p. c.

FINANCIAL CONDITION.

The balance sheet will be found at the end of the report. The following is a statement of the financial operations during the year:

CREDITS.

Balance cash January 1		$482,259 76
Gross earnings Central Division	$4,136,807 21	
Gross earnings L. & S. Division	3,274,829 52	
		7,411,636 73
Capital stock issued in conversion of bonds		525,000 00
Consolidated Mortgage bonds, issued		4,936,100 00
		$13,354,996 49

DEBITS.

Ordinary expenses, both divisions	$4,128,727 10
Extraordinary repairs of bridges and docks	192,270 00
Loss in operating canals	95,919 09
Second Mortgage bonds paid off	174,000 00
Bonds of 1902 converted, less amount issued	295,000 00
Railroad car trust of Philadelphia, paid off	64,929 88
Grading	106,901 85
Masonry	32,229 21
Railway superstructure	17,162 09
Bridge superstructure	51,118 17
Land damage	23,724 78
Newark Branch	80,417 54
Perth Amboy Branch	157,759 22
New York & Long Branch R. R. Co.	927,117 18

Dividend account	2,013,125 00	
		8,327,186 39
Balance to credit of reserved fund		$212,330 11

BUSINESS OF THE YEAR.

The long coal strike, hereinafter referred to, has very materially decreased the income of the year, the reduction in the receipts from coal transportation being $917,545 81. The general business depression has continued during the year, and been more sensibly felt than previously. There has also been a loss of revenue from the final withdrawal of the coal trade of the Delaware, Lackawanna and Western Railroad, and of the business of the Lehigh Valley Railroad.

The business derived from the opening of the new road to Long Branch and Sea Girt has been very satisfactory, notwithstanding the late periods at which the several sections were opened. During the coming year it gives every promise of developing into a highly remunerative traffic, as the business of that part of New Jersey finds its way to the new outlet.

The present year will probably witness a gradual revival of passenger and freight business, which will be largely increased by the general movements through the country in connection with the Centennial Exhibition at Philadelphia. The Long Branch road will unquestionably show a large increase of receipts, both along the line, at Long Branch, and at the points south of Long Branch. The traffic from the Philadelphia line will be entirely new, and promises to bel arge.

The coal business of the year is estimated to be as good as in the year before last, without allowing anything for the stimulus of the Centennial.

The ordinary expenses for the year include those of the Long Branch Railroad, and yet show a small reduction. Much work has been done on the main road which might have been deferred had it not been thought wise to profit by the low prices of labor and material, and by the limited number of trains. The repairs of road have been swollen by work connected with the removal of the broad gauge rails, a general remodeling and perfecting of the tracks connected with the relaying of the same with steel rails, relaying them accurately where they have varied from the tangent location, and also the laying and relaying of tracks at the two points where the road bed has been raised.

Extensive reconstructions of the river bridges have also been made, and the oldest coal wharf at Port Johnson has been rebuilt. These extraordinary repairs have been charged off separately, so as not to disturb the comparison of ordinary expenses of the different years.

The third rail required by the broad gauge business of the Delaware, Lackawanna and Western Railroad, has now been removed, which will simplify the work and diminish the cost of keeping up the tracks.

As the net profits of the last six months, great as they were, failed to make up for the deficiency of revenue from the first six months, the reserve fund of undivided profits was drawn upon for the amount required to make up the dividends of the year. It is expected that the business of the current year will be amply sufficient to keep up the ordinary dividends.

CONSTRUCTION.

The elevation of the road through Plainfield has been perfected and completed, and the new stone and brick station house has been occupied the most of the year. The grounds around the building have been tastefully laid out, and the station is now the handsomest one owned by the Company.

West of Elizabeth the road bed has been raised, so as to allow the streets of the city to be carried under the tracks. At Bound Brook the road bed has been raised three feet so as to be out of the reach of freshets in the river, a long desired improvement, and simultaneously it has been widened for four tracks. The graduation and masonry for four tracks is now practically complete between Newark Bay and the junction beyond Bound Brook with the new line to Philadelphia.

A number of level crossings of roads and streets have been got rid of during the year, and bridges over or under the railway substituted.

On the Newark Branch the lowering of the grade through the rock cut in Bergen Hill has been completed, and the double track now extends through on the proper grade.

Much work has been done during the past two years in perfecting and adjusting the tracks, laying third and fourth tracks, stone ballasting the tracks and generally in bringing the road way and tracks up to as perfect a condition as possible.

STEEL RAILS.

During the year 51¼ miles of steel rails have been laid on the Central and Lehigh Divisions. There are now 147¼ miles laid on the Central Division, and 143¾ miles on the Lehigh and Susquehanna Division, making 291 miles in all. For the coming year 3 500 tons have been ordered. The rails continue to give perfect satisfaction. They rarely break and it is only after long use that the heads wear down sufficiently to make it desirable to change them into tracks where the wear will be less. The crushing of heads and brooming of surfaces are things entirely unknown. The main tracks are now almost entirely laid with steel, and the satisfaction with the operation of the rails is so great that steel will also be gradually substituted for iron on the branch roads and principal sidings. For these purposes the lighter steel rails first laid are being shifted from the main tracks, as also any of the rails which begin to show marks of use.

The very low price of steel rails and the little difference between their price and that of iron is a further encouragement to their use, especially as, so far, no means have been discovered of materially reducing the quality as the market price has fallen. There is therefore a safety in purchasing at low prices which did not exist in the case of iron rails.

NEW YORK AND LONG BRANCH RAILROAD.

The all-rail line from New York to Long Branch was opened for public travel on the 7th day of July last. It was extended to Ocean Grove on the 28th day of August, and finally opened to Sea Girt on the 7th day of September. The new road diverges from the main line of the Central at Elizabethport, passes through Perth Amboy, crosses Raritan Bay by a handsome iron bridge, runs through South Amboy, Matawan and Red Bank to Long Branch, and then extends parallel to the coast, through Ocean Grove and other promising sea shore settlements, to Sea Girt, where it unites with the line of railway extending to Philadelphia.

The sea-coast developed by the new route, extending from Long Branch to Sea Girt, is the only part of the coast between the New England States and the Capes of Florida where there are no sand bars interposed between the ocean and the mainland. The distance from New York to Long Branch is forty five miles, and from New York to

Sea Girt is fifty seven miles. A handsome station house has been erected at Long Branch, and neat buildings at the most prominent stations. At a number of points the station houses will be erected at the expense of the land owners.

The business with which the road has opened has far exceeded the expectation of the managers For the first time an outlet to New York, reliable at all seasons, has been given to the business and inhabitants of Southern Jersey and the promise of traffic created by the new road is very encouraging. Heretofore a large business has been done during three months of the year by the only New York outlet, and very little during the other nine. The new business springing up is distributed through the year, though heaviest in the summer.

The iron draw bridge over the Raritan River is the finest structure of the kind in the country. The openings in the draw are each 200 feet in the clear, and the cost of bridge and draw together was $500,000, of which $100,000 was paid by the Pennsylvania Railroad Company, as a consideration for the enlargement of the draw, to accommodate their large business through the Delaware and Raritan Canal.

Arrangements have been made for allowing the passage of trains from Philadelphia over the road from Sea Girt to Long Branch, without change of cars or engines, in order to facilitate the public.

HIGH BRIDGE AND LONGWOOD VALLEY RAILROADS.

The work on these railroads is far advanced and the track is now being laid from High Bridge north-eastward. The graduation and masonry for the first few miles is heavy, but the rest of the work is quite light. Early summer will see the road ready to act as a feeder to the business of the main line. This road develops a rich mineral region and will bring a large amount of iron ore to the main stem, drawing with it much other business.

NEW ROUTE TO PHILADELPHIA.

During the past year the parties interested in opening a new railroad line between New York and Philadelphia, have built a first class road from Bound Brook, on the railroad of this Company, to Jenkintown on the line of the North Pennsylvania Railroad. The new road has been built in the most thorough and substantial manner, with stone and iron bridges, stone ballast, steel rails and everything suitable for a heavy business. A second track is far advanced, and will be completed during the summer. Permanent arrangements between the three links composing the line have been perfected, a joint equipment arranged for, and the line is expected to be open for traffic in ample time for the centennial business. Owing to the thoroughness with which the new part has been constructed, and the shortness of the line—eighty eight miles—the trains can be run between the two cities at as high a rate of speed as is consistent with economy. This Company has had nothing to do with the construction of the new road, and is only called on to provide the necessary tracks and facilities for taking care of the business offered, and to furnish its pro rata share of the equipment. The traffic will be a valuable one for the portion of road used.

NEW FERRY.

The landing place for a new Ferry from the terminus of the road in Jersey City to a point a little below Christopher Street in New York has at last been secured, and the Ferry will be put in operation early in the Spring. It has been exceedingly difficult to secure a suitable up town place, although the want has for years been a pressing one, and the accommodation to the public and benefit to the passenger business of the road will be very considerable.

COAL STRIKE.

The year 1875 is made memorable to those interested in the mining and transportation of coal by the "long strike," commencing with the year and extending over six months, which took place in the Wyoming, Lehigh and Schuylkill coal regions. The effect on the receipts of the companies dependent on those regions was very injurious for the time being, and though an immense business was done after the strike was over, and a larger transportation crowded into a few months than had ever before been carried in the same time, yet it was impossible to make up for the losses of the first half of the year, or to do the business as economically as if spread over a longer period.

For the coming year the prospects are of a reasonably active business at remunerative rates. By the understanding between the principal producing and transporting companies, the amount of coal brought to tide water will be regulated by the demand, and any glut of the market avoided.

THE LEHIGH AND WILKESBARRE COAL COMPANY.

The coal strike had of course a very serious effect on the business of this company, both reducing the receipts and increasing the proportion of expenses to the business done. The company is well organized and consolidated, and in a position to do a large trade at small cost. The tonnage of the year was 1,353,551 tons Wyoming coal, 338,770 tons Hazleton, and 397,426 Lehigh, in all 2,089,747 tons. The receipts of the company from all sources amounted to $10,520,511 09. The expenses to $10,109,792 60 leaving the balance as earnings on the coal of $410,718 49. Included in the expenses are $539,000, the cost of maintaining the mines during the strike.

LEHIGH AND DELAWARE DIVISION CANALS.

As the transportation on the canals was limited by the equipment of boats, they were utterly unable to make up during the last half of the year the tonnage lost the first half. The accounts therefore show a loss in operating the canals of $95,919 09.

The receipts of the year were $484,753 31 and the expenses, including rental, $580,672 40 and the net result was the loss above stated.

FINANCES.

During the year $525,000 have been added to the capital stock by the conversion of bonds, and $4,936,100 of consolidated mortgage bonds have been issued at a handsome premium.

The balance of second mortgage bonds, $174,000, have been paid off; the convertible issue has been reduced $295 000, being the difference between the balance issued and the amount converted; and of the railroad car trust assumed, $64,929 88 has been paid.

The expenditures on the main line during the year have amounted to $231,136 10; the expenditures on branches, and advances to connecting roads have amounted to $1,746,556 74; for station houses $56 057 30; and for equipment $1,049,341 17.

The Lehigh and Wilkesbarre Coal Company bonds held by this company will be disposed of from time to time to stockholders or others when they reach par.

But little money will be required during the coming year.

DIVIDENDS.

The usual quarterly dividends of two and one-half per cent. each have been made from the net earnings and from the reserve profits, and the company expect to continue the same dividends out of the earnings of the current year.

The total length of main line and branches is as follows:

	Miles.
Main Line, double track, 74 miles	146.80
" 3 and 4 tracks and sidings	97.67
Newark Branch, double track and sidings	13.43
Perth Amboy Branch, single " "	19.70
Other Branches, sidings, etc.	5.57
Total single track	283.17

Consulting Engineer.—JAMES MOORE.

Railways of Canada.

From the report of C. J. Brydges, Superintendent of Government Railways, recently submitted to the Dominion Parliament, we learn that the number of miles of railway actually in operation in Canada, June 30, 1875, was 4,483½. Of the total mileage, 663¾ miles were of 5 feet 6 inches gauge, 3,251¼ of 4 feet 8½ inches, and 568½ of 3 feet 6 inches. The total mileage of the railway lines owned by Canadian companies is 4,826½, but 343 miles are in the United States. There is one line of 25¼ miles which is laid with wood rails 2,054¼ miles are laid with steel rails, and 2,746¼ miles are laid with iron rails. The number of miles of sidings is 655¼. The number of engines owned by the companies is 966; hired, 14—total, 980. The total number of cars of all descriptions is 21,297.

The railways actually under construction show a total mileage of 2,380¾ miles, of which 2,232¾ are of the 4 feet 8½ inch gauge and 98 of the 3 feet 6 inch gauge. The total amount expended by the

Dominion Government on account of railways by way of loans on works of construction at the date of the report was $60,330,921 33. The governments in the provinces either expended or are liable for $8,287,770 65, and the municipal liability was $9,500,636 93, making a total liability of $78,119,828 91.

Debt of Brooklyn.

The following is a statement of the Debt of the City of Brooklyn, March 31, 1876, as prepared by the Comptroller for publication:

COMPTROLLER'S OFFICE, BROOKLYN, March 31, 1876.

Statement of the Debt of the City of Brooklyn on the above date:

PERMANENT LOANS.

Permanent Water Loan	$10,815,000 00
Mount Prospect Square Loan	90,000 00
Wallabout Bay Improvement Loan	589,000 00
Nat. Guard and Vol. Firemen's loan	27,000 00
Soldiers Aid Fund	552,000 00
Kent ave. Basin	427,000 00
New York Bridge Bonds	3,000,000 00
Brooklyn City Bonds for New York and Brooklyn Bridge	1,000,000 00
Prospect Park Bonds	9,234,000 00
Deficiency Bonds prior to 1872	319,000 00
	$26,053,000 00
Less amount in Sinking Fund	4,084,470 15
	$21,968,529 85

Temporary Loans to be reimbursed by Assessments levied upon the property benefited:

TITLES.

Local Improvement Loan	$213,000 00
Williamsburgh Loans	138,000 00
Third street Improvement Loan	302,000 00
Gowanus Canal Improvement Loan	283,000 00
Bushwick ave. Improvement Loan	249,000 00
Union street Improvement Loan	326,000 00
South Seventh street Improvement Loan	298,000 00

Bedford ave. Improvement Loan	278,000 00
Knickerbocker and Central avenue sewer	618,000 00
Assessment Fund Bonds	3,122,500 00
Assessment Fund Bond, W. & S.	1,383,000 00
Sewerage Fund Bonds	1,605,500 00
Boulevard Bonds	842,000 00
South Brooklyn Sewerage Fund Bonds	103,000 00
	$10,211,000 00

Total debt of Kings County of every class March 31, 1876, $3,969,000 00, for which the city is liable to the extent of 19-20, which will show the liability of the city on account of the County debt to amount to | 3,175,200 00

Tax Certificates issued in anticipation of the payment of taxes in course of collection. Tax Certificates | $2,179,000 00

The above comprise the total liabilities of the city direct and collateral to this date.

(Signed) S. S. POWELL, Comptroller.

Land Communication between England and France.

If the tunnel under the channel should be found impossible of construction, M. Verard de Saint Anne, of the French Academy of Sciences, believes that a railroad is possible, if not to-day, at least in the future. M. de Saint Anne shows that, according to the best hydrographical charts, four long sand banks, covered with not more than ten feet of water, stretch between Gravelines and Ramsgate. Ultimately, the member of the Academy of Sciences insists that they will form a dike stretching across the channel, and allowing the Atlantic tides to pass, but as the ebb has much less speed than the flow, the sand washed across will be deposited and continually increased, until in the course of a few centuries, if the work of the sea is left undisturbed, Gravelines and Dunkirk will be inland towns. Then England and France will be only separated by a channel passing between the already existing banks known as the Goodwin Sands and South Falls, and this channel will be scarce wider than the Bosphorus. M. de Saint Anne proposes to give nature a helping hand, by constructing a dike, as Holland is about to do for the purpose of draining the Zuy der Zee. These sand banks then would form the basis of this dike, across which trains and passengers could pass.

Sioux City and Pacific bonds, 1862-64	1,628,320 00	24,424 80
Totals	$64,623,512 00	$969,352 68

Interest paid by United States, $30,141,513 06; interest repaid by transportation of mails, &c., $6,731,012 56; balance of interest paid by United States, $23,380,500 50.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, March 31, 1876.

B. H. BRISTOW, Secretary of the Treasury.

☞ The earnings of the Atchison, Topeka and Santa Fe Railroad for March, 1876, were $180,000, against $104,000 for March, 1875, an increase of $76,000. The company now are operating 712 miles of road against 507 last year, an increase of about 2-7ths, which fact should be taken into account in estimating the increase of receipts. Making this allowance it shows an increase of about 30 per cent as compared with last year. The land department shows a very large increase. The sales for the month of March, 1876, were $71,500, against $11,853 in 1875. The cash received on account of land in 1876 was $30,000 against $8,000 in 1875.

☞ A certificate of incorporation of the South Pacific Coast Railroad Company has been filed with the Secretary of State of California. The object of the company is to build a railroad from the bay of San Francisco, at Potrero Point, San Mateo county, through Santa Clara and Santa Cruz counties to Santa Cruz; length estimated at fifty-five miles. Principal place of business, San Francisco. Directors—Afred E. Davis, Edward Barron, Seth Cook, George W. Kidd, Joseph Clark, J. B. Robertson, Cary Peebles. Ten per cent of the capital stock subscribed is paid in, amounting to $100,000. Capital stock, $1,000,000, in 10,000 shares of $100 each.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, April 8, 1876.

Financial and Commercial Affairs.

Money has been offered with more freedom in the local market during the week, and rates have been quoted lower for accommodation to responsible borrowers, the call loan figures having been from 2@5, generally 3@4 per cent; and the best mercantile credits quoted at from 4½@6 per cent per annum. The comparatively moderate dealings at the Stock and Gold Boards, and the restricted Spring trade in Produce and Merchandise called for less than the average of financial aid; and money lenders, corporate and individual, experienced considerable difficulty in placing balances safely and profitably. On the last weekly return of the City Banks, the averages indicated a slight increase in the items of loans and circulation, with a falling off in the other more unimportant footings, the legal tender average indicating a decrease of over two millions, and the deposits of about 2¾ millions. The U. S. Sub Treasury was also a loser of coin and currency, through the week. Washington advices report that there were $5,304,000 legal tender notes deposited during the month of March with the United States Treasurer by national banks, with a view to the surrender of their circulation. The Comptroller of the Currency is represented as entertaining the opinion that $50,000,000 to $60,009,000 of national bank circulation will be relinquished during the remainder of the current calendar year. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $3,200,000. The City Banks have had their deposits reduced $2,620,500; and their legal tender reserve $2,055,400

The specie average has been diminished $332,900. The loan and discount item was enlarged $97,200. The circulation was increased $164,300. The U. S. Sub Treasury in this city closed the week with a currency balance of $34,890,438 against $35,696,923 the preceding week; and a coin hoard of $46,013,175 against $46,676,813 on the previous return. The City bank exchanges in currency reached $353,712,358, or a daily average of $58,952,059. The customs revenue of the port during the week was $2,242,000. The City banks reported their average of gold last week at $21,171,100, and their greenback average at $41,718,500. Their deposits stood at $211,561,100. The loan item was $261,351,200. The circulation was $16,394,000.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $9,999,325.

The aggregate of the outstanding U. S. currency, of all denominations, April 1st was $413,877,104. The outstanding amount of legal tender notes is $370,823,645. The National bank circulation is now $339,325,239, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,965,626; special deposit of legal tenders for the redemption of certificates of deposit, $34,230,000; Coin, $73,756,794; Coin certificates, $34,242,000.

The week's import entries of Foreign Merchandise at New York were $7,447,171, including $2,206,005 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 87 millions; and from Customs, 116 millions.

The disbursements of the Treasury Department, in March, on all accounts (other than interest on principal of public debt), were $12,450,866.

The last public debt statement indicated a further liquidation of $4,240,867 in March, bringing the aggregate indebtedness, less the cash in the Treasury, on April 1, 1876, down to $2,110,719,440. The reduction in the net aggregate indebtedness, during the nine months ending with April 1, 1876, was $17,969,286, or equal to $1,996,587 per month.

The Gold speculation has been much less confident. The operators for a rise have been decidedly less successful than had been anticipated, and the reaction in the price has led to more or less of embarrassment on the bull side of the account, with two or three failures reported. The export drain has been less urgent, and the customs inquiry moderate for the season. The extremes of the price during the week have been 112¾@114, closing on Wednesday at 112⅞ as against 113⅝, on Wednesday of the preceding week. The specie outflow last week was $1,302,878 against $1,424,094 the previous week. The imports of specie at this port last week were $232,246, and since January $1,399,458, as against $4,405,451 same time last year. The customs demand for gold last week averaged $373,333, per day. Foreign Exchange has been offered with reserve and quoted firm though not active. Bankers sixty day bills on London closed on Wednesday at $4 86½@$4 87½; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,801,300. The week's imports of Dry Goosd and general merchandise were to the specie value of $7,447,171 as against $8,866,275 the corresponding week of 1875.

Government Securities have been in moderately active demand on investment account, but quoted lower in sympathy with the decline in Gold; values at the close however firm. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $352,323,950.

U. S sixes of 1881 closed on Wednesday of this week at 122@122¼; U. S. Five-Twenties of 1865, 118@118¼; U. S. Five-Twenties of 1865, consolidated, 118⅝@118¾; U. S. Five Twenties of 1867, 120⅝@120⅞; U. S. Five-Twenties of 1868, 122¼@122½; U. S. Ten-Forties at 118⅛@118⅜; U. S. Fives of 1881, (Funding Loan) 118@118⅛; Six per cent. currency Sixes, 126@126¼.

State and Railway bonds have been in moderate request at about steady rates. And in the line of Railway and Miscellaneous share property he earlier dealings of the week were comparatively limited, and values unsettled, but toward the close, some revival of activity and buoyancy was noted.

Dispatches from the Northwest represent that the recent storms of rain and snow have rendered country roads almost impassable. Railroad receipts, affected by this unfavorable circumstance, may be expected to show a temporary falling off.

General business has been on a restricted scale. Domestic produce has been less freely dealt in and quoted irregular as to values. Foreign merchandise has been comparatively quiet at about late figures for the leading kinds. Dry Goods and Boots and Shoes in moderately active request. Hardware dull. Metals in rather better demand, with Iron, Lead and Tin quoted weak in price. Ingot Copper firmer. Sales have been reported of 1200 tons No. 1 and No. 2 American Pig at $22@$23; and 3 500 tons Forge at $17@$20; 600 tons Scotch Pig, on private terms. Eglinton Pig Iron quoted here at $28 50@$29; Glengarnock $31; Coltness $32; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge, $16 50@20; American Rails at works, $42@$45; Old Rails $22@$23. Wrought Scrap, $31 00@$32 00. Ocean freights have been decidedly less active and quoted much lower. Room very moderately sought after for early use, chiefly for the Grain, Provision, and Petroleum interests.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Interest and Dividends.

The Central Railroad Company of New Jersey has declared its usual quarterly dividend of two and a half per cent, payable on the 20th inst.

The New York, Providence and Boston Railroad Company has declared a dividend of two and a half per cent out of the earnings of the past three months.

The Delaware, Lackawanna and Western Railroad Company has declared a quarterly dividend of two and a half per cent, payable April 20th.

The Lowell and Lawrence Railroad Company has declared a semi-annual dividend of three per cent, payable April 1.

The Lehigh Valley Railroad Company have declared a quarterly dividend of two and a half per cent, payable on the 15th of April.

The usual half yearly dividend of four and a half per cent on the stock of the Nashville and Chattanooga Railroad, or 1½ per cent on the consolidated stock of the Nashville, Chattanooga and St. Louis Railway, will be paid by V. K. Stevenson, at No. 17 Nassau st., New York.

A dividend of three and a half per cent has been declared on the preferred stock of the Sioux City and Pacific Railroad Company, payable April 1.

The Berkshire Railroad Company will pay on the 10th inst. a quarterly dividend of 1¾ per cent.

The semi-annual dividend on the capital stock of the Vermont and Massachusetts Railroad, payable April 7th, is 2¼ per cent, against 2 per cent in 1874 and 1875. The terms of the lease were 4 per cent for two years from January, 1874, then 5 per cent for two years, and 6 per cent from and after January, 1878.

Interest on the $3,374,500 Land Grant gold 7s, of the Atchison, Topeka and Santa Fe Railroad is payable in Boston on the 1st of April; also the interest on the $976,000 Consolidated 2d Mortgage gold 7s. These are not the bonds selling in the market at 44, but an earlier issue of the same class. The last issue amounts to $2,074,000, into which 18 months of first mortgage coupons were funded, and by agreement the first coupon on these does not mature until October 1, 1876. The April interest (3½ per cent) is to be paid one-half cash and one-half in ten year 7 per cent scrip, but no interest on this scrip to be paid until maturity of the principal in 1886. It is probable that interest due in October next on the second mortgages will be paid in the same way.

Burlington, Cedar Rapids & Minnesota Bondholders.

For plan of reorganization apply, stating class of Bonds held (whether Main Line, Milwaukee, Muscatine, or Pacific Division), to **FRED. TAYLOR**, Chairman Bondholders' Committee, **476** Broome St., **New York.** Immediate action is advisable.

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY, No. 68 WILLIAM ST., NEW YORK, March 16, 1876.

DIVIDEND NOTICE.

NOTICE IS HEREBY GIVEN THAT A DIVIdend on the preferred stock of this company, of $7 per share, has been declared out of the net earnings of 1874, and a further dividend of $7 per share out of the net earnings of 1875, said dividends to be paid on the 10th day of April next, in the consolidated sinking fund bonds of this company.

The transfer books will be closed on the 23d day of March, at 3 P. M., and reopened on the 10th day of April next. JULIUS WADSWORTH, Vice Pres't.

☞ During the past month ten millions of dollars were paid in London on account of new loans for American enterprises, or nearly $18,000,000 in gold, on account of subscriptions to American loans during the first quarter of the year.

☞ At an election for four diretors of the Pacific Railroad of Missouri held at St. Louis on the 27th ult., W. E. Burr, Col. George E. Leighton, Capt. Joseph L. Stevens and E. F. Leonard were chosen. The board is now constituted as follows: Charles P. Chouteau, D. K. Ferguson, E. O. Stanard, Web. M. Samuel, John J. Taussig, D. R. Garrison, T. B. Edgar, D. F. Rowland, James Baker, George E. Leighton, W. E. Burr, Joseph L. Stephens, E. F. Leonard. Mr. Chouteau had been previously elected in the place of Andrew Peirce, jr., resigned, and Mr. Garrison in place of Oliver A. Hart, resigned. Messrs. Hays and Lippman went out of the board by expiration of term, and Mr. William H. Coffin by resignation.

☞ The Monmouth County (N. J.) Agricultural Railroad has been sold to J. P. Lowrey, and others, of New York for $115,488, free from all incumbrances, and the sale was confirmed by an order of the Court of Chancery. It is the intention of the purchasers to put the road in running order, and thus, by connecting with the Central Railroad of West Jersey at Mattawan, make a connecting line between New York and Freehold.

Lehigh Coal and Navigation Company.

The Board of Managers respectfully submit their report for the year 1875, as follows, viz:

Revenue from railroads		$1,059,548 67
Revenue from Nesquehoning tunnel tolls		18,702 04
Revenue from canal		200,000 00
Revenue from coal lands		500,000 00
Net profit on real estate sold		9,899 00
Miscellaneous receipts		60,935 82
Total		$1,849,085 53
Less general expenses	$59,704 72	
Rent and taxes, Nesquehoning Valley R. R.	143,247 33	
Interest account	784,626 21	
Taxes chargeable to landed property and improvements	8,421 75	
Taxes due State on dividends	72,939 03	
Sinking fund of 10 cents per ton on 397,426.13 tons of coal	39,742 66	
Four dividends of $1 per share each	805,595 00	
		1,914,276 70
Balance charged to dividend fund		$65,191 17
Balance to credit of dividend fund, Dec. 31, 1874		715,265 00
Balance to credit of dividend fund, Dec. 31, 1875		$650,073 83

The coal tonnage on the Lehigh and Susquehanna Railroad and Lehigh Canal, compared with that of 1874, was as follows, viz:

	Tons. 1874.	Tons. 1875.
From the Wyoming region	1,519,828	1,551,644
From the Upper Lehigh region	221,193	133,102
From the Hazleton region	233,003	169,464
From the Beaver Meadow region, via Nesq. V. R.R.	420,871	335,270
From the Beaver Meadow region, via Lehigh V. R. R.	57,983	21,057
From the Mahanoy region, via Lehigh Valley R. R.	44,013	33,867
From the Lehigh region (L. C. & N. Co.'s lands)	571,945	398,042
From sundry shippers	2,651	22,389
From Hazardville, diminished stock	....	60,984
Total	3,071,487	2,725,819

Distributed as follows:

	1874. Tons.	1875. Tons.
Delivered east of Mauch Chunk by railroad	1,958,234	1,895,860
Delivered east of Mauch Chunk by canal	792,783	640,821
Consumed along the line above Mauch Chunk	101,441	81,405
Delivered to connecting lines above Mauch Chunk	155,843	72 601
Delivered to Lehigh Valley R. R. at Packerton	30,095	35,132
Increased stock at Hazardville	33,091	....
Total	3,071,487	2,725,819
Decrease		345 668

Of the foregoing tonnage there was shipped by the Lehigh and Wilkesbarre Coal Company, 2,046,661.09 tons.

The total production of that company was:

	1874. Tons.	1875. Tons.
Of their mines in the Wyoming region	1,367,160	1,350,927
Of their mines in the Beaver Meadow region	525,789	336,773
Of their mines in the Lehigh region (L. C. & N. Co.'s lands)	572,617	397,338
Total	2,465,566	2,085,038

The gross receipts of the company's railroads during 1875, as compared with 1874, were as follows:

	1874.	1875.
Passengers	$183,158 83	$163,078 01
Freight	359,167 57	329,918 05
Coal	2,842,975 07	2,685,649 94
Total	$3,385,301 47	$3,178,646 00
L. C. & N. Co.'s proportion	$1,128,433 83	$1,059,548 67

The total revenue for the year was $83,235 78 less than that for 1874, and the disbursements for interest, rent, expenses, etc., other than for dividends and taxes thereon, were reduced $70,184 88. We paid in 1874, three dividends of 2 per cent each, and in 1875, four dividends of 2 per cent each. The surplus in 1874 was $202,728 70, and the deficit in 1875, $65,191 17. The result of the business of the last two years shows $137,537 53 surplus earnings, after the payment of 14 per cent in dividends to the stockholders.

The reduced revenue from our railroads, stated above, as $68,885 16, was due to a strike of miners against an attempted reduction of wages, which lasted for nearly the whole of the first six months of the year. While the mines tributary to our road and those to the Philadelphia and Reading and Lehigh Valley Railroad Companies were idle, the Delaware, Lackawanna and Western, Delaware and Hudson and Pennsylvania Coal Companies' mines were unusually active, and the shipments of the three companies in 1875, were largely in excess of those in 1874. This so far supplied the market, that the Lehigh and Wilkesbarre, and other companies, who were idle the first six months of the year, were obliged to restrict production during part of the last six months, for want of a full demand for their coal.

The receipts of the railroads:

From January 1, to June 30, were	$644,291 00
From July 1, to December 31	2,534,355 00
	$3,178,646 00

20 per cent in the first, and 80 per cent in the last half of the year.

The loss of tonnage on the canal was 151,962.15 tons, which was partly compensated for to the Central Railroad Company of New Jersey, by the entire freedom from loss by high water during the year.

We have credited to the lessees $371,787 94 for construction work since the last report. During the year 6.30 miles of second track were laid on the main line and 5.48 miles on the Nesquehoning Valley Railroad, a total of 11.78 miles of second track, at a cost of $214,153 46. The remainder was for sidings, buildings, branch road, etc., and for grading for second track and sidings, on which the superstructure has not yet been laid.

We have now in use of double track:

	Miles.
On the Lehigh and Susquehanna R. R.	47.98
On the Nesquehoning Valley R. R.	5.48
A total of	53.46

Our lessees, with our approval, commenced in August last, the construction of a branch road from the mouth of Sandy Run 4¼ miles below White Haven, to Eckley and Drifton, a total distance of 10⅔ miles. This branch is expected to bring a large amount of coal to the main line. As a part of the agreement with the Central Railroad Company, under which they commenced the work, we contracted to pay them $150,000 on account of their advances for construction work, and we made the payment during the fall.

The arrangements between the two companies as to the mode of doing construction work, its inspection and the examination of bills have been very much improved during the past year, and the monthly accounts are now settled promptly and to the satisfaction of both parties.

The differences which arose at the commencement of the lease have all been settled, but not in time to make the entries in last year's account. The amount due the Central Railroad Company for advances on this account for work done up to the close of 1875 is about $680,000 including over $90,000 paid by them to contractors on the Sandy Run branch for which no bill has yet been rendered to us.

The money expended during the last few years in increasing the capacity of the railroads, and the larger sums expended by our lessees for equipment and in the development of coal lands tributary to the road, have produced very gratifying results in the tonnage transported. During the months of August, September and October last 1,215,403 tons of coal passed over part or all of the road, an average of 15,582 tons for each working day; of this amount 700,715 tons was delivered to connecting roads at our terminus at Phillipsburg. The gross revenue from the transportation of coal during these three months was $1,186,746 53, out of a total of gross receipts for the three months of $1,333,080 59; and our third of this last sum is equal to about 42 per cent. of the revenue we derived from our railroads for the whole year.

The means for the payment, already referred to, of $150,000 to the Central Railroad Company on construction account, were provided by the sale of 3,000 shares of stock, obtained by the conversion of part of the convertible loan of the company, referred to in the last annual report as available for this and for other purposes. The managers deemed it for the interest of the company to issue stock rather than to increase our bonded debt. They also sold 1,153 shares of stock to provide the means to make payment on 175 acres of land in Panther creek valley, the purchase of which was reported at the last annual meeting. There is still due on this purchase $63,528 12.

The capital stock was increased during the year by the conversion

	Shares.
By the Company of $150,000 convertible loan	3,000
By the Company of $57,650 convertible loan	1,153
By holders of convertible loan $91,000	1,820
Total present issue 204,971 shares	5,973

The company still has the right to issue $986,970 82 of convertible loan due in 1882, which would yield, if converted, 19,739 shares of stock. It is not probable that the financial wants of the

company will require the issue of any large part of this during 1876.

The lessees of our coal property paid the monthly rent of $41,666 67 promptly and regularly during the year. No coal was mined until about the 1st of July, and the six months' production amounted to 397,426 13 tons, of which 69.074 01 tons was pea and buck wheat. The royalty of 21 per cent. on the price realized at Mauch Chunk amounted to

64.8 cents on 328,852.12 tons lump and prepared sizes	$211,119 75
21 cents on 69,074.01 tons pea and buckwheat	14,505 54
To the difference between this amount	$225,625 29
And the rent paid	500,000 00
	$274,374 71
Must be added the royalty paid in advance in 1874	167,105 65
Making a total of royalty paid in advance	$441,480 36

This overpayment, as was explained in our report of last year, will be reserved hereafter by the lessees from any amount then due us over and above the minimum rental.

The lessees have continued the improvements commenced by this company previous to the lease, and they are now so far advanced as to make it probable that during the coming spring the capacity of the mines will reach 100,000 tons a month, and will be in excess of that quantity before the close of the year. The transportation of this large increase of production will add materially to the revenue of the company's railroads.

The regular payment of dividends since we resumed, in June, 1874, has made our stock grow steadily in favor with investors.

	Stockholders.
The 1st dividend was paid to	974
" 4th " " " "	4,644
" 6th " " " "	1,840
" 8th " will be " "	2,237

The floating stock is being gradually absorbed for permanent investment.

In answer to the question, "How much property has the company not covered by its mortgages?" which was asked at the last annual meeting, we will state that the real estate unincumbered is worth at least $700,000, and the personal property, bonds, &c., at least $350,000.

The company has no floating debt whatever.

By order of the Board of Managers of the Lehigh Coal and Navigation Company.

E. W. CLARK,
President.

BALANCE SHEET, January 1, 1876.

Lehigh and Susquehanna Railroad construction and branches		$13,282,332 90
Lehigh Navigation shipping pockets and shipping improvements—Hazardville		3,099,056 71
Coal lands and improvements—Lehigh region		7,849,916 66
Landed property and improvements		839,170 76
Canal boats		35,582 07
Contingent fund		292,366 69
Bills receivable	$46,468 80	
Bonds and mortgages	44,025 98	
Ground and water rents	172,424 54	
		262,918 82
Cash on hand		177,591 32
Gold loan, 1897, assumed by C. R. R. of N. J.	$2,310,000	
Gold loan, 1897, assumed by L. & W. B. C. Co.	500,000	
Gold loan, 1894, assumed by L. & W. B. C. Co.	794,000	
		3,604,000 00
Balance of individual ledger		230,998 49
		$29,623,934 42

Capital stock		$10,248,550 00
Loan of 1877	$762,779 18	
Loan of 1882 (convertible)	41,550 00	
Loan of 1884	5,381,963 59	
Loan of 1894 (convertible gold)	794,000 00	
Loan of 1897 (gold)	4,692,500 00	
Loan of 1897 (R. R.)	2,000,000 00	
Loan of 1911 (consolidated mort)	1,063,000 00	
Greenwood mortgage loan, due February 1st, 1892	744,000 00	
Greenwood mortgage, due October 1st, 1877, (L. S.)	140,000 00	
		15,619,792 77
Central Railroad of New Jersey, due for construction work		453,835 06
Ground rents, mortgages and dowers		64,378 62
Profit and loss, old account		2,587,304 14
Dividend fund		650,073 83
		$29,623,934 42

President.—E. W. CLARK.

Managers.—Francis R. Cope, Francis C. Yarnall, Fisher Hazard, Charles Parrish, James M. Willcox, T. C. Henry, Charles Wheeler, George Whitney, Alexander Biddle, John Leisenring, Edward Lewis.

Secretary and Treasurer.—SOLOMON SHEPHERD.

☞ The Western Maryland Railroad Company have had built for them eight beautiful passenger coaches by the Harlan and Hollingsworth Company, of Wilmington, Del. All the cars have been received and are now in use on the road. The increased travel necessitated more and better accommodations than the road heretofore possessed. The new coaches are of a dark brown color, and are fitted up with all the modern appliances for the comfort and convenience of travelers.

☞ The Sacramento Record-Union say that a narrow gauge railroad from Concord to Seal Bluff is being talked of, parties having proffered to build, equip and operate it if the people of Martinez will raise and contribute a bonus of $15,000, which we hear they are prepared to do. This road, which can be cheaply built and operated, will be about six miles in length and will afford greatly improved facilities for placing produce at a favorable point of shipment.

☞ The Virginia Legislature has adjourned without adopting any measures calculated to affect the status of bonds. The tax bill, it is estimated, will produce $2,500,000, which is considered abundant to pay current expenses and the redeemable coupons. They also decided to tax all coupons received in payment of taxes, the coupons accruing on bonds owned by non residents having before been exempt. This tax will amount to $1 70 on each coupon of $30.

☞ A certificate of incorporation of the Cleveland and Southeastern Mineral Railway Company—Cleveland to Bowerstown—with a capital stock of $500,000, by Joseph Turney and others, was filed with the Secretary of State of Ohio on the 29th ult.

☞ At a meeting of the directors of the Maine Central Railroad Company in Portland, Me., on the 30th ult., Abner Coburn was elected President and J. H. Drummond Clerk.

Railroads of Arkansas.

The Spirit of Arkansas says that there are more navigable streams in that State than in any other State in the Union; in addition to which she is reasonably supplied with railroads which are being extended so as to embrace every section of the State.

The St. Louis, Iron Mountain and Southern road runs diagonally across the State, a distance of 300 miles, making connections with roads east and west.

The Memphis and Little Rock road extends from the capital to Memphis.

The Little Rock and Fort Smith road is running a distance of 120 miles, up the valley of the Arkansas, and will soon be completed to the Indian border.

The Little Rock, Pine Bluff and New Orleans road is completed and running a distance of eighty miles, from Pine Bluff to Chicot, on the Mississippi river. A survey has recently been made of the gap between this city and Pine Bluff, which will soon be built.

The Mississippi, Ouchita and Red River road is completed, a distance of about thirty miles west from Chicot.

The Arkansas Central (narrow gauge) is completed a distance of about sixty miles, and runs trains regularly between Clarendon, on White river, and Helena, on the Mississippi.

A narrow gauge road has just been completed from Malvern, a point on the St. Louis, Iron Mountain and Southern railroad, to Hot Springs, thus giving the outside world a continuous line of railroad to the Springs.

With her navigable streams and railroads, the farmers of Arkansas have the means of getting to outside markets with little trouble.

☞ N. H. Decker of New York has been elected President, H. B. Hansom of Saratoga Springs Vice President, and S. Conover of New York Secretary and Treasurer of the Kingsbridge and Yonkers Railroad Company. The directors are: N. H. Decker, N. F. Palmer, Jr., M. M. Caleb, J. W. Quintard, G. W. Quintard, W. Stanton, T. C. Campbell, S. G. Courtnay, T. L. Raymond, S. Conover, R. Schell, H. B. Hansom, and J. H. Goodwin.

☞ In the U. S. Circuit Court at St. Louis on the 3d inst. a separation of the Atlantic and Pacific and the Missouri Pacific Railroads was decreed, and D. R. Garrison, H. Peach and John L. Stevens were appointed receivers for the Missouri Pacific, and L. T. Buckley of New York and D H. Armstrong of St. Louis for the Atlantic and Pacific.

☞ The postal treaty with Japan went into operation on the 1st of April. By its provisions the postage from this country to Japan is five cents per single letter; two cents for newspapers not weighing more than four ounces, and two cents per once or fraction thereof for other printed matter or samples. Prepayment is compulsory.

☞ The Maine Central Railroad Company proposes to build a branch road from Skowhegan to Solon to meet a completed piece of track that will form a part of the projected Quebec and Wiscasset Railroad.

☞ Ten car loads of machinery were shipped from St. Louis, on the 1st inst., to San Francisco, for Siberia. They will be put into eight steamers which will ply on the Amoor river.

☞ The Treasurer of the Cary Improvement Co., at the annual meeting of the company held in Boston on the 4th inst., reported that the receipts for the past year were $103,688 77, and the expenditures, $105,098 68. The assets of the company are $266,426 40, and nine million feet of land. The liabilities amount to $175,822 51. The floating debt is upward of $60,000 and there are mortgages on the property amounting to more than $80,000.

☞ The official statements of foreign commerce of the United States give the imports for January and February of this year at $79,786,000, and for 1875 at $85,108,000; decrease for two months $5,322,000. The exports for January and February, currency value, were $113,300,000; for 1875, $99,200,000; increase $14,100,000. Exports of specie for two months in 1876, $6,830,000; 1875, $16,667,000.

☞ The American Consul at Sheffield has furnished the Liverpool Courier official statistics of the local trade with the United States, for the quarter ending March 31, 1876, showing a total of $585,000, against $2,275,000 for the first quarter of 1873. The Liverpool Courier says it is rumored that a great Sheffield concern is about to transfer its plant to the United States.

☞ Over 200 Chinese recently went from San Francisco to Portland, Oregon. It is said that they are to be employed in grading for the new line of railroad that is to be constructed this summer between Tacomo and the Puyallup coal mines. A party of surveyors are out now locating the line, and it is expected to commence grading in a few weeks.

☞ The British revenue for the financial year ending March 31, 1876, was $385,658,465, which is $7,533,465 above the estimates, and $11,049,100 more than last year's. The actual expenditure of the financial year up to March 25, 1876, was $361,324,880, while the estimated expenditure for the entire year was $379,485,000.

☞ Russia has in contemplation the construction of several long lines of railroads, among them one to span the empire from east to west, connecting European Russia with the Pacific by the way of Central Siberia. This will largely increase the demand for American locomotives.

☞ During the month of March, there were made at the Pennsylvania Steel Works, at Baldwin, 5,455 tons of steel ingots and 5,200 tons of steel rails. This, it is said, is the largest quantity ever produced in one month by any Bessemer steel works.

☞ The Supreme Court of Nebraska has decided, in a suit brought against the Burlington and Missouri River Railroad, in Nebraska, that they are liable for damages caused by prairie fires set by their engines.

☞ The grading on the Toledo Division of the Columbus and Toledo Railroad will be completed by the 1st of June.

☞ In the Maryland Senate on the 30th ult. a House bill was passed authorizing the city council of Baltimore to subscribe not exceeding $600,000 to the capital stock of the Baltimore, Chesapeake and Delaware Bay Railroad.

☞ Charles P. Chouteau, Esq., has been elected President, and John L. Dearborn Secretary of the Pacific Railroad of Missouri.

☞ The survey for the projected extension of the Rockford, Rock Island and St. Louis Railroad from Sterling to Rockford has been completed.

☞ The survey of the route of the Keokuk, Galesburg and Chicago Railroad between Galesburg and Keokuk was completed on the 20th ult.

HUDSON RIVER

CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from out (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without even towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The return of the trade from all the regions for the week ending the 25th ultimo foots up 167,395 tons, against 150,676 tons for the corresponding week last year, showing an increase of 16,719 tons. The total amount of anthracite mined for the year is 2,451,677 tons, against 2,455,846 for same period last year, a decrease of 5169 tons. The quantity of bituminous coal sent to market for the week was 64,859 tons, against 59,016 tons for corresponding week last year, an increase of 5843 tons. The whole bituminous tonnage from the beginning of the coal year to the 25th ultimo is 639,242 tons, against 517,368 tons in corresponding time last year, an increase of 121,974 tons. The total tonnage of all kinds of coal for the week is 232,254 tons, being a decrease for the week of 22,652 tons, and the total tonnage for the coal year is 3,091,019 tons, against 2,973,214 tons to same date last year, an increase of 117,805 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 79,395 tons, of which 68,636 tons were coal and 10,759 tons coke. The total carried this year is 703,350 tons, of which 574,777 were coal and 129,073 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 1st instant there were receipts of 29,000 tons of coal and shipments of 14,500 tons, leaving 87,000 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 25th ultimo the receipts of coal were 15,331 tons and the shipments 9240 tons, leaving 72,628 tons on hand.—*Phila. Ledger, Apl.* 3.

☞ The charter of the Kentucky and Great Eastern Railroad, so far as the road is authorized to ask subscriptions from the counties through which it passes is concerned, has been repealed by the Legislature.

☞ Navigation on the Delaware and Hudson Canal will be opened on the 15th instant. Eighty cents per ton will be the rate for the transportation of coal from Honesdale to Rondout.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, April 15, 1876.

Duxbury and Cohasset Railroad.

The committee appointed by the town of Duxbury, Mass., last Fall to examine the town's interest in the Duxbury and Cohasset Railroad and devise means for the future prosperity of the road, reported on the 4th inst. that a number of plans and suggestions had been proposed for increasing freight and travel along the line, such as the establishment of switch tracks to tide water in Scituate, Marshfield and Duxbury; the starting of a steamer from Provincetown to Duxbury, connecting with the morning train from that point to Boston, and the providing accommodation along the line for summer travel, picnics, &c. The suggestions from New Bedford and Middleboro' that a railroad be built from those points to connect with the Duxbury and Cohasset Road at Kingston, making a continuous line of road to Cohasset and Boston, as also the proposition for a new narrow gauge road from Cohasset over Pleasant and Nantasket Beaches to Hull, connecting with a line of steamers from that point to Boston, running hourly, were received by the town with great enthusiasm, and the committee were further authorized to examine the feasibility of the propositions and report at a future meeting of the town.

Southern Pacific Railroad.

The San Francisco Real Estate Circular says that work on the Southern Pacific Railroad continues to be pushed with an undiminished force. The unusual and long continued rains rendered progress difficult, except in the tunnels, nine of which are now complete, and work in all the others is going on well. The long tunnel, under the San Fernando mountain, is finished for 4408 feet, leaving 2542 feet to be taken out. At the rate of 24 feet per day (being 4 feet on each of the six faces), it will require until about the first of July to complete the work. This being the measure of progress on the line between San Francisco and Los Angeles, communication by rail between the two cities may reasonably be expected in July next. On the line from and south of Los Angeles, to the crossing of the Colorado river at Fort Yuma, the grade is complete for 150 miles; the track is laid 134 miles, and is in regular operation to "Seven Palms," where a daily four horse stage connects to Prescott, Tucson, and all points in Arizona. As the track extends to available points for stage and water stations, staging is being shortened. The time is not distant—it will certainly be within the year 1876—when travelers may go from San Francisco to Fort Yuma, by way of Los Angeles, in thirty six hours, all the way by rail.

North Brookfield Railroad.

The first annual meeting of the stockholders of this company was held in North Brookfield, Mass., on the 8th inst. The annual report, which was presented, states that the road is virtually leased to the Boston and Albany Railroad Company for ten years from January, 1876, though the necessary documents have not been officially signed and ratified, delay being requested by the Boston and Albany Railroad Company as a matter of convenience. The road yields an income of $1000 per month, which is as much as was expected. There is a balance of $5,344 in the treasury. The following directors were elected: A. H. Batcheller, of Boston, Chas. Adams, Jr., Bonum Nye, Alden Batcheller, T. C. Bates, Warren Tyler and Freemen Walker of North Brookfield. At a subsequent meeting of the directors Bonum Nye was elected President; Alden Batcheller, Vice President; T. C. Bates, Secretary; Chas. Adams, Jr., Treasurer.

New Jersey Southern Railroad.

The report of Mr. Wm. Snedon, General Manager of this route, to Hon. B. Williamson, Trustee, for the year 1875, must be quite interesting to those familiar with railway management, and particularly to those who regard the welfare of this line. Considering the pressure of the times, it has a good showing—the gross earnings exceeding by several thousand dollars those of the preceding year. That the net amount is smaller than that of the year before is due to the expense of putting the track in extra order for fast trains, and to the effort to encourage through business; and the $37,000 expended for these wise purposes must, on logical grounds, result in a profitable return in due time—an increase of five thousand passengers having already accrued from May last to September over corresponding months for the year before. Another noticeable fact in the statement is the personal support given to the line by Mr. Williamson by way of individual guarantees for perfecting equipments for which proper acknowledgements are made. The frank, brief exhibit is not only in good taste but speaks well otherwise of the energy and ability of the gentlemen who have charge of the road.

Baltimore, Pittsburg and Chicago Railroad.

The annual election of the Baltimore, Pittsburg and Chicago Railroad, Illinois division, was held in Chicago on the 6th inst. Horace White and J. B. Ludington were elected to fill vacancies. The president of the road, Mr. W. C. Quincy, stated that the road had been very prosperous during the past year, and was increasing in popularity continually. He also stated that thus far he had not succeeded in making an arrangement with the common council to use temporarily as a depot the mechanical department of the exposition building. He hoped the new council to be elected next week would deal more fairly and liberally with the roads than the present one, and give them some terminal facilities. At a subsequent meeting of

the board of directors the following officers were elected for the ensuing year: W. C. Quincy, president; E. V. Winstanley, secretary; James L. Randolph, chief engineer, and William H. Ijams, treasurer.

The Coal Trade.

The anthracite coal trade is gradually improving, as well in production as in demand, prices remaining entirely unchanged. The return of the trade from all the regions for the week ending the 1st instant foots up 299,195 tons, against 213,156 tons for the corresponding week last year, showing an increase of 86,039 tons. The total amount of anthracite mined for the year is 2,752,041 tons, against 2,686,215 for same period last year, an increase of 65,826 tons. The quantity of bituminous coal sent to market for the week was 55.889 tons, against 68,636 tons for corresponding week last year, a decrease of 12,747 tons. The whole bituminous tonnage from the beginning of the coal year is 695,588 tons, against 628,677 tons in corresponding time last year, an increase of 66,911 tons. The total tonnage of all kinds of coal for the week is 355,484 tons, against 281,791 to corresponding date last year, an increase of 73,292 tons, and the total tonnage for the coal year is 3,447,629 tons, against 3,314,892 tons to same date last year, an increase of 132,737 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last week was 84,828 tons, of which 70,953 tons were coal and 13,885 tons coke. The total carried this year is 788,188 tons, of which 645,730 were coal and 142,958 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 8th instant there were receipts of 56,500 tons of coal and shipments of 35,500 tons, leaving 116,650 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 1st instant the receipts of coal were 21,608 tons and the shipments 14,295 tons, leaving 76,973 tons on hand. The coal trade at Port Richmond and some other coal centres is a little checked in operation by reason of a large supply of store coal, for which there are few orders. In making the larger sizes of coal, for which there is a demand, the coal breaker makes the usual proportion of the smaller sizes, for which, as usual at this season of the year, there is a limited demand. With this exception the outlook for the coal trade is more cheerful than was hoped for a fortnight ago, and it now looks as though the Reading Railroad would have seven months of coal business within the year, and it is well known what a huge sum of money a month of active trade on that road produces.—*Phila. Ledger, Apl.* 10.

☞ The stockholders of the Ohio division of the Baltimore, Pittsburg and Chicago Railroad held their annual meeting at Newark, Ohio, on the 4th inst., and elected the following board of directors: W. C. Quincy, of Newark; Wm. Keyser, of Baltimore; George R. Dennis, of Fredericktown, Md.; John K. Cowan, of Baltimore; W. C. Holgate, of Defiance; Washington Cowen and A. D. Smith, of Columbus. The board organized by choosing W. C. Quincy president and B. C. Winstanley secretary.

☞ Work on the Nevada County Narrow Gauge Railroad is going ahead with all possible rapidity. Both engines and the entire force of workmen are engaged in ballasting the road between Grass Valley and Colfax. After that all the force of locomotives and men will be put on the road between Grass Valley and Nevada City. The distance from Colfax to Grass Valley is 16.74 miles; thence to Nevada City 5.76 miles—making a total length of 22.50 miles.

Railroad Earnings.

The earnings of the St. Louis, Kansas City and Northern Railroad for March, 1876, were $274,358 31, against $243,991 28 for March, 1875, an increase of $30,367 03. For three months ending March 31, 1876, the earnings were $805,184 26, against $649,040 65 for the first three months of 1875, an increase of $156,143 61.

The earnings of the Michigan Central Railroad for the fourth week in March, 1876, were $198,340 44, against $271,079 34 for the fourth week in March, 1875, a decrease of $69,419 78. For the month of March, 1876, the earnings were $583,136 24, against $611,210 85 for the month of March, 1875, a decrease of $28,074 61.

The earnings of the Missouri, Kansas and Texas Railroad for the fourth week in March, 1876, were $64,710 57, against $77,744 38 for the fourth week in March, 1875, a decrease of $13,033 81. For the month of March, 1876, the earnings were $245,813 75, against $233,094 69 for the month of March, 1875, an increase of $12,719 06. For the three months ending March 31, 1876, the earnings were $756,996 25, against $628,008 28 for the first three months of 1875, an increase of $128,987 97.

The earnings of the Canada Southern Railroad Company for the fourth week in March, 1876, were $38,705 95, against $20,005 48 for the fourth week in March, 1875, an increase of $18,700 55. For the month of March, 1876, the earnings were $165,431 06, against $82,225 98 for the month of March, 1875, an increase of $83,175 08. For the three months ending March 31, 1876, the earnings were $430,333 60, against $191,243 30 for the first three months of 1875, an increase of $239,090 30.

The earnings of the Chicago and Alton Railroad Company for the month of March, 1876, were $353,718 64, against $363,627 38 for the month of March, 1875, a decrease of $9,908 74. For the three months ending March 31, 1876, the earnings were $1,006,166 28, against $1,011,773 94 for the first three months of 1875, a decrease of $5,607 66.

The earnings of the Ohio and Mississippi Railroad for the fourth week in March, 1876, were $314,381 99, against $315,982 29 for the fourth week in March, 1875, a decrease of $1,600 30.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the fourth week in March, 1876, were $207,000, against $190,300 for the fourth week in March, 1875, an increase of $16,700. The increased earnings in all March were $64,623, and for the three months ending March 31, $319,906.

The earnings of the Toledo, Peoria and Warsaw Railroad for three months ending March 31, 1876, were $314,184 87, against $206,050 52, for the month of March, 1875, an increase of $108,134 35.

The earnings of the Michigan Central Railroad for the first week in April, 1875, were $135,009 27, against $131,002 99 for the first week in April, 1875, an increase of $4,096 28. The earnings of the Chicago, Milwaukee and St. Paul Railway for the first week in April, 1876, were $157,000, against $149,000 for the first week in April, 1875. Total earnings from January 1 to April 7, 1876, $1,769,301, against $1,442,132 for the corresponding period of 1875.

Shenandoah Valley Railroad.

At a meeting of the stockholders of this road, held at Front Royal, Va., on the 4th inst., Hon. William Milnes, Jr., of Page county, was elected president, U. L. Boyce, of Clarke county, vice-president, with the following board of directors: U. L. Boyce and William D. Smith, of Clarke; Logan Osburn, H. B. Davenport, W. H. Travers and A. R. Boteler, of Jefferson; Mann Spitler, of Page; Henry B. Harnsberger, of Rockingham, and Messrs. John Kelley, McGovern and Fitzpatrick, of Lancaster city, Pa. The Shepherdstown (W. Va.) Register learns that it is the determination of the president and directors to resume work on the line as soon as the arrangements can be made for that purpose and that the end of the line through Jefferson county will be completed first, the connection for the present being made with the extension of the Cumberland Valley Road at Redington, in Berkeley county.

Chicago, Burlington and Quincy Railroad.

TWENTY-SECOND ANNUAL REPORT.

To the Stockholders of the Chicago, Burlington and Quincy Railroad Company:

Your Directors beg to submit the following Report of the transactions of the Company, its earnings and expenditures, for the year 1875, and the present condition of its affairs.

The gross earnings and expenditures for the year ending on the 31st ult. have been as follows:

From freight		$8,502,617 37
" passengers		2,677,942 44
" miscellaneous		557,888 36
" interest and exchange		52,912 86
Total		$11,791,361 03
From which deduct operating expenses, including taxes and transfer office expenses		6,430,122 59
Leaving net earnings for the year		$5,361,238 44
Interest accrued or paid on bonds during the year		2,014,709 34
Leaving a balance of		$3,346,529 10
Out of which have been paid dividends Nos. 29 & 30	$2,685,535 59	
Rent of tracks and depots	88,521 49	
Amount transferred to sinking fund in 1875	156,897 50	
		2,930,934 58
Leaving net surplus earnings for the year over every current liability and sinking fund		$415,594 52
To which add surplus at commencement of the year		3,945 992 75
And there stands to the credit of income account		$4,361,587 27
Amount credited to sinking fund taken from earnings		1,363,744 88
And this, added to income credits, makes the amount of surplus earnings		$5,725,332 15

In addition to this surplus derived from earnings and embracing the items above stated, there were, as will appear by reference to the Treasurer's report, $816,625 83 in the Burlington and Missouri River Land Grant Sinking Fund, derived from sale of lands, which goes to pay the B. & M. R. R. R. Land Grant Mortgage bonds, now a part of the obligations of this company, and $346,605 69 standing to credit of profit and loss and local aid account, the larger part of which has been applied to construction in Iowa—making total of surplus $6,888,543 83, as subsequently stated,

For the details of this account, reference is had to the Reports of the Auditor and Treasurer; but, for convenience, we give here a brief statement of the items thereof, which are substantially as follows:

C., B. & Q. Sinking fund		$1,363,744 88
B. & M. Sinking fund		816,625 99
Local aid in Iowa used in construction account of B. & M. R. R.	$185,686 70	
Portion of surplus account used in construction of C., B. & Q. and branches prior to Consolidated Mortgage, and for which no 7 per cent bonds can be issued	122,562 65	
Amounts expended in construction on road in Iowa, for which there is not now any provision for funding	890,277 62	
		1,198,526 97
Amount expended on new construction account on C., B. & Q. and branches, for which Consolidated 7 per cent bonds can be sold		767,659 61
Value of railroad supplies and material on hand, current balances due from connecting roads and other accounts, post office account, bills receivable, bonds and cash		996,764 79
Investments having substantial value, but not immediately available		576,829 73
Suspended accounts of doubtful value, but to collect which no effort will be spared		1,168,391 84
Total		$6,888,543 81

COMPARISONS.

Gross earnings for 1875 were	$11,791,361 03
Against for 1874	11,645,317 52
An increase of	$146,043 51
Operating expenses in 1875, with taxes and interest included, were	6,430,122 59
In 1874, operating expenses, including taxes, were	6,513,512 39
Giving, as a result, a gain in net earnings of the year over that of the previous year	$229,433 31

The following is a comparative statement of operating expenses for 1874 and 1875:

For 1874, they were 55.93 per cent, including taxes.

For 1875, they were 54.53 per cent, with taxes also included.

Showing a reduction of 1.40 per cent.

In the above comparisons, by change in the method of keeping accounts, rent of cars in excess of amount received in 1875 is debited as an operating expense, while in 1874 it was deducted from miscellaneous earnings.

The taxes included in operating expenses cover the entire tax assessed upon the tangible and other property of the company, exclusive of its capital stock and franchises.

As stated in our last report, the company was taxed on account of its capital stock and franchises $223,287 37 in 1873, and $191,275 77 in 1874.

The collection of these taxes was enjoined by the company, and a like course was pursued by nearly all the corporations in the State.

Some decisions have been had in suits brought by the company, and, so far as they have gone, have been favorable, but the final determination has not been reached.

One of the injunction suits brought by the company is now pending in the Federal Court at Washington, which will determine the validity of this tax, and, as your directors have every reason to believe, in favor of the company.

It is expected that it will be heard late in February or early in March.

A similar tax, amounting to $129,535 27, was assessed by the State Board of Equalization for the year 1875.

It is expected that the collection of this tax will in like manner be enjoined.

CAPITAL STOCK.

The capital stock of the Chicago, Burlington and Quincy Railroad proper, at the date of the last report, was $19,898,910.

It has been increased during the year by one share issued for fractional rights consolidated, and by 52,011 shares issued in exchange for Burlington and Missouri River Railroad stock, transferred to J. N. A. Griswold and J. M. Walker, Trustees, for the purposes subsequently stated.

Making the total of C., B. & Q. stock			$25,100,110 00
Outstanding B. & M. R. stock at the date of last report was	$6,740,102 76		
This amount has been increased during the year by conversion of bonds into stock		722,000 00	
For old subscriptions		100 00	
For amount of discount of Branch stock not heretofore entered in account, although issued in 1871		136,330 00	
By payment in stock to old construction account prior to consolidation		15,349 75	
Making total amount of B. & M. R. stock	$7,613,882 51		
Less old subscription of stock refunded	$50		
Amount of stock transferred to trustees as stated above	5,201,100		
		5,201,150 00	
			2,412,732 51
Making aggregate amount of stock outstanding on 31st ult			$27,512,842 51

In explanation of changes in the capital stock above stated, attention is called to the provisions of the lease of the Burlington and Missouri River Road to this company of the date of December 31, 1872, in which it was provided that such legislation should be obtained as might be deemed necessary to authorize a complete union of the stock and property of the two companies.

This has been had. That for Illinois took effect on the first day of July last.

On the first of August, in closing up the purchase, a conveyance in due form was made by the Burlington and Missouri River Railroad Company to this company of all its property, of whatsoever kind, and thereupon, as the most practicable mode of completing such purchase of the stock of the B. & M. R. R. R. Co., the board authorized an exchange of C., B. & Q. stock for outstanding B. & M. R. stock.

In pursuance of this order, and for the purposes stated, $5,201,100 had been exchanged up to December 31st last.

In consequence of matters connected with the land grant, and for other reasons, it was deemed advisable for the present to continue the organization of the Burlington and Missouri River Railroad Company, and for that reason the certificates of Burlington and Missouri River Railroad stock exchanged for Chicago, Burlington and Quincy stock were not extinguished, but have been transferred to Messrs. J. N. A. Griswold, and J. M. Walker, to be held by them in trust.

FUNDED DEBT.

The funded debt of this company at the date of the last report, including the contingent indebtedness of its branch bonds and the bonds of the Burlington and Missouri River Railroad Company was | $27,381,075 00

This has been increased during the year—

By sale of C., B. & Q. 7 per cent of 1903	$525,000	
By sale of C. B. & Q. Plain 5 per cent of 1895	462,000	
By conversion of fractional rights	2,800	
		989,800 00
		$28,370,875 00
Less B. & M. R. bonds converted into stock	$722,000	
Less bonds purchased for C., B. & Q Sinking fund	18,000	
Less Northern Cross scrip paid	43,500	
Less purchased B. & M. Land grant sinking fund	34,800	
Less purchased Branch bonds on traffic contracts	13,000	
		831,300 00
Giving amount of bonds outstanding on 31st ult		$27,539,575 00

It will be observed that in the exchange of 7 per cent bonds of 1903 for the 8 per cent Branch bonds, there is a saving of one per cent on interest account.

The bonded indebtedness of the Burlington and Missouri River Road at the end of the year, included in the above statement, was $6,017,350, of which $1,357,150 are convertible. The balance constitute the so-called Land Grant Mortgage.

The former are being rapidly converted into stock, and it is expected all will be in at an early day. This done, the only remaining indebtedness of the Burlington and Missouri River Railroad Company will be the latter, amounting to $4,660,250.

The sinking fund created by the proceeds of the land grant, now estimated at $4,469,897 20, with its accumulations, will nearly retire the whole remaining issue of these bonds, thus leaving that company practically free of debt.

Your company is without floating indebtedness.

The following statement, taken from the Treasurer's report, gives the entire property of the company, of every kind, and its liabilities December 31st, 1875:

Permanent investment, bills and accounts receivable, cash and materials on hand for future use		$62,203,130 37
Capital stock	$27,512,842 51	
Bonded liability bearing interest, including B. & M., and our contingent liability on Branch bonds	27,517,825 00	
Scrip to pay for Northern Cross bonds not bearing interest	21,750 00	
Monthly accounts	262,169 03	
		55,314,586 54
Leaving a surplus of		$6,888,543 83

SURPLUS ACCOUNTS.

Profit and loss and local aid	$346,605 69
Income account	4,361,567 27
Sinking Fund C., B. & Q.	1,363,744 88
Sinking Fund B. & M.	816,625 99
	$6,888,543 83

In the early part of the year, Mr. George Tyson, of Boston, was appointed General Auditor of the company, and since his appointment has made most thorough and repeated examinations of the

books and accounts of the company in all its departments, and has examined and audited the accounts entering into this report; Mr. Tyson has also made several suggestions as to the mode of keeping the accounts, which have been adopted, and promise to work well.

For a full and detailed statement of the investment of capital stock and funded debt, and also of income accounts, special attention is called to Mr. Tyson's report.

And for additional information in relation to the character of the assets and liabilities of the company, its receipts and disbursements, reference is had to the Treasurer's report, both of which are herewith published.

By the provisions of a contract between the Quincy Bridge Company on the one part, and the Hannibal and St. Joseph, the Toledo, Wabash and Western, and the Chicago, Burlington and Quincy Railroad Companies of the other part, in virtue of which money was raised for the construction of the bridge, the railroad companies agreed jointly and severally to pay, in addition to the moneys necessary to maintain and operate the bridge, the sum of $175,000 in equal semi-annual payments to meet the dividends upon the stock of the Bridge Company.

In the same contract it is provided that in case the receipts of the bridge should not be adequate for these purposes, the deficit shall be made up by the railroad companies in the prescribed proportions.

In consequence of the opening of competing routes over other bridges, and the necessity of reduced rates of toll, the receipts from the bridge have lately not been sufficient to meet these demands; and up to the 31st ult. this company has been called upon and obliged, by the contract, and by reason of the failure of the other companies to furnish their full pro rata proportions, to advance $89,602 36, about $42,225 13 of which is due from the Hannibal and St. Joseph Road, and about $9,184 23 from the Toledo, Wabash and Western Railway to this company, which will be collected as soon as it can be.

In addition to this, the Hannibal and St. Joseph Railroad Company is indebted to the Bridge Company in other considerable amounts.

BRANCHES AND NEW CONSTRUCTION.

In the early part of the year, a project was started in the interest of Quincy and St. Louis, and seemed likely of accomplishment, to build the Quincy and St. Paul Railroad, extending from Quincy to Des Moines, crossing the B. & M. Road at Albia, traversing a tract of country most productive, and hitherto tributary to the main line, thereby doing serious injury to the property.

To avoid such result, and prevent this business going to St. Louis instead of over our line into Chicago, and for other reasons, it was deemed advisable to render such assistance to the Albia, Knoxville and Des Moines Railroad Company—the construction of whose road, undertaken some years since, was then well under way—as would enable that company to build its road from Albia to Knoxville, the county seat of Marion County, at the earliest day practicable.

Accordingly, on the sixth of May, a contract was entered into with Governor Merrill, of Iowa, by which he undertook to complete this road from Albia to Knoxville, a distance of thirty-three miles, by December 1st, and turn over the same to this company, ready for use, under a lease from the Albia, Knoxville and Des Moines Railroad Company to this company in perpetuity.

In which lease, the rent reserved was to be equal to the annual interest on the bonds deemed necessary to complete the road, thereby enabling the Governor to negotiate the bonds of the Albia, Knoxville and Des Moines Railroad Company for a sum sufficient for that purpose.

This contract has been executed.

The road was completed and delivered to this company on the 18th of November last.

The Albia, Knoxville and Des Moines Railroad Company, in order to raise the funds necessary to construct this section of its road, issued $462,000 of its First Mortgage 8 per cent bonds of the date of May 14th, 1875, bearing interest after July 1st, 1875, secured on its road from Albia to Knoxville, being at the rate of $14,000 per mile.

These bonds were taken by your company at 85 per cent, and, instead of being retained in its possession, were pledged with the New England Trust Company as trustees to secure the payment of $462,000 five per cent twenty year plain bonds of this company, issued and negotiated under public proposals at 86.41 per cent, the proceeds of which were, so far as required, used in payment of the bonds taken of the Albia, Knoxville and Des Moines Railroad Company.

In the agreement between this Company and the New England Trust Company, creating the trust, a provision was made, in virtue of which that Company appropriates semi-annually the difference of the interest received by it on the $462,000 A. K. and D. R. R. Bonds, held by it in trust for the purposes stated, to the purchase of the five per cent. plain bonds of this Company.

The sinking fund thus created and appropriated will, it is expected, retire the whole issue of said five per cent. bonds of this Company at their maturity.

The value of this piece of road to your property will be appreciated when it is understood that Marion County is one of the most productive and thickly populated in the State.

The Chicago traffic to and from this Branch will pass over the Main Line between Albia and Chicago, a distance of 307 miles.

This Branch crosses perhaps the best coal field in Iowa, with mines immediately upon the track, working veins of six feet in thickness, and from which coal can be produced in such quantities as may be required, at comparatively light expense.

It is believed that the reduction in the cost of fuel consumed by the road in Iowa, will nearly, if not quite, equal the rent to be paid for the road, to say nothing of the large traffic this coal field must furnish in supplying the general trade, and especially in the western part of the State and in Nebraska.

The road is well constructed, but will require fencing and other improvements attendant upon the opening of a new road.

On the sixth of December last, a preliminary contract was made with the Quincy, Alton and St. Louis Railway Company and others for the perpetual lease of the road of that company.

The road is about forty six miles in length, and extends from Quincy to Louisiana, with a Branch to Hannibal, along the rich bottom lands on the east bank of the Mississippi.

Should this contract be carried to execution in the ensuing year and lease made, the rent to be paid will be based upon the gross earnings, appropriating such percentage thereof to the payment of rent as will insure this Company against loss, but with the right at any time within five years to turn the same into the form of fixed rental not exceeding $42,000 per annum—being at the rate of about $913 per mile.

The acquisition of this road, it is believed, would be of great advantage to the property of this Company, for the reasons that the business local to the road will probably be sufficient to pay the rent reserved. The traffic to and from it, into and from Chicago, would pass over 268 miles of the Main Line. It would furnish the connection between the road of this Company at Quincy and the Missouri, Kansas and Texas Road, some 800 miles in length, at Hannibal, with which it has already very considerable business, and must in time come to be large. And, in addition, it would, in a measure, protect the Quincy and Chicago business against competition which might, and doubtless would, result if this road were in the control of a competing line.

It is expected that the provisions of that contract will be complied with, and that this road will constitute a part of your line during the year.

It was with reluctance that your directors consented to take in hand these two roads. It was not in accord with their general purpose. The true policy of the Company undoubtedly should be against extensions or additional branches, and this will be adhered to so long as may be without serious detriment to the property. But in these cases, the circumstances seemed imperative; not to have taken them up would seem to have been a failure properly to execute the trust reposed in them.

It is to be regretted that the wisdom of their action could not have been submitted to the stockholders in advance, but for this there was no time; prompt and immediate action was demanded.

Being, however, aware of the grave difference of opinion among the stockholders in regard to the expediency of leases and extensions, we invite the stockholders to express their opinion as to the future policy of the Company, and if your directors presently in office are continued, they will call a special meeting at an early day to consider the propriety of a new by-law regulating their action in reference to similar cases which may arise.

In a new country, such as is traversed by our road, especially in Iowa, and with roads in embarrassed circumstances coming upon the market at prices so largely below the cost of construction, an absolute passive policy would seem to be unwise. If, however, after full consideration, the stockholders shall deem it better to place restrictions upon the exercise of the discretion of the board in regard to such enterprises, they will be cheerfully complied with.

The acquisition of the Albia, Knoxville and Des Moines Road was so late in the year that it has not largely increased the average length of road operated, being 1,268 miles, including Main Line and Branches, as against 1,263.81 miles in 1874.

The General Construction and Equipment Account has been increased in Illinois and Iowa during the year $894,886 10. A large proportion of this amount has been for the excess of cost of steel rail over iron put into the track during the year, and for the excess of cost of iron and masonry over wood in renewing wooden bridges and culverts upon the road.

The principal items of construction for the year have been:

Cost of steel rail over iron	$346,672 54
Excess of cost of iron and masonry over wood in renewal of bridges and culverts	72,129 54
New side track	89,285 54
Engine house at Creston	41 528 13
Depot grounds at Chicago	218,041 68
Burlington station grounds	16,491 73

By reference to the report of the committee herewith presented—appointed especially to examine the construction accounts and the work done during the year—stockholders will learn more definitely of its extent, character and necessity.

For a full statement of the items entering into this construction account attention is also asked to the reports of the General Auditor, General Superintendent and Treasurer.

All expenditures for construction on the Burlington and Missouri River Road and Branches since this company took possession of that road have been paid out of surplus earnings of the company, as no other provision has yet been made in that regard.

TRACK AND EQUIPMENT.

The Track and Equipment have been thoroughly well maintained. Indeed, in the former there has been marked improvement, as will be understood when it is known that there have been expended in 1875, upon the track and bridges and charged to operating repair account, and paid out of earnings, $1,513,137 54, of which $715,350 53 have been expended in Iowa.

Frequent floods and continued wet weather during the summer months, with the heavy traffic upon the road at the same time, demanded an unusually large expenditure to keep the track in repair.

102.55 miles of track have been relaid with steel rail during the year, 55.81 miles in Illinois

and 46.74 miles in Iowa, making the total number of miles of steel rails now in the track $389.105.

In Iowa, 25 bridges have been renewed; 42 replaced with masonery and filled with earth; 43 filled and partially filled with earth; and 5 replaced with iron and masonry.

8.144 miles of new side track have been constructed, making the whole number of miles of side track on the Main Line and branches 250.63.

The second track remains the same as at the date of the last report, 61.50 miles.

Total length of Main Track operated at the end of the year is 1,297 miles.

There have been added to the equipment, during the year, 9 freight cars, 2 platform and coal cars, 11 way and conductors' cars, and 3 hand cars.

The total equipment at the end of the year was as follows: Engines, 302; Passenger cars, 112; Baggage, Mail and Express cars, 59; Box Freight cars, 4,169; Platform and Coal cars, 1,716; Way and Conductors' cars, 139; Dump cars, 31; Office cars, 2; Pay car, 1; Wrecking and tool cars, 6; Pile Driver, 1; Hand cars, 410; Rubble cars, 357.

It is thought that the present equipment will be adequate to the business for the ensuing year, though it is possible that the opening of the coal fields on the Albia Branch may so largely increase the coal traffic as to require additional coal flats to take care of that business.

TRANSPORTATION.

The amount of freight moved during the year, exclusive of Illinois Central, done under special contract with that Company, Chicago, Dubuque and Minnesota and Company's freight was 2,396,933 tons, as against 2,420,638 tons in 1874, a decrease of 23,695 tons.

Of the above amount, 716 791 tons were received from and delivered to Western connections; 382,134 tons were eastward and 334,657 tons were westward bound; making local freight eastward and westward 1,680,142 tons.

The tonnage to and from the Burlington and Missouri River Road and its Western connections was 527,844, a considerable increase over the previous year.

The freight business in connection with the Illinois Central, under the contract with that Company, has amounted to 312,809 tons.

During the year, the C., D. and M. R. R. Co. did its business by the C., C. and D. Road and the Chicago and Northwestern. There being no bridge at Clinton to which this Company had access, it could not be received, and that business has been comparatively nothing.

The rates of transportation of freight have been fully maintained.

The average earnings per ton per mile upon freight transported, exclusive of that carried by the Illinois Central, the Chicago, Dubuque and Minnesota Railroad Companies, have been at the rate of 1.915 cents as against 1.900 cents in the previous year.

The total number of passengers carried, exclusive of mileage and season tickets, has been 2,019,584 as against 1,830,453 in 1874, with an average mileage of 46.43 to each passenger.

The average rate per mile, exclusive of mileage and season tickets, was 2.79 cents as against 3.009 cents in the previous year.

The gross receipts on passenger business are in excess of those of last year by $68,888 15.

The reduction in passenger rates was mainly occasioned by the reduction to 3 cents per mile in Iowa on the 1st of May. Had season and mileage tickets been included, the reduction would have been somewhat greater.

LAND DEPARTMENT.

At the date of the last report, there remained of unsold land, as near as could then be estimated, 103,621.26 acres. In view of this comparatively small quantity, sales for the year have been large, amounting to 57,081.05 acres, for the gross sum of $667,291 37, an average of $11 70 per acre.

The cost of selling these lands has been 99 cents per acre.

Contracts for sales previously made, and covering 14.477.82 acres, on which the purchase money amounted to $179,807 14, have been canceled during the year, which should leave of unsold lands on the 31st ult., 61,018.03 acres.

But corrections in the grant, caused by additions to and losses therefrom, leave the amount at 60,371.55 acres, as near as can now be ascertained.

The gross cash receipts for this department were		$365,957 95
Expenditures,		
For ordinary expenses	$35,655 12	
For taxes	6,782 65	42,437 77
Leaving a balance of		$323,520 18

All of which, except about forty thousand dollars, has been paid to the Trustees in the Burlington and Missouri River Land Grant Mortgage, so-called, to be by them invested in bonds for the sinking fund created by the mortgage, securing the so-called Land Grant seven per cent. bonds of that Company.

The total amount paid over by this department for the sinking fund on the 31st ult., was $856,357 39, of which $816,625 99 had been paid over to the Trustees. The balance still remains in the Treasury of this Company, awaiting investment.

The general result of this department at the end of the year may be stated as follows:

Due on principal of subsisting contracts for sale of land (which are undoubtedly good by reason of the already increased and constantly appreciating values of the lands sold)	$2,888,128 92
Due for interest on those contracts	733,684 85
Due on town lot contracts and town property	8,500 00
Taxes to be refunded	8,241 62
Bills receivable	475 88
Paid to Treasurer C., B. and Q. R. R. Co. for sinking fund	856,357 39
60,371.55 acres unsold land, estimated worth $7 00 per acre	422,600 85
Total	$4,912,989 51
From which deduct special deposit (partial payments)	46,672 57
Leaves an estimated result of this department of	$4,866,316 94
To meet the bonds issued under the so called B. and M. Land Grant Mortgage, of which there were in amount	$5,058,350 00

Special attention is called to the report of the Land Commissioner in charge of this department.

In 1874, suits were brought by the Railroad Commissioners against the Company in Illinois for non-compliance with the railroad legislation prescribing rates of freight and fare.

In these suits, judgments were rendered against the Company in the courts below, and appeals taken to the Supreme Court of the State. One of these suits has been determined in favor of the Company and remanded. The others present substantially the same questions, and like decisions will be made in them all.

The decisions, however, thus far have not specifically determined the authority of the legislature to prescribe rates in these cases where the right by the charters is expressly granted to the Company.

The adjudications in these and other cases have, however, gone so far as to leave little or no doubt in Illinois, where the power to regulate rates of freight and fare is given to the Company by express grant, that the question, when determined by the Supreme Court of that State, will be in favor of the Company.

In Iowa, the position is somewhat different.

There the grant of authority is not express, but, as it is claimed, is necessarily implied.

The rights of the Company in this regard are to be passed upon by the United States Supreme Court in a suit between the Company and the State of Iowa, already argued, and now awaiting decision, which it is confidently believed will be in favor of the Company.

In addition to this, it may be stated that the Legislature of Iowa will soon be in session, and the propriety of modifying the railroad legislation of the State will doubtless be considered.

The effect of the law has been scarcely less injurious to the agricultural and commercial interests of the State than to the property of the railroad companies.

The change in public sentiment, and the growing tendency to more reasonable views relating to the rights of private property invested in the railroads of the State, lead your directors to hope, not for an entire repeal of these laws, which would be better, but for such modifications as will give confidence to the holders of railroad securities of that State, and leave the property within the reasonable control and management of its owners.

Acknowledgements are due to the officers and agents of the Company for the efficiency in which they have severally discharged their duties.

By order of the board.

J. M. WALKER, President.

CHICAGO, January 1, 1876.

Catawissa Railroad.

At the annual meeting of the stockholders of this company, held in Philadelphia on the 4th inst., the Sixteenth Annual Report for the year ending December 31st, 1875, was read and adopted. It says:

The receipts of the year under the terms of the lease have been $202,000, out of which a dividend of seven per cent has been paid on the preferred stock and four and two-thirds per cent on the second preferred, according to the terms of the lease. The amount paid by the lessees for the year ending November 1st, 1876, will probably enable the company to increase the dividend on this stock to seven per cent. In common with all other roads and in sympathy with the depressed condition of the business interests, the lessees report a falling off in the receipts, the gross receipts for 1875 being $640,905 31.

They report having spent considerable money in repairing structures and improving the roadbed of your company, as also to the extension of the road to the Dodge Mills, and the completion of the branch at the mouth of the Loyalsock, anticipating from both sources an increase in the business of the road.

☞ A certificate of incorporation was filed with the Secretary of State of California on the 1st inst. of the Lime Rock Railroad Company, to run from Santa Cruz to a point in section 29, township 10, in the Santa Cruz mountains, with a branch to Davis & Cowell's lime kilns; to be a narrow-gauge of about 36 inches and to use T-rails; principal place of business, San Francisco. Directors—George W. Kidd, J. H. Applegate, D. McKay, John Sedgwick, S. N. Putnam. Capital stock, $200,000, in 2,000 shares of $100 each. Capital stock actually subscribed, $10,000.

☞ Judge Woods, of the United States Circuit Court, has denied the application of Morris Ketchum to remove W. Butler Duncan and A. Foster Elliott, as Trustees and Receivers of the Mobile and Ohio Railroad, deciding that Morris Ketchum is not a Trustee under the deed. The motion of Miss Georgie Warner to reopen her suit against the Trustees was withdrawn.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

(*) asterisk occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "1."

American Railroad Journal.

Saturday, April 15, 1876.

Financial and Commercial Affairs.

With rather more life apparent in the dealings at the Stock and Gold Boards, as also at the Produce Exchange, the demand for Money has been more animated, and rates have shown more firmness, especially toward the close, the range on call loans having been from 3@6, generally at 3½@4, and on the best mercantile credits, from 5@7 per cent per annum. At these figures, lenders promptly met the wants of responsible borrowers, and the market worked smoothly through the week. The City Banks enlarged their loan and discount averages, moderately; while reporting a loss in all other averages, most notable in the item of legal tender notes, which show a falling off of over three millions, chiefly through shipments to the interior to provide currency for the early April settlements; and in the line of deposits, which diminished over 3½ millions. The Government office here added to its currency reserve, while reducing its coin balance. National Bank notes received at the Treasury Department, last week for redemption were to the amount of $2,668,000. The City Banks have had their deposits reduced $3,567,800; and their legal tender reserve $3,018,100. The specie average has been diminished $824,800. The loan and discount item was enlarged $435,000. The circulation was cut down $66,400. The U. S. Sub Treasury in this city closed the week with a currency balance of $35,517,844 against $34,890,438 the preceding week; and a coin hoard of $45,778,880 against $46,013,175 on the previous return. The City bank exchanges in currency reached $387,862,835, or a daily average of $64,643,806. The customs

revenue of the port during the week was $1,767,000. The City banks reported their average of gold last week at $20,336,800, and their greenback average at $38,700,400. Their deposits stood at $207,993,300. The loan item was $261,786,200. The circulation was $16,297,600.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $7,038,875, as against $9,999,923 the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, April 1st was $413,877,104. The outstanding amount of legal tender notes is $370,755,248. The National bank circulation is now $338,700,000, including $2,100,000 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,425,562; special deposit of legal tenders for the redemption of certificates of deposit, $34,925,000; Coin, $74,482,890; Coin certificates, $31,030,200.

The week's import entries of Foreign Merchandise at New York were $7,369,522, including $2,052,277 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 88 millions; and from Customs, 120 millions.

Gold has been moderately active at easier prices, closing rather weak. The speculative inquiry has been less confident. The export movement has been on a restricted scale. The customs drain has been limited for the season. The extremes of the price during the week have been 112¾@113⅜, closing on Wednesday at 113⅛ as against 112⅞, on Wednesday of the preceding week. The specie outflow last week was $979,906 against $1,302,878 the previous week. The imports of specie at this port last week were $48,1[illegible]0, and since January 1st $1,447,648 as against $5,0[illegible]4,248 same time last year. The customs demand for gold last week averaged $294,500, per day. Foreign Exchange has been in quite moderate request, yet quoted firm. Bankers sixty day bills on London closed on Wednesday at $4 86½@$4 87¼; sight bills on London at $4 89⅛@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,523,403. The week's imports of Dry Goods and general merchandise were to the specie value of $7,369,522 as against $8,878,316 the corresponding week of 1875.

The specie exports from San Francisco overland for New York, in March, were $5,528,149.

Government Securities have been more sought after on investment account, and have been quoted generally stronger in price, notwithstanding the depression in Gold. The offerings of most issues have been on a reduced scale. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $351,508,450.

U. S sixes of 1881 closed on Wednesday of this week at 122⅜@122½; U. S. Five-Twenties of 1865, 118@118¼; U. S. Five-Twenties of 1865, consolidated, 118⅞@119⅛; U. S. Five-Twenties of 1867, 121@121¼; U. S. Five-Twenties of 1868, 122¾@123¼; U. S. Ten-Forties at 118⅜@118⅝; U. S. Fives of 1881, (Funding Loan) 118¼@118½; Six per cent. currency Sixes, 126¼@126⅝.

State and Railway bonds have been attracting more attention from investment buyers at about steady prices. And in the line of Railway and Miscellaneous share property the dealings have been more animated, with values, however, quoted unsettled, closing with some indications of firmness, if not buoyancy.

General business has been fair in the line of domestic produce, but at variable prices. Wheat closed stronger, under reports of threatening weather in the British Islands, unfavorable to the growing crop, and to farming operations. Foreign merchandise has been rather more sought after. Groceries have been quoted stronger. The Metal trade has been slow; values, generally quoted weak. Eglinton Pig Iron quoted here at $28 50@$29; Glengarnock $31; Coltness $32; No. 1 American Pig at $22@$23; No. 2 do. at $20; Forge, $16 50@20; American Rails at works, $42@$45; Old Rails $22@$25. Wrought Scrap, $30@$31. Ocean freights have been depressed and quoted much lower without leading to much activity in any line. Room mainly sought after for the Grain, Provision, Cotton, and Petroleum interests.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Illinois Central Railroad.

During the month of March, 1876, 1,558,84 acres of Land were sold for $11,620 76. The Cash collected on Land Contracts during the same time was $15,954 10. The Traffic on the Main Line in Illinois was $459,517 30, against $449,433 34 in March, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts) was $145,-976 35, against $146,085 16 in March, 1875.

☞ The Centennial Exposition Buildings at Philadelphia are ready, but the exhibitors are not. The space devoted to the United States is filling up so slowly as to create alarm for the credit of the country in the industrial competition to which other nations have been invited.

Railroads in Texas.

"The International Railroad is building rapidly towards Austin, the most of the road, about 50 miles, being under contract. We think the city of Austin could well afford to give a handsome cash bonus (no bonds), say $100,000, to the company on condition that the road be in Austin, ready for business, on or before the 1st of September, 1876. We will subscribe $1,000 provided the citizens of Austin make up the balance, and the company will agree as to time above stated.

"Rockdale, the present terminus of the International Railroad has shipped since August 1st, 14,657 bales of cotton, 541 cars of cattle, and 124,632 lbs. of hides, and the following is a statement of the shipments of this town since the place was first started in February, 1874: 27,560 bales of cotton, 2,226 cars of cattle, 425,674 lbs. of hides. The reports from Texas are very favorable as to the growing wheat crop; a much larger acreage has been planted, and the prospects for a large surplus for export are good indeed. The cold snap of the 20th and 21st ults. had done some injury to the young corn and cotton, but farmers have at once replanted and repaired the damage.

"The decision of the Supreme Court of Texas settles the question as to the legality of the Galveston County bonds issued in aid of the Gulf, Colorado and Santa Fe Road. The Court decide the bonds legal, and we presume they will now be offered in this market, as they were before, when they found no buyers."

For the above information we are indebted to the April circular issued by Forster, Ludlow & Co., Bankers, No. 7 Wall Street, New York, and Austin, Texas. It also contains some very valuable statistics in reference to the condition of the various railroads in the State, viz: number of miles in operation, capital stock, stock paid in, amount expended, number of acres donated by the State to each company, etc., etc. As this firm has a branch house in Austin, the capital of Texas, they are enabled to give the latest and most reliable information in regard to the finances of this prosperous State, and all persons contemplating investing in Texan securities would do well to consult this firm. Circulars can be had free on application to them.

☞ The contract for the construction of the Poughkeepsie Bridge has been let; but in order to bind the contract, and secure its being built, it is necessary that the sum of $300,000 be subscribed, in addition to what has already been raised, before the 21st of April. The office of the company is at 32 Equitable Building, Boston.

☞ Judge Barrett has granted an attachment against the property of the New Orleans, Mobile and Texas Railroad Company, on the application of Louis A. von Hoffmann and William Martens, who sue the company to recover payment of interest upon certain bonds, upon which the defendants have defaulted.

☞ A dispatch from Springfield, Illinois, announces that in the case of Morton, Bliss & Co., of this city, against the Gilman, Clinton and Springfield railroad, a decree of foreclosure has been entered in the United States Circuit Court, and the road and its equipments ordered to be sold within sixty days.

☞ A telegram from Washington states that in the suit of the Missouri, Kansas and Texas Railroad vs. The United States, in the Osage land case, the Supreme Court has decided in favor of the settlers, and against the railroad company.

Forster, Ludlow & Co.,
BANKERS,

Interest and Dividends.

A dividend of five per cent. has been declared on the stock of the main stem of the Baltimore and Ohio Railroad Company, for the half year ended March 31, payable on and after May 1. The transfer books will be closed on the 19th inst., and so remain to May 1.

The New Bedford Railroad Company have declared the usual semi-annual dividend of four per cent. payable April 30.

The Lowell and Lawrence Railroad company have declared a dividend of three per cent.

☞ The following committee, for purchasing and reorganizing the Chesapeake and Ohio Railroad Company, were elected on the 10th inst.: Messrs. C. P. Huntingdon, A. A. Low, John Castrie, A. S. Hatch and Isaac Davenport.

☞ The census of Philadelphia, taken on the 3d inst., shows a population of 817,448. The revised census of 1870 made the population 674,-022; this, deducted from the census just completed, shows an increase of 143,426.

Eastern (Mass.) Railroad.

The Legislative Committee on Railroads presented to the Senate on the 7th inst. a unanimous report upon the several orders and petitions referred to them requiring an investigation of the affairs of the Eastern Railroad Corporation, from which we make the following extracts:

INVESTIGATING COMMITTEE.

As regards the first order of inquiry, the Committee find that the President of the Eastern Railroad Company complied with the vote of the stockholders, passed at the annual meeting, February 7, 1876, instructing him to appoint a committee to investigate the affairs of said company, by naming such a committee, with Seth J. Thomas, Esq., as Chairman. All the members of the Committee, with the exception of Mr. Thomas, declined to serve, and the President has since been unable to fill their places.

ISSUE OF BONDS AND NOTES.

In relation to the issue of notes and bonds and the making of other liabilities by the Eastern Railroad Company, which is the subject of inquiry in the second order, the committee report that after a most careful and thorough investigation of the subject, they fail to find any instance where such issues of notes and bonds, and the making of such other liabilities, have been contrary to law, except, perhaps, an amount of $33,000 of the Portsmouth, Great Falls and Conway bonds which were issued or pledged as collateral, by mistake, as is explained on pages 318, 319 and 431 of the appendix.

The Eastern Railroad issued its bonds to the limit provided by general law, and by the special law of 1874, being chapter eighty of the acts of that year, and also issued its "coupon notes" to an almost equal amount. The general law provides that the amount of bonds issued by a railroad corporation shall in no case exceed the amount of its paid-in capital stock, but by a strange anomaly, allows the issue of "coupon notes" and other certificates of indebtedness to an unlimited extent. As the law stands to-day, it serves only as a trap to delude the unwary, for, while throwing a supposed safeguard round the issue of bonds, it goes on to provide that bonds, notes and all other pre-existing liabilities of a railroad, shall be placed upon the same footing whenever a mortgage is made. The law in this respect should be either amended or repealed.

MANAGEMENT OF THE ROAD.

The management of the Eastern Railroad, especially prior to the Presidency of Mr. Wooldredge, seems to have been exceedingly loose, and was distinguished by a recklessness in expenditure, and a lack of system in accounts, which calls for severe censure.

Large sums of money were expended in purchases of the stock of the Maine Central Railroad, apparently without the knowledge, and certainly with no vote of the Board of Directors, either by the action of a committee or of individual members, who purposely kept the knowledge of the transaction from other members of the board.

No vote of the board in reference to the purchase of such shares was had until long after the shares had been actually purchased, and about that vote there is a conflict of testimony, as appears by the evidence regarding it in the appendix. This purchase of stock, although made before the law prohibiting such purchases took effect, was of very doubtful legality, and whether legally made or not the manner of making it cannot be too severely condemned. No transaction involving so large an expenditure of money should be entered upon by a railroad corporation except by a vote of the board of directors, duly recorded on the books of the corporation.

The purchase of the depot lands at Lynn at a price out of all proportion to their true value (pp. 65, 402, 409); the subsequent destruction of the depot constructed thereon at an expense of $55,000, on the simple order of the President, and the payment of $100,000 for release from the contract to stop trains at said depot (pp. 65, 66, 67); the payment of large sums of money, without vote of the board, on the receipt of individuals, with no vouchers to show how the money was expended (pp. 369, 474); and the purchase, at an exorbitant price, of the Bar Harbor property (pp. 358, 365); the details of all these transactions being fully set forth in the appended evidence on the pages above referred to, are examples of a looseness of management and an extravagance of expenditure from which, sooner or later, financial disaster must necessarily have ensued. The Committee are glad to be able to say, however, that it does not appear from the evidence that the officers of the road made any personal profit from these various transactions, or used their position for their private advantage.

INCREASE OF DEBT.

The debt of the Eastern Railroad Company bearing interest, was, in 1871, about $4,507,545. It is now about $14,500,000, making an increase of debt of $9,992,455; add to this the new stock issued since 1871, amounting to $735,000, and we have the sum of $10,627,455 as expended since the year 1871. The following table shows approximately where this large expenditure was made, for what purposes it was made, and the years during which it was expended:

EXPENDITURES OF EASTERN RAILROAD SINCE 1871.

For what purpose expended.	Years during which the expenditure was made.	Am't expended.
Portsmouth, Great Falls and Conway Railroad..	1871,	$1,232,000
Revere disaster, direct damages	1871,	600,000
Market Street station and land at Lynn.	1871,	426,000
Portland, Saco & Ports'h liabilities assumed.....	1871,	500,000
Relaying track with steel rails, new equipment, bridges, etc., in consequence of the Revere disaster..	1872, '73,	2,300,000
Land in Charlestown, station and track	1872, '73, '74,	2,518,000
Land in Causeway Street, Boston	1873,	118,000
Essex Branch Railroad..	1873,	95,000
Swampscott Branch Railroad	1873,	175,000
Bar Harbor wharf..	1873,	33,000
Maine Central stock.	1873, '74, '75,	1,220 000
Discount on sterling loan.	1873, '74,	278,000
Discount on 2-year notes.	1874,	139,600
Discount on sinking fund loan.	1875,	300,000
		$9,934,600

The items in the above table, with the expenses incidental to them, and with loss of interest, show, in the main, how this large debt of the company has accumulated. Mr. George W. Browne was President in 1871, Mr. T. K. Lothrop in 1872 and 1873, Mr. John Wooldredge in 1874 and nine months of 1875, and Mr. S. C. Lawrence from the resignation of Mr. Wooldredge to the present time. Nearly all the liabilities were incurred before Mr. Wooldredge became President, and he seems to have endeavored to bring about a reduction in expenses. Under the management of the present President, Mr. Lawrence, the operating expenses of the road have been largely reduced; and there has been, as the Committee believe, an honest endeavor to conduct the road on sound business principles. There seems to be no reason to doubt the general correctness of the last annual report of Mr. Lawrence, being the 41st annual report of the Eastern Railroad Company.

FUTURE PROSPECTS OF THE ROAD.

But whatever may have been the mistakes and shortcomings of the past management of the road, the stockholders and the public are to-day most deeply interested in its future prospects. The property which the Eastern Railroad holds to-day, as is set forth in the evidence, consists of 133 miles of road, including the Eastern Railroad in New Hampshire, about 78 miles being laid with steel rails. It has practically the title to the Portsmouth, Great Falls and Conway Road, which is 71 miles in length. It has leases of about 76 miles. The leased roads are:

Portland, Saco and Portsmouth 51	miles.
Portsmouth and Dover 11	"
Wolf boro' (most of stock is owned by E. R. R. Co.). 12	"
Newburyport City 2	"
76	miles.

It owns 15,276 out of 36,020 shares of the stock of the Maine Central Railroad, which, including the main line and branches, is 310 miles in length and has a lease of 50 miles in addition. This road, in 1874, appears to have earned six per cent. on its stock, besides paying its interest.

The Eastern Railroad Company owns 93 locomotives, 179 passenger cars and 1234 freight cars. It has about 78 acres, or about 3,500,000 feet, of land or flats in Boston, including East Boston and Charlestown. It has other land, amounting to about 612 acres, situated principally in Manchester (337 acres), Salem (47 acres,) Hamilton (40 acres), Newburyport (16 acres), Salisbury (21 acres), North Beverly (14 acres), Revere (16 acres) and on the Lawrence Branch (94 acres). It has property, exclusive of the Maine Central stock, not needed for its business, from which it is estimated that $2,000,000 could be realized in times of usual business prosperity.

A fair estimate of the market value of the real estate, with the buildings, in Boston, including Charlestown and East Boston, before the panic, was three and a half million dollars, and estimating the Maine Central stock at $750,000; the surplus land outside of Boston and other assets, including the Pullman car stock, at $250,000 (see Appendix, p. 377), the 204 miles of road and equipment taking the stock and debt at $20,000,000, would stand at about $75,000 a mile. The whole debt of the company, including contingent liabilities, is about $15,000,000, of which about $14,500,000 bears interest at nearly seven per cent. The annual rents for leased roads amount to about $141,000.

INCOME OF THE ROAD.

The gross earnings of the main line, not including the roads now leased, or the Portsmouth, Great Falls and Conway road, in the year 1863. were $1,040,188; in 1872, $2,014,998; in 1874, $2,362,890. The gross earnings on all the roads operated by this company in 1874 were $3,059,933. The average gain from 1863 to 1874 was over seven per cent. per annum. In 1875, in consequence of the depression in business on the line and in Maine, the income was about nine per cent. less than in 1874, and it is estimated there will be a still further decline in 1876, bringing the gross income down to $2,500,000.

The net earnings in 1874, owing in part to a reduction of expenses, were reported at $1,078,922; but this is a larger percentage of net earnings than can be expected if the road and equipment are properly maintained. Had there been the same gain in 1875 and 1876 that there was in the two preceding years, the gross earnings for 1876 would have been about $3,800,000, instead of $2,500,000, as they are now estimated; the net earnings would have been $990,000; adding dividend on Maine Central stock, which would have yielded with reasonable prosperity six per cent., $91,658, and deducting the rents, $141,000, and the amount applicable to interest would have been $946,656.

The net earnings from the estimated gross income for 1876, $2,500,000, will be, at 30 per cent., $750,000. No income will be realized from the Maine Central stock. Deduct the rents, $141,000, and it will leave $609,000, which can be applied to the payment of interest. The net revenue ap-

plicable to the payment of interest in 1876, will be only about 65 per cent. of what might have been reasonable expected at the close of the year 1874.

BILL FOR THE RELIEF OF THE COMPANY.

The directors, and other witnesses who were supposed to have a special knowledge on the subject, were questioned by the committee, and their opinions were unanimously given that the best interests of all parties would be subserved by the passage of the bill now before the legislature, without substantial alteration or amendment. They all put the gross receipts for 1876 at about $2,500 000, and the net income at from $750,000 to $800,000. These sums being below the earnings for 1875, allow for a considerable falling off in business. Should, however, the receipts for 1876 be equal to the receipts for 1875, with the large saving that will be made in operating expenses, the net earnings will be over $800,000.

The testimony seemed to indicate that the road can go on and pay the interest under the bill, certainly for the next six years. By that time a part, if not all, the property not essential to the business of the road could be disposed of, and, with a small amount added each year to the sinking fund, the amount of liabilities would be reduced to $12,000,000; in other words, that $2,000,000 will have been received for the property not required, which amount would purchase $2,800,000 of the outstanding bonds at 60, and should there be added to the sinking fund, during the six years, $200,000, the debt would be reduced, as before stated, to $12,000,000, and upon this sum six per cent. is to be paid, and not upon $15,000,000.

Should the earnings of the road increase in anything like the ratio of the past twenty-five years, and business revive, the net income of the road must be much in excess of the amount required under the bill, and will reduce the debt to $10.000,000, the sum named in the bill, after which the stockholders assume control of the road.

The Committee have stated thus fully the facts in regard to the property and income of the road, because they were developed in the course of the investigation, and cannot fail to be of great interest to the stockholders and the public. As a result of the investigation, the Committee report this day two general laws, one in relation to the issue of notes and bonds by railroad corporations, and the other in regard to calling meetings of stockholders; but, as they could hardly be reported, under the rules, on orders relating only to the Eastern Railroad Company, the Committee have reported them on the report of the Railroad Commissioners for this year, which is before them.

They also report that no special legislation is necessary or expedient on the orders and petition upon which they have made the investigation.

All of which is respectfully submitted.

The Committee on Railroads reported the following bill upon the report of the Railroad Commissioners in regard to the issue of bonds and other evidences of indebtedness by railroad corporations:

Sect. 1. No railroad corporation chartered under the laws of this Commonwealth shall hereafter issue any bonds, coupon notes, or other evidence of indebtedness payable at periods of more than twelve months from the date thereof, except as provided by Sect. 49, of chap. 372, of acts of 1874.

Sect. 2. This act shall take effect upon its passage.

Railway Danger Signal.

The French Minister of Public Works has issued a circular, calling the attention of the railway companies to a new danger signal, which gives warning to the ear as well as to the eye of an engineer. The board, which is moved to display a danger signal controls an electric current carried by a wire to an apparatus with which the locomotive in passing must come in contact. When the signal is fixed to warn the engineer of danger the electric current passes through the wire, and is prepared on the approach of a train to set in operation a loud whistle. When the indicator no longer represents danger the electric current is intercepted, and the locomotive may pass over the apparatus without causing a whistle. The experiments with the new signal have been made during the snow storms and under the most unfavorable conditions, and it is claimed that they have operated with invariable success.

☞ At a meeting of the directors of the Pittsburg and Connellsville Railroad Company held at Pittsburg on the 4th inst. John D. Scully and Chas. Donnelly, of Pittsburg, Mr. Markle, of Westmoreland county, Pa., and Gen. Wm. H. Koontz, of Somerset county, Pa., were elected directors. The other members of the board are as follows: John King, Jr., Chas. Webb, Hugh Sisson, John Donnell Smith and Mendez Cohen, Baltimore; W. S. Bissell, G. B. Fetterman and Wm. Baldwin, Pittsburg. John King, Jr., is the acting president of the Company.

☞ During the week ended April 1, the shipments of coal from Cumberland, Md., amounted to 27,551 tons 9 cwt., of which 20,761 tons 7 cwt. were shipped by the Baltimore and Ohio railroad, 4,375 tons 19 cwt. by the Chesapeake and Ohio canal, and 2,413 tons 3 cwt. by the Cumberland and Pennsylvania railroad. The aggregate shipments since January 1, 1876, are 267,119 tons 19 cwt., of which 231,991 tons 8 cwt. were by the Baltimore and Ohio railroad.

☞ Certificates of incorporation of the Western Ohio Narrow Gauge Railroad Company, No. 1, Xenia to Covington, capital stock $500,000; and of the Western Ohio Narrow Gauge Railroad Company, No. 2, Vanwert to Covington, capital stock $600,000, were filed with the Secretary of State of Ohio on the 4th inst., by R. E. Cable and others.

☞ A railroad convention is to be held at Hopedale, Ohio, on the 20th inst., to organize a new company or arrange for the consolidation of existing companies for the purpose of building a road from the Baltimore and Ohio at some point in Belmont county, northward to Warren, in Trumbull county.

☞ The Chicago, Burlington and Quincy Railroad Company has assumed the management of the Quincy, Alton and St. Louis Railroad, which will hereafter be known as the Hannibal division of the Chicago, Burlington and Quincy Railroad.

☞ The revenue of the Chesapeake and Ohio Canal for March, 1876, was $2,292 16; the tonnage was 3,567 tons. The shipments are increasing daily. During March, 1875, there were no shipments.

Atlantic, Mississippi and Ohio Railroad.

In the United States Circuit Court at Richmond, Va., on the 7th inst., the case involving the application of certain bondholders for the appointment of a Receiver for the Atlantic, Mississippi and Ohio railroad, was postponed by Judges Bond and Hughes until Tuesday the 2d of May. Judge W. D. Shipman, of New York, of counsel for foreign bondholders, asked for the postponement on account of the non-arrival of Mr. Collison, agent of foreign bondholders, who Judge Shipman stated would probably reconcile certain difficulties that it was apprehended would arise in the progress of the case between the Atlantic, Mississippi and Ohio railroad bondholders and holders of the divisional bonds, and thereby clear away what might otherwise be a fruitful source of embarrassment on the future progress of the case. The case pending the delay will remain in statu quo, and the current revenue of the road will be applied strictly to operating expenses.

☞ The new Receivers of the Missouri Pacific and the Atlantic and Pacific Railroad Companies qualified on the 8th inst. by giving bonds in $500,000 each. They subsequently held a meeting, and decided to separate the two roads according to the decree of the court. Dr. Garrison was elected General Manager of the Missouri Pacific, and Capt. C. W. Rogers, who was recently appointed Acting Superintendent of the two roads, was chosen General Superintendent of the Atlantic and Pacific Road. Warder Cummins, Superintendent Eastern Division of the Missouri Pacific, was appointed Acting General Superintendent of that road.

☞ At the annual meeting of the stockholders of the Long Island Railroad Company held on the 11th inst. the following gentlemen were chosen directors: Conrad Poppenhusen, William Keyan, Herman Funke, Morris Franklin, Adolph Poppenhusen, E. B. Sutton, A. L. Poppenhusen, William A. Havemeyer, F. B. Wallace, E. B. Hinsdale, E. E. Sprague, D. V. Ropes and H. C. Poppenhusen. At a subsequent meeting of the directors Mr. Conrad Poppenhusen was elected President and H. C. Poppenhusen Vice President and Treasurer.

☞ The Cumberland (Md.) Civilian says the Cumberland and Pennsylvania railroad had been sold to the Consolidation Coal Company, and the name of the road changed to the Cumberland and Piedmont railroad. The transfer is supposed to be for the purpose of nullifying an act of the recent Legislature of Maryland regulating freights over the road, the Consolidated Coal Company having a charter under which it can build or own necessary railroad facilities.

☞ The Trustees of the Cincinnati Southern Railroad have awarded $3,000,000 in six per cent. gold bonds to Espy, Heidelbach & Co., of Cincinnati, at a premium of thirteen hundredths of one per cent., and accrued interest. The bonds are to run thirty years.

☞ The certificate of incorporation of the Paulding and Cecil Railroad Company, in Paulding County, Ohio, was filed with the Secretary of State on the 5th inst., by C. L. Noble and others. Capital stock, $20,000.

Imports of Dry Goods at New York.

For sale by leading Hardware Dealers

LAWRENCEVILLE CEMENT COMPANY.

ROSENDALE HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

WM. N. BEACH, Pres't,
96 Wall Street, New York.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from out (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

M. Brigham, Kingston, N. Y.
J. H. Butts, Ag't, 95 Liberty St., N. Y.

DELAFIELD & BAXTER CEMENT COMPANY,

MANUFACTURERS OF HIGH FALLS ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT**, (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

☞ Philadelphia was last year one of the two healthiest of the great cities of the world—a fact which cannot fail to interest all who contemplate visiting that city during the Centennial exhibition. The Registrar General of London, in his annual report for 1875, recently published, says that he has reports from more than twenty great cities representing all but two of the great nations of the world, and these reports show that in the year the mortality was lowest in Philadelphia and Christiania, Norway. These reports are all compiled in correspondence with the English system, so that the comparisons made are strictly true as comparisons.

☞ If, as there is no doubt, the Central Pacific people are now obtaining deeds of right of way for the Oakland and Banta Railroad conditioned upon its completion within six months, they can not, says the Martinez Gazette, long delay the commencement of the work between Martinez and San Pablo. With sufficient force they could probably complete the other portions of the line within sixty days; but the cut at Point Conchal is a heavy piece of work that will have to be crowded hard to complete in the time.

☞ At a meeting of parties interested in the construction of the proposed narrow gauge railroad from St. Louis to the seaboard, via Toledo, O., held at Indianapolis, Ind., on the 6 h inst., an organization of the Indiana Company was effected, with S. C. O. Wilson, of Crawfordsville, as President.

☞ The immense Corliss Engine, which is to furnish power to all the machines in Machinery Hall during the Centennial Exposition, was given a trial test on the 10th inst., and found to be in perfect working order, although the parts were never put together before.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Anchor Tie.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

New York, Saturday, April 22, 1876.

Burlington, Cedar Rapids and Minnesota Railway.

The bondholders' committee has submitted a plan of re-organization, of which the following is an outline:

The main line and each of the divisions shall be sold under the respective decrees of sale, and shall be bought at such sale by a committee to be known as the "Purchasing Committee in Trust," which committee shall consist of Fred. Taylor, Alexander Taylor, John M. Denison and M. Shepard Bolles.

Such purchase shall be for the benefit of all holders of the first mortgage bonds of the Burlington, Cedar Rapids and Minnesota Railway Company, who shall come into the purchase under this plan.

The Purchasing Committee shall transfer the property, so purchased, to a new corporation, to be organized under their direction. The capital stock of the new corporation shall be $10,000,000. Such new railway company having acquired title to the property so sold and purchased, shall issue new thirty year 6 per cent mortgage bonds, to the extent of $6,500,000, bearing interest from June 1, 1877.

The new bonds and stock shall be apportioned as follows to the present bondholders:

	Present bonds.	New bonds.	New stock.
Main line bonds	$5,400,000	$4,320,000	$3,780,000
Milwaukee Division	2,200,000	1,100,000	1,100,000
Muscatine	800,000	240,000	240,000
Pacific	1,800,000	450,000	450,000
Remaining in the Treasury		390,000	4,330,000
Total		$6,500,000	$10,000,000

It is contemplated that the committee may not purchase all the divisions of the said road, owing to a possible failure on the part of the bondholders, secured on one or more of the divisions, to come into the plan; in which case the stock and bonds of the new company, which would otherwise be distributed on account of the omitted division, shall remain in the treasury. Bonds and stock remaining in the treasury of the new company, shall be used only for the legitimate purposes of the new organization, and with the authority of the Board of Directors of the new company.

Baltimore and Ohio Railroad.

At the regular meeting of the directors of this company held in Baltimore on the 12th inst., Mr. Decatur H. Miller was unanimously elected to fill the vacancy created by the resignation of Mr. C. Oliver O'Donnell as a director on the part of the stockholders.

The committee of finance reported the following resolutions, which were adopted:

Resolved, That the notification of P. P. Pendleton, Esq., president of the Valley Railroad Company, of the 17th of March, ult., that the board of directors had instructed him to proceed at once to terminate the present arrangements under which the road from Harrisonburg to Staunton is operated by the Baltimore and Ohio Railroad Company, to take effect on the 1st of May next, be accepted by this company, and that said railroad be delivered to said company on that day.

Resolved, That the Baltimore and Ohio Railroad Company decline to lease the road of the Valley Railroad Company for two years from the 1st of May next as proposed by that company.

The committee of finance also reported the following resolution, which was adopted:

Resolved, That appeals be taken from the recent decisions of the Howard County Court in the cases of the State of Maryland vs. the Baltimore and Ohio Railroad Company for the tax of 20 per cent. on the gross receipts for passengers between Baltimore and Washington.

The following resolutions, reported by the same committee, were unanimously adopted:

Resolved, That a dividend of five per cent. be declared on the stock of the main stem of the Baltimore and Ohio railroad for the half year ended March 31, payable on and after the first of May proximo, at the Merchant's National Bank of Baltimore, and that the transfer books be closed on the 19th instant and remain closed until May 1.

Resolved, That it is inexpedient to declare a dividend on the stock of the Washington Branch road, in view of the continued claim of the State of Maryland for a tax of twenty per cent. on the gross receipts for passengers from December 10, 1870, since which date the said tax has not been collected by the company.

With regard to the proposition of the Valley directors, through their president, it was to lease the road to the Baltimore and Ohio Company for two years, at $30,000 a year. The Baltimore and Ohio, however, holds that it cannot give better terms than heretofore, and though some loss has occurred under the present arrangement to the Valley company during the dull winter months, in this period of depression, yet the Baltimore and Ohio, as a one-third owner, necessarily shares that loss in due proportion, and does not see why it should shoulder also that of its copartners.

After the transaction of the usual routine business the board adjourned.

The Illinois Railroad Tax Cases.

The following decision, among others, was rendered in the Supreme Court of the United States on the 17th inst.: 702, Taylor, collector, vs. Secor et al.; 701, Miller, collector, vs. Jessop et al., and Miller, collector, vs. Kidder and others. Error to the Circuit Court for the northern district of Illinois. In these cases the court held that the theory of the system of railroad taxation established by the act of the State of Illinois in 1872, the operation of which the court below enjoined, is manifestly to treat the railroad track, its rolling stock, its franchise and its capital as a unit for taxation, and to distribute the assessed value of this unit according as the road in each county, city and town bears to the whole length of the road, and that such a system is entirely within the authority of the State to create.

After an elaborate examination of the objec-

tions made to the law, the court say that the question being upon the validity of the State law, as granted by the State constitution, it is together with the question of the construction of the State altogether within State jurisdiction, and that the decisions of the State courts in such cases are to be accepted as the rule of decision in the federal courts, and as the State court has already decided the same question involving the same consideration urged here, the judgment would be reversed for that reason, independent of any other. Decrees reversed, with directions to dissolve the injunction and dismiss the bills. Mr. Justice Miller delivered the opinion.

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings and expenses of this road for the years ending December 31, 1874 and 1875, were as follows:

Earnings:	1874.	1875.
From passengers....	$786,249 76	$774,933 75

Surplus December 31, 1875.....		222,587 74
Total, as above.....		$1,370,566 68

The gross earnings in 1875 were $3,774,217 28, and the total expenses, including taxes and interest, were $3,273,956 09, leaving a balance applicable to dividends of $500,261 19. In 1874, the earnings were $4,248,606 08, the expenses $3,632,983 61, and the balance, after payment of taxes and interest, $615,622 47. The ratio of expenses to earnings in 1875 was 72.25 against 74.90 in 1874. The President in his report says:

The earnings of the year are $474,388 80 less than those of 1874, or 11.16 per cent. The operating expenses of the year are $455,278 57 less than those of 1874, or 14.3 per cent.

The decrease of earnings is largely due to the unprecedented low rates of freight prevailing throughout the greater portion of the year, arising from a struggle of extraordinary severity and long continuance between rival trunk lines, coupled with the unsettled and feverish condition of the business of the country.

Rates, depressed to such an unusual degree, with no exception as to kind or amount of traffic, had brought about a condition of affairs by midsummer as threatened the worst financial results to all roads, involving the vital interests of the stock and bondholders of American Railways, and affecting as well State and local prosperity.

It seemed not to be generally appreciated that, in the undeviating fall, year by year since 1867, of the rail transportation rates, the railroad lines had reached in 1874 almost the lowest practicable limit.

In the case of your railway the average freight rate obtained in 1874 was but 1.192 cents per ton per mile, the through freight rate eastward being but 0.921 cents per ton per mile.

As low as these rates were, as cheaply served as had been all communities in transportation affairs, the results of the year just closed show a further decrease in rates, the through eastward rate being but 0.751 cents per ton per mile, and the average rate of all freight having fallen to 1.005 cents per ton per mile.

Only in the restoration and maintenance of a just and reasonable compensation for the carriage of traffic is the assurance of net earnings, and which shall secure something approaching uniform financial success or reliability in the operation of western railways.

The practical effect of this depression of rates, growing out of conflict and unlicensed rivalry, is shown by the fact that if the low rates of 1874 had been maintained upon the freight traffic of 1875, the net earnings from that source would have been increased $491,453 42, whilst the income from passenger business would have been augmented by $53,373 45.

The tonnage of the year has not materially varied from that of 1874. The policy has been rather to avoid at times increasing tonnage, from the certain knowledge of financial loss in its carriage, but endeavoring to keep the railway and the communities and interests which it served in thorough accord.

And at no time in its past history has the railway been in a better condition to meet every and all possible requirements, either of the present or future, in the amount and economical management of transportation demand.

BONDED DEBT.

Reference is made to the following extract from the last annual report, viz:

To provide means for increasing the facilities of the railway, and to meet the indebtedness referred to in the last annual report, on account of construction expenditures and advance outlays under contract, the board decided upon the creation of a General Sinking Fund Mortgage, to the amount of seven millions five hundred thousand dollars, secured by a cumulative sinking fund of one per cent. per annum, with interest at seven per cent. currency, or six per cent. gold, payable semi-annually.

Of this security, called a First Consolidated Mortgage bond of this company, one million dollars have been sold to Messrs. Drexel, Morgan & Co., yielding the company ninety per cent. and accrued interest.

This Consolidated Mortgage covers all the prior mortgages of this company, as follows:

First Mortgage Sinking Fund bonds of this company, due 1899.....	$3,000,000
First Mortgage Bonds Bellefontaine and Indiana Railroad Company, due 1875 to 1899.....	448,000
First Mortgage Bonds Cleveland, Columbus and Cincinnati Railroad, ($25,000 payable each year,) 1875 to 1884	248,000
Total.....	$3,696,000

The payment of this amount of three millions six hundred and ninety-six thousand dollars was provided for in the Consolidated Trust Deed, by requiring the Trustees in advance of any other delivery of bonds by them, to deposit with the United States Trust Company of New York City, in trust, three thousand six hundred and ninety-six of the Consolidated Mortgage bonds, which can only be used in payment of the bonds of the prior mortgages, and for no other purpose whatever.

This duty has been performed by the Trustees, and the mortgage indebtedness of the company cannot, therefore, exceed one and one half million dollars.

EXPENDITURES.

The date of the first and previous sale of Consolidated Mortgage bonds to Messrs. Drexel, Morgan & Co. was June 10th, 1874, and the terms of the sale gave those gentlemen the option of purchasing on or before July 1st, 1875, one and one half millions additional of the same bonds at the price of ninety per cent., with accrued interest. This option was duly declared, and the additional one and one-half million of bonds taken by Messrs. Drexel, Morgan & Co., previous to 1st July last, yielded to the company $1,350,000.

The details of the present bonded debt, and of the amount of bonds currently cancelled, appear in the annexed exhibits of the Auditor.

During the year, under contract obligations, there has been advanced to the Indianapolis and St. Louis R. R. the sum of.....	$235,432 00
And to the Cincinnati and Springfield Railway the sum of.....	$167,553 58
On account of construction work there has been expended.....	$188,794 63
And in the redemption of sundry notes given for the purchase of Central Tract in the City of Cleveland....	$203,185 94

These with other items of expense, including cost of completion of the Union Depot at Columbus, appearing in full in the Auditor's report, constitute a total expenditure of $836,366 15; for all of which due preparation had been made in the disposal of the Consolidated Mortgage bonds, under the well considered plan attending their issue.

The outlook of the affairs of the Indianapolis and St. Louis Line, which, in its reconstruction and operating, has been uniformly attended with varying loss, is at the present time most encouraging. That road with its equipment, is now in good order, and, under a consolidated working arrangement with the Terre Haute and Indianapolis Railroad, which has been recently agreed upon between the respective companies, satisfactory financial results in the joint operation of the lines may be reasonably expected.

The Indianapolis and St. Louis road, as well as the Cincinnati and Springfield Railway, has suffered in revenue from the feverish condition of business, and from unremunerative traffic rates. In respect of the Cincinnati and Springfield Railway it is remarked that of its capital stock of one million one hundred thousand dollars, this company is the owner of five hundred and fifty-nine thousand eight hundred dollars.

Early in the year it was thought desirable to sell the stock of the Empire Transportation Company, heretofore held by this company, at the same time modifying the contract of said Transportation Company in connection with this railway. The profit realized from this stock appears in the Auditor's exhibit.

The absolute gift to this company of one hundred acres of valuable land, including additional and most important right of way, at and near Brightwood, Indiana, near Indianapolis, upon the sole condition of the erection of certain machine and car shops thereon, has been utilized the past year, as appears by the accompanying report of the Chief Engineer. Not only is the company amply accommodated for all time in its shop facilities for the Indianapolis Division of its railway, by this most desirable acquisition, but at once there has been removed any and all difficulty

with the municipal authority of the city of Indianapolis, consequent upon the otherwise necessary rebuilding of the old and inferior shop buildings upon what has now become a part of the business centre of that city, thus leaving to the company by this arrangement a very valuable tract of city property for rental or disposal.

The local freight tonnage of the line, notwithstanding the generally unsettled condition of business, has been more than maintained. There has been a satisfactory increase in the coal freights, and the movement of stone and iron has exceeded the tonnage of any previous year.

Coupled with the promise for the future of the railway, in the continued increase of its local traffic, and the reasonable hope of the maintenance of remunerative rates upon all business as compared with the results of the previous year, it is a further source of strength that there has come in the administration of your railway, and to its counsels, in the protection and advancement of its interests, the fullest measure of harmony and accord.

Occasion is taken to recognize the cheerfulness and good feeling which has characterized the officers and employes generally, whilst co-operating in the reduction of expenses.

In all respects, the road with its equipment, has been fully maintained.

The number of locomotives in service at the close of the year was 133; of these 128 were coal burners, and 5 wood burners.

The mileage for the year was: passenger service, 925,296 miles; freight service, 3,069,118 miles; construction, fuel and repairs, 164,115 miles—total, 4,158,591 miles, a decrease of 54,397 miles.

The passenger and freight equipment in service at the close of the year was as follows: 36 passenger, 8 smoking, 8 sleeping, 2 parlor, 1 directors' and 1 paymaster's coaches, and 16 baggage and express, 1 mail, 3 U. S. postal, 1906 box, 241 stock, 570 flat, 577 coal, 59 caboose, 5 derrick wrecking, and 2 relief tool cars.

The equipment for the Cincinnati and Springfield line was as follows: 16 locomotives, 15 passenger coaches, 6 baggage and express, 2 U. S. postal, 100 stock, 100 coal, 70 freight box, 30 White Line box, and 8 caboose cars.

The total number of passengers carried was 780,470; of whom 722,467 were way, and 58,003 through. Number of passengers carried one mile, 30,497,320. Average rate per passenger per mile, 2 541 cents, against 2.716 cents in 1874, and 3.009 cents in 1873.

The total number of tons of freight carried was 1,611,174; of which 956,948 tons were through, and 654,226 way. Of the through freight, 747,473 tons were carried eastward and 209,475 westward. Of the way freight, 401,428 tons were carried eastward, and 252,798 westward. Total eastward bound, 1,148,901; do. westward do. 462,273. Number of tons carried one mile, 263,311,981. Average rate per ton per mile, 1.005 cents, against 1.192 cents in 1874, and 1.362 cents in 1873.

The renewals of track for the year embrace the following: 3,548.47 gross tons Bessemer steel rail, 2,545.13 gross tons re-rolled iron rail, 222,000 lbs. railroad spike, 257,408 iron joint splices, 112,557 lbs. track bolts and nuts, 10,650 repaired rails, and 29,032 cubic yards ballast. 64½ miles of track were re-laid during the year—37½ miles with Bessemer steel rails, and 27 miles with re-rolled iron rails.

This amount of rail, though less, considerably, than the average laid for the last few years, leaves the track, at the close of the year, in fully as good condition as respects the rail, as any time heretofore. There were thoroughly ballasted about 25 miles of track, and some 10 or 12 miles more partially so, and 140,308 cross-ties were renewed.

There is now laid in the track 237 miles of Bessemer steel rail, and there are remaining in main and double tracks, 172 miles of iron rail. This amount of steel rail has been put in within the last seven years, and the amount taken out on account of failures, from all causes, in the whole seven years, is a trifle less than 1¼ per cent.

Notwithstanding the considerable reduction of expense in this item of track, as compared with the previous year, the track has not been allowed to deteriorate, but is fully equal to its best in any former year.

ABSTRACT OF LEDGER BALANCES, Dec. 31, 1875.

ASSETS.

Construction		$17,578,381 37
Materials on hand:		
For repairs of track	$140,104 20	
For repairs of cars and engines	195,499 26	
For fuel and oil and waste	57,718 51	
		393,321 97

Steel Rails.

In the last annual report of the Lehigh Valley Railroad Company reference is made to the steel rails used on its track as follows:

Our steel rails are wearing well generally, although a number have broken. We have in use on main line between Wilkes-Barre and Easton, and in Beaver Meadow and Hazleton branches, 128 21 miles of track laid with steel. During the past year we have had 171 rails broken in track from various causes. The breakage of different makers varies widely, the highest being 33 rails in 5.16 miles of track; the lowest, one rail in 23 05 miles of track. I think 58 lbs. per yard rather light for our heavy track, and would recommend the substitution of 66-lb. rail, similar in section to that laid on the Easton and Amboy Railroad. The rails now in use could be used in the light car track, which is now laid with iron. We would get a very much better track, and, in my opinion, save the interest on additional cost of rails by lessening the expense of keeping up the track.

None of the steel rails in use have absolutely worn out, but those laid at Weatherly in 1864, and in curve at Mauch Chunk depot in the year following, have become so worn as to be unsafe in main track, and will be replaced.

Some idea of the relative service of iron and steel rails may be gleaned from the following statement: In September, 1867, new iron rails were laid on Parkerton scales. They had to be renewed in a little over a year, after having passed a tonnage of 2,268,675 tons; the second set of iron were renewed after a passage of 1,524,870 tons. Steel rails were then laid about the first of June, 1869, and remained until new scale was put in in June, 1872, when the same rails were laid in the track just above the scale, but where all coal going on the scale would pass over them. Our agent reports a tonnage of 24,298,568 tons over them, and that the rails are perfectly good at this time.

Railways in Portugal.

At the first sitting of the Portuguese Chambers the House of Peers approved the project of law voted during the Legislative Session of 1875 by the Chamber of Deputies for the construction of lines of railway at Beira Alta, Beira Baixa, and the Algarve. The first is international, and will be the shortest route between Lisbon and Central Europe; the second connects the Spanish railways; the third unites the Province of Algarve with the Portuguese railways, and will therefore be in communication with Spain so soon as the lines of the neighboring State reach the Guadiana, where the Alemtejo line already awaits a junction with them. In the Northern Provinces a railway is being made to Valencia, which will join the Galician lines and the Douro line (Tras-os Montes), which will link the wine-producing region of Oporto with the city whence this production is shipped. Of these two lines, the first has a branch to Braga, which has been opened for traffic since May 1875, and another branch to Guimaraes, which is being constructed.

The Issue of Silver Coin in place of Fractional Currency.

The Secretary of the Treasury has issued the following circular instructions concerning the issue of silver coin of the United States in place of fractional currency:

TREASURY DEPARTMENT,
WASHINGTON, D. C. April 18, 1876.

By virtue of the authority vested in the Secretary of the Treasury by the second section of an act entitled, "An Act to provide for a Deficiency in the Printing and Engraving Bureau of the Treasury Department and for the issue of Silver Coin of the United States in Place of Fractional Currency," approved April 17, 1876, the several officers below named are hereby authorized, upon the presentation at their respective offices for redemption of the fractional currency of the United States in sums of $5 or multiples thereof, assorted by denominations, and in amounts not to exceed $100, to issue therefor a like amount of the silver coin of the United States of the denominations of ten, twenty, twenty-five and fifty cents; and furthermore, upon the presentation for redemption at the office of the Secretary of the Treasury of the United States in this city of any amount of of such currency properly assorted, and in sums of not less than $5, the Treasurer is authorized to issue silver coin therefor to the amount of the currency presented, or he may issue his check therefor, payable in silver at either of the offices hereinafter named, at the option of the party presenting the currency, as far as may be practicable from time to time. Fractional currency redeemed in silver under these instructions, by any of the Assistant Treasurers or any designated depositaries of the United States, will be sent in sums of $1,000 or multiples thereof to the Treasurer of the United States in this city, the amount to be charged in the Treasurer's general coin account as a transfer of funds, and any amount of such currency for which silver has been paid remaining at any time in the care of the several offices will be treated as coin assets, and in no case will such fractional currency be reissued.

Fractional currency sent by express or otherwise to the officers below named, for redemption in silver, under the provisions of this circular should be accompanied by a letter of advice, stating fully the address of the sender and how the remittance in payment therefor is desired, and, if by Treasurer's check, the office at which the check should be made payable. The government will not pay express charges on the silver issued or the fractional currency presented for redemption under the provisions of this circular. The officers herein referred to are as follows:—The Treasurer of the United States at Washington, D. C.; the Assistant Treasurer of the United States at Boston, Mass.; the Assistant Treasurer of the United States at New York city, N. Y.; the Assistant Treasurer of the United States at Philadelphia, Pa.; the Assistant Treasurer of the United States at St. Louis, Mo.; the Assistant Treasurer of the United States at Charleston, S. C.; the Assistant Treasurer of the United States at New Orleans, La.; the Assistant Treasurer of the United States at Cincinnati, Ohio; the Assistant Treasurer of the United States at Chicago, Ill.; the Assistant Treasurer of the United States at San Francisco, Cal.; the Assistant Treasurer of the United States at Baltimore, Md.; the United States Depository at Buffalo, N. Y.; the United States Depository at Pittsburg, Pa.

B. H. BRISTOW, Secretary.

Allegheny Valley Railroad.

At the annual meeting of the stockholders of this company held in Pittsburg, Penn., on the 11th inst., the following board of managers for the ensuing year was elected: John Scott, Pittsburg; Thomas A. Scott, Philadelphia; George B. Roberts, Philadelphia; Wm. M. Lyon, Pittsburg; D. A. Stewart, Pittsburg; S. M. Felton, Philadelphia; B. F. Jones, Pittsburg; Henry M. Phillips, Philadelphia; A. J. Cassatt, Philadelphia.

From the report which was presented we learn that the earnings of the road during the years ending December 31, 1874 and 1875, were as follows:

	1874.	1875.
From freight.....	$1,823,806 27	$1,895,207 20
" passengers ...	508.100 26	421,764 47
" express	14,040 36	17,750 59
" mail	11,280 35	25,292 71
" rents	5,565 12	4,885 54
" miscellaneous.	27,179 64	34,787 97
	$2,389,472 00	$2,399,638 48
Expenses, viz:		
Conducting transp...	$375,106 00	$342,807 66
Motive power...	365,725 62	315,031 18
Maintenance of cars.	133 672 23	126,927 67
Maintenance of way.	506,135 11	557,375 14
	$1,380,638 96	$1,342,141 65
General expenses ...	90,145 77	72,854 70
	$1,470,784 73	$1,414,996 35
Net earnings....	$918,687 27	$984,642 13

Showing an increase in earnings of $10,166 48, with a decrease in expenses of $55,788 38—making the increase in net earnings $65,954 86.

It will be seen that the freight earnings increased $71,900 93 over 1874, while the passenger earnings decreased $86,335 79. The report says: "This result is attributable in part to the low prices at which crude oil ruled during the year, which discouraged adventures in that line, but perhaps more largely to the fact that few persons had, during the past year, any surplus income, and traveling was a luxury that had to be dispensed with."

The earnings of the River Division (Pittsburg to Oil City) in 1875 were $1,868,193 55, the expenses $1,139,935 40, and the net earnings $728,258 15. In 1874 the earnings were $2,107,446 12, the expenses $1,285,686 37, and the net earnings $821,759 75, showing a decrease in earnings of $239,252 57, with a decrease in expenses of $145,750 97—making the decrease in net earnings $93,501 60. The decrease in earnings of this division is attributable "to the diversion from it to the low grade division of the crude oil trade" as far as the freight is concerned, while the passenger decrease ($109,641 89 included in the above) is attributed to the cause given already.

The earnings of the Low Grade Division (Red Bank to Driftwood) were $510,473 65, the expenses $263,286 87, and the net earnings $247,186 78. In 1874 the earnings were $277,242 92, the expenses $177,065 18, and the net earnings $100 177 74—showing an increase in earnings of $233,230 73, with an increase in expenses of $86,221 69—making the increase in net earnings $147,009 01. This increase is largely owing to the fact that this division was only in operation for eight months in 1874, against twelve months in 1875. Also, to the development of the coal traffic along the line. Valuable iron ore deposits along this line are alluded to in the report, as well as the possible future of this traffic.

The earnings of the Sligo Branch (10 miles) were $20,971 28, the expenses $11,774 08, and the net earnings $9,197 20. In 1874 the earnings were $4,782 96, and the expenses $8,033 18, a deficit of $3,250 22—showing an increase in earnings of $16,188 82, with an increase in expenses of $3,740 90—an improvement of $5,946 98. This increase is attributed mainly to the existence of an oil pipe line terminating at Sligo.

During 1875, 53 miles of rails were laid on the River Division, at a cost of $145,439 34. Of these 2,093 tons were steel rails, costing $78,457 51; and it is intended to lay the entire River Division and the sharp curves of the Low Grade Division with steel rails.

The equipment consists of 74 locomotives, 31 passenger coaches, 10 baggage, 1 mail, 2,012 freight, 1 pay and 41 working cars.

The value of the entire line and equipment is placed at $23,837,683 79; and the available assets, including shops, materials, cash in hand, and balances due from agents and individuals, $460,703 57—a total of..... .... $24,298,387 36

Added to the above are:

Balance due from Oil Creek and Allegheny River R. R. (in bonds)	158,511 21
Claims in suit.....	408,532 43
Balance likely to be charged to construction.....	26,784 64
Cost of Buffalo, Corry and Pittsburg Railroad (43 miles).....	501,634 56
Cost of stock in Oil Creek and Allegheny River Railroad Company (41,000 shares).....	1,692,250 00
Cost of stock in Brady's Bend Bridge Company.....	80,000 00
Balance of income account (profit and loss).....	661,597 47
Total assets.....	$27,757,697 67

LIABILITIES.

Capital stock (433,300 shares).....	$2,166,500 00
Funded debt	17,382,000 00
Income bonds.....	5,403,900 00
Total capital and funded debt...	$24,952,400 00
Bonds and mortgages on real estate.....	136,443 97
Due railroad companies on current accounts.....	133,030 34
Accounts and bills payable.....	868,418 56
Amount of coupons advanced for by Pennsylvania Railroad.....	1,049,685 00
Interest accrued due January and April, 1876.....	441,579 28
Suspended debt.....	676,140 52
Total.....	$27,757,697 67

The total cost of road up to December 31, 1875, is given at $32,831,683 79.

The settlement of the suspended debt has been

made by most of the creditors on the terms of the composition in bankruptcy. The amount remaining unsettled with the close of 1875 being $676,140 52. Of this $111,895 22 is secured debt incurred for the purchase of the Buffalo, Corry and Pittsburgh Railroad. The income bonds issued to December 31st, 1875, on account of suspended debt and interest amount to $5,403,900. Contributions by the Pennsylvania Railroad, Philadelphia and Erie, and Northern Central companies to the payment of the deficit in this company's earnings, of the amount needed to pay interest on the income bonds, under the terms of the contract of October 2, 1874, amount to $99,681 89; interest on the income bonds held by individuals has been paid in cash as due, that to the railroads in bonds. The report then alludes to the Oil Creek and Allegheny River Railroad and the Buffalo, Corry and Pittsburgh Railroad, in which the Allegheny Valley Railroad owns controlling interests; it concludes by remarking that the present condition of the Allegheny Valley Railroad is better than for years before, and that its operations have been carried on without a serious accident during the year, not a single passenger having been killed or injured during 1875.

Cleveland, Tuscarawas Valley and Wheeling Railroad.

This road was formerly the Lake Shore and Tuscarawas Valley, but was sold under foreclosure of mortgage and reorganized under the present name early in 1875. The equipment consists of 15 engines, 8 passenger train cars, 20 box and 430 coal cars; and 100 more coal cars are under contract. There are also on the road 225 coal cars belonging to private parties.

The capital account is as follows:

Stock		$1,055,950
First mortgage bonds	$2,180,000	
Second mortgage bonds	988,921	
		3,168,921
Total		$4,224,871

The total amount of stock authorized is $1,250,000; second mortgage bonds, $1,250,000.

For the eleven months ending December 31, 1875, the earnings were as follows:

From freight	$329,475 30
" passengers	78,110 11
" mails and express	5,924 70
" miscellaneous	1,251 07
Total	$414,761 18
Working expenses (53 per cent)	219,841 07
Net earnings	$194,920 11
Interest on debt	155,112 48
Balance, net profit	$39,807 63

California and Oregon Railroad.

The Yreka (Cal.) Journal of April 5th says that there seems to be some prospect of the gap being soon closed by rail between Reading and Roseburg, opening a vast and rich country to easy communication with the great centers of trade and the principal seaports. The gap to be closed and now traveled by stages is 350 miles in extent, and is all that prevents an immense country on either side of the route from being developed and made a rich and prosperous domain. The agent of the German bondholders will thoroughly reorganize the Oregon branch, and endeavor to make some compromise with the Central Pacific towards completing the road, from the fact that unless through communication is made by rail from Sacramento to Portland neither branch will be paying enterprises. The Central Pacific Company is supposed to be ready to go ahead any time, whenever the Oregon branch guarantees to do the same towards forming a junction at the California and Oregon boundary.

Homestead and Pre-emption Entries within Land Grant Limits.

The following is the full text of the bill recently passed by Congress relative to homestead and pre-emption entries within land grant limits. It does not confirm, but on the contrary entirely reverses the ruling of Secretary Delano, that railroad grants can take effect prior to the reception at the local land offices of notice of withdrawal:

Be it enacted, &c., That all pre-emption and homestead entries, or entries in compliance with any law of the United States of the public land made in good faith by actual settlers upon tracts of land, if not more than 160 acres each, within the limits of any land grant prior to the time when notice of withdrawal of lands embraced in such grant was received at the local land office of the district in which such lands are situated, or after their restoration to market by order of the general land officer, and where the pre-emption and homestead laws have been complied with, and proper proofs thereof have been made by the parties holding such tracts or parcels, they shall be confirmed and patents for same shall issue to the parties entitled thereto.

Section 2. That when at the time of such withdrawal as aforesaid valid pre-emption or homestead claims existed upon any lands within the limits of any such grants, which afterward were abandoned, and under the decisions and rulings of the Land Department were re-entered by pre-emption or homestead claimants who have complied with the laws governing pre-emption or homestead entries, and shall make the proper proofs required under such laws, such entries shall be deemed valid, and patents shall issue therefor to the person entitled thereto.

Section 3. That all such pre-emption and homestead entries which may have been made by permission of the land department or in pursuance of the rules and instructions thereof within the limits of any land grant at a time subsequent to the expiration of such grant, shall be deemed valid, and a compliance with the laws and the making of the proof required shall entitle the holder of such claim to a patent therefor.

A New Steam Dummy.

A trial test was recently had on the Haddington Branch of the West Philadelphia Passenger Railway of a steam dummy made by the Atlantic works of Boston, and the invention of James P. Woodbury. The peculiarity of this dummy consists in the comparative isolation of the engine from the body of the car. The car body rests upon two trucks of four wheels each, which are swivelled so that a sharp curve can be turned as readily as by a small car. The engine and boiler rest upon the forward trucks and not upon the car body, and turn with the truck; the bearings of the driving crank are not the same as those of the wheels, but the crank shaft is entirely independent of them. The two cylinders are 7 inches in diameter and 12 inches stroke. The car, which was constructed for use on a steam road, and which would probably be modified for use upon the streets, is 30 feet long, and 8 feet wide, and seats 35 passengers.

The route selected had several very heavy grades, one on Sixty-fifth street, between Vine and Haverford road, being over 300 feet to the mile. The engine backed its load up this hill at a speed of ten miles an hour, and afterwards made frequent stoppages in ascending the same grade. On other portions of the route a rate of speed equal to twenty miles an hour was easily attained. Consuming anthracite coal, there was no smoke, and the noise of escaping steam is obviated by passing the exhaust steam through a receiving tank, which muffles its sound. The dummy can be stopped within its length, when going at a speed much greater than would be necessary. The cost of running it would be much less than doing the same work by horses.

The Silver Bill.

The Bill to provide for the Deficiency in the Printing Bureau of the Treasury Department, and for the issue of Silver Coin of the United States in Redemption of Fractional Currency, having passed both Houses of Congress and received the signature of the President, is now a law. The silver coin provided for under this act will be a legal tender to the extent of five dollars, as is the case with other silver. The bill reads as follows:

Be it enacted, etc., That there be and hereby is appropriated out of any money in the treasury not otherwise appropriated the sum of $163,000, to provide for engraving and printing and other expenses of making and issuing United States notes, and the further sum of $48,000 to provide for engraving and printing national bank notes, to be disbursed under the Secretary of the Treasury.

Sec. 2. That the Secretary of the Treasury is hereby directed to issue silver coins of the United States, of the denomination of ten, twenty, twenty-five, and fifty cents, of standard value, in redemption of an equal amount of fractional currency, whether the same be now in the treasury awaiting redemption, or whenever it may be presented for redemption, and the Secretary of the Treasury may, under regulations of the Treasury Department, provide for such redemption and issue by substitution at the regular sub-treasuries and public depositories of the United States, until the whole amount of fractional currency outstanding shall be redeemed, and the fractional currency redeemed under this act shall be held to be a part of the sinking fund provided for by the existing law, the interest to be computed thereon as in the case of bonds redeemed under the acts relating to the sinking fund.

Chicago and Alton Railroad.

At the recent election in Chicago for three directors to serve for three years from the first Monday in April, 1876, John Crerar, John J. Mitchell, and Lorenzo Blackstone, whose term of service had expired, were re-elected.

C. D. Hayes, L. A. Weston, N. W. Green, Josiah Sawyer, T. B. Blackstone, John Crerar, and George Strout, were elected directors of the St. Louis, Jacksonville and Chicago Branch.

John Crerar, T. B. Blackstone, John B. Drake, J. McGregor Adams, and D. Willis James were chosen directors of the Joliet and Chicago Branch.

T. B. Blackstone, John J. Mitchell, John B. Drake, George Strout, and H. V. P. Block were elected directors of the Mississippi River Bridge Company.

At a subsequent meeting of the directors of the of the various lines, all the old officers were re-elected.

☞ At a meeting of the stockholders of the James River and Kanawha Canal Company, held in Richmond on the 12th inst., it was determined to subscribe $400,000 to the stock of the railroad that will connect Buchanan with Clifton Forge. Propositions were also made to the city of Richmond for assistance in building the proposed railroad.

RAILROAD AND CANAL DIVIDEND STATEMENT.

Showing the amount of Stock Outstanding, the Dividend Periods and the date of last Dividend.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, April 22, 1876.

Financial and Commercial Affairs.

Money has been in ample supply for all legitimate purposes during the week, and responsible borrowers have experienced little difficulty in making prompt provision for their wants on comparatively easy terms, call loans having been quoted at 3@4 per cent as the rule, and best mercantile credits at 4½@6 per cent per annum. The Gold and Stock board dealings have been moderately active, and the resulting inquiry for financial aid has been fair, but not remarkably urgent. The demand for accommodation in the discount line has been an average one, and met quite readily at the current figures. The last City bank statement was more favorable to the borrowing interests. The legal tender and national bank currency reserves have been augmented, and the tendency in this connection is toward a further increase. The loans and deposits were cut down considerably, and the specie average fell off nearly a million dollars. The U. S. Sub Treasury enlarged both its coin and currency balances. National Bank notes received at the Treasury Department last week for redemption were to the amount of $3,429,000. The City Banks have had their deposits reduced $2,450,800; and their legal tender reserve increased $136,400. The specie average has been diminished $986,000. The loan and discount item was reduced $3,488,800. The circulation was cut down $58,500. The U. S. Sub Treasury in this city closed the week with a currency balance of $86,681,277 against $85,517,844 the preceding week; and a coin board of $46,811,859 against $45,778,879 on the previous return. The City bank exchanges in currency

reached $337,786,823, or a daily average of $56,-297,804. The customs revenue of the port during the week was $2,050,000. The City banks reported their average of gold last week at $19,-400,800, and their greenback average at $38,836,-800. Their deposits stood at $205,542,5[illegible]0. The loan item was $258,297,900. The circulation was $16,239,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $6,851,-975, as against $7,038,875, the preceding week.

The aggregate of the outstanding U. S. currency, of all denominations, April 1st was $413,877,104. The outstanding amount of legal tender notes is $370,755,248. The National bank circulation is now $338,409,683, including $2,099,190 of national gold bank notes.

On Tuesday of this week the cash balances of the Treasury Department at Washington were: of Currency $5,426,789; special deposit of legal tenders for the redemption of certificates of deposit, $36,235,000; Coin, $75,790,948; Coin certificates, $29,918,400.

The week's import entries of Foreign Merchandise at New York were $5,063,422, including $1,659,593 of Dry Goods.

The income of the Government from internal revenues in the current fiscal year, commencing with July 1, 1875, has been about 90 millions; and from Customs, 122½ millions.

The specie exports from San Francisco Jan. 1. to March 31, were $16,540,044.

Gold has been quoted steadier as to price, on a moderately active speculative movement. The customs drain was rather more extensive, while the specie exports were on a restricted scale. The extremes of the price during the week have been 112⅞,@113¼ closing on Wednesday at 113¼ as against 113⅛, on Wednesday of the preceding week. The specie outflow last week was $853,-320 against $979,906 the previous week. The imports of specie at this port last week were $22,-259, and since January 1st $1,469,907 as against $5,271,227 same time last year. The customs demand for gold last week averaged $341,667 per day. Foreign Exchange has been in moderate supply and demand, closing steady. Bankers sixty day bills on London closed on Wednesday at $4 86½@$4 87; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $5,069,395. The week's imports of Dry Goods and general merchandise were to the specie value of $5,063,422 as against $6,117,-177 the corresponding week of 1875.

Government Securities have been in fair demand, on investment account, but have been quoted rather easier in price, in the instance of gold-bearing issues. The amount of U. S. bonds held by the Treasurer of the United States, as security for the National Bank circulation, is $351,508,450.

U. S sixes of 1881 closed on Wednesday of this week at 121¾@122; U. S. Five-Twenties of 1865, 117⅝@117⅞; U. S. Five-Twenties of 1865, consolidated, 118½@118¾; U. S. Five-Twenties of 1867, 120⅜@120⅝; U. S. Five-Twenties of 1868, 122@122½; U. S. Ten-Forties at 117⅞@118⅛; U. S. Fives of 1881, (Funding Loan) 117¾@118; Six per cent. currency Sixes, 126¼@126⅝.

State and Railway bonds have been rather more freely sought after by investment buyers at generally steady prices. And in the line of Railway and Miscellaneous share property a somewhat livelier movement has been reported at variable prices, closing with more firmness.

General business has been moderately active in the line of domestic produce, but, as a rule, less satisfactory in the line of foreign merchandise. Prices have fluctuated considerably, but the later transactions in the leading articles indicated more steadiness. The Metal trade was comparatively slow. Eglinton Pig Iron quoted here at $28 50@$29; Glengarnock $31; Coltness $32; No. 1 American Pig at $22@$23; No. 2 do. at $20@$21; Forge, $17@20; American Rails at works, $42@$45; Old Rails $22@$25. Wrought Scrap, $30@$31. Ocean freights have been somewhat brisker but quoted lower. Room mainly sought after for the Grain, Provision, and Petroleum interests.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—New Jersey Southern R. R., 1¼; do. 1st mort., 27; Iowa Midland 8s, 1st mort., 97; Cedar Falls and Minnesota 1st mort., 86½; Buffalo, New York and Erie 1st mort., 93; Boston, Hartford and Erie 7s, guar., 26; Chesapeake and Ohio 1st mort., coupon on, 32; Hannibal and Naples 1st mort., 35; Delaware and Hudson Canal reg. 7s, 1877, 105; Canada Southern 1st mort., coupon on, 65; Albany and Susq. 3d mort., 102¼; Dubuque and Sioux City R. R., 29½@30; George's Creek Coal, 140@145; Atlantic Coal, 2.05@2.10; Canton Co., 37@45.

Railroad Legislation in Kansas.

The railroad committee of the lower house of the Legislature of Kansas has reported against bills designed to regulate the rates of carrying freight and passengers on the railroads of that State. The committee sums up its conclusions thus:

"That any attempt to fix by law arbitrary rates for the transportation of freights would result in no appreciable good, and only injury to the commercial and business intererts of the State. The fixing of arbitrary rates and their enforcement by law would in effect be to prevent the removal of the wheat, corn and cattle of Kansas to the markets in the East—the freight rates increasing by distance from the Missouri river and the eastern border of the State, so as to greatly increase the costs of transportation above what our products can pay. The effect of the proposed legislation would be such that it would greatly cripple and embarrass the railroads now operating in this State, and defeat the building of new and needed lines that are so necessary in the newer portions of the State, where the demand for them is so great, and their building almost an absolute necessity."

New Uses for Slag.

A new French process for the treatment of slag reduces it to a fine state of division, in which it becomes capable of a great variety of uses. The channel through which the molten slag flows from the furnace is made to terminate in a running stream of water leading into a pit. On striking the water the lava stream of slag is blown and broken into a fine porous gravel, which is carried by the water into the pit. The iron grains sink to the bottom by their weight, leaving nothing but the gravel or sand to be carried to the pit. The slag sand thus gathered is found to make an excellent casting sand, and to be better than common sand for sanding the moulds for fine castings. It is also used for making a concrete like mortar, and for ballasting railroad tracks. A large manufactory has been built at one of the leading German works for preparing a cement from slag at very low cost.

☞ At an informal meeting of the stockholders of the Toledo, Wabash and Western Railway Company, held on the 13th inst., the following gentlemen were appointed a committee to aid the Protective Committee in procuring a full representation of the stock at the special meeting to be held at Toledo on the 31st of May next, viz: W. J. Syms, John S. Tappan, W. R. Hunter, W. B. Cragin, P. Natman, Charles Dana, W. B. Scott, Robert N. Tappan, Charles Kneeland, J. R. Powell.

☞ Capt. A. W. Eichelberger, of Hanover, York Co., Penn., has been elected President, A. W. Storm Secretary, and Jacob Resser Treasurer, of the Berlin Branch Railroad Company. The directors are: A. W. Eichelberger, William Grumbine, Jos. Dellone, Peter Flickinger, Stephen Keefer, Robert M. Wirt, Hanover; Samuel Meisenhelter, Jacob Resser, A. W. Storm, East Berlin; and William Bittinger, Abbottstown. The road is to be located and put under contract immediately.

☞ The Gilman, Clinton and Springfield Railroad has been ordered to be sold at Springfield, Ills., on the 8th of June, under decree of foreclosure granted by Judge Treat in the U. S. Court, at the suit of Morton, Bliss & Co., of this city.

☞ Henry Ketchum has been elected President, D. M. Kelly Vice President and General Manager, W. J. Abrams Secretary, W. R. Hancock Treasurer, and S. B. Kendrick Superintendent of the Green Bay and Minnesota R. R. Co.

☞ J. J. Usher has been elected President, O. E. Larnard Vice President, John V. A. Norton Secretary, and John K. Parker Treasurer of the St. Louis, Lawrence and Western Railroad Co.

☞ Navigation on the Delaware and Hudson Canal was opened on the 17th inst.

TIME LOANS NEGOTIATED.

Refers by permission to Messrs. M. K. Jesup, Paton & Co., New York; Messrs. Soutter & Co., New York; Jon. S. Norris, Esq., President First National Bank, Baltimore; Robert Mickle, Esq., Cashier Union National Bank, Baltimore.

Wharton Railroad Switch.

This valuable improvement by which the safety of railroad travel is greatly increased, is steadily growing in favor with railroad companies. This is evidenced by the fact that the company have not only been kept busy filling orders during the past depression in railroad business, but have recently been obliged to make an addition to their works in order to keep up with the demand upon them.

☞ The Stockton (Cal.) Independent says that the Galt and Ione Railroad has a prospect of completion to Ione City by the 1st of July. Ten miles of grading has been finished, and a number of ties have been delivered at Galt, but no iron has as yet been furnished and consequently no track has been laid.

☞ Mr. C. P. Huntington, president of the Southern Pacific Railroad Co., has concluded a contract with the Tredegar Company, Richmond, Va., for the necessary rail and trimmings for one hundred and twenty five miles of that road.

☞ The Columbia (Penn.) and Port Deposit (Md.) Railroad was opened for travel and freight as far as Pequea Station, 14 miles from Columbia, on the 10th inst.

☞ The railroad from Duluth to Bismarck, on the Missouri river was completed recently and is now in running order.

☞ John H. Sullivan has been appointed Superintendent of the Missouri and Sedalia Division of the Missouri, Kansas and Texas Railway.

☞ The St. Croix (N. B.) Courier says that work on the Grand Southern Railroad will be begun by the 1st of May.

☞ The Welland Canal was opened on Monday, the 17th instant.

Steel-Headed Rails.

Iron manufacturers will be interested in the results of some experiments recently made at the Wyandotte Rolling Mills, near Detroit. Railroad rails were made of iron base and Bessemer steel-head, so successfully welded that the most trying tests failed to show even the points of the juncture of the two metals. The same experiments showed the welded rail to be even better than the solid steel. Each was submitted to sixty blows by a twenty-ton hammer. The Bessemer rail was completely shattered, cracked through and through in every direction; the welded rail, though mashed down and twisted in the neck showed no sign of a fracture in any part. The Detroit Post, from which the above is copied, says this hitherto difficult if not impracticable feat, was accomplished by a peculiar metalloid sponge or flux in the following manner:

The pile is made up as for the ordinary iron rail—for the head scraps of steel, hitherto not utilized at all, are spread of the desired thickness, and upon this is laid a plate of steel. The flux, in the shape of a hard substance about the size of a kernel of corn, is scattered through and over the pile, which is then placed in the oven; when properly heated, it is drawn and rolled in the ordinary manner. It is found to be a perfectly homogeneous mass; the fibrous iron and the crystalline steel have their particles so interwoven, that it is a physical impossibility to separate one from the other. Freaking or twisting does not produce a separation at the point of the juncture. The wonderful work of uniting iron and steel, so mechanically different, in one homogeneous mass is accomplished by the peculiar flux, composed of 55 parts iron, 20 parts silicon and 25 parts aluminum. The chemical action of these substances is explained to be as follows: The silicon takes up the alkaline matter, while the aluminum eliminates the free oxygen, phosphorus and sulphur, thus making a uniform, consistent, close-grained metal.

Proposed Narrow Gauge Railroad from Boston to Newton.

A number of persons interested in the project of a narrow gauge railroad to Newton to accommodate passenger traffic between Boston and that suburban city, held a meeting at the Board of Trade rooms, Boston, on the 11th inst., W. C. Strong presiding. That gentleman, in addressing the assemblage, said that while the project was advocated by persons owning property in the outlying highways it was one which deeply concerned Boston. At present the city was limited to one road, the Boston and Albany, in getting to the country westward, and that road was inadequate to the needs of the time. Its trains are expensive ones and no more can be run, and the horse cars are too slow for business men. He believed that it was opportune to now build a cheaply operated road, such as is suggested, which should follow the Cambridge bank of the Charles river down to the city, across to Boston, and find a terminal on Charles street, near Beacon. Eventually this road could tunnel under Beacon Hill and have its depot on Tremont street. It was not only desirable and feasible, but would not be expensive.

Remarks were made by several, and finally it was voted expedient to construct a three feet gauge road from Cottage Farm to Chestnut street, Newton, within the present year, and in the meantime to obtain plans for the best independent entrance in Boston.

Wm. C. Strong, E. F. Waters, Francis Hunnewell, E. B. Lancaster and Edward Rice were requested to decide on a location for the road, and employ an engineer to ascertain an estimated cost of the same, and report on or before the first of May.

A committee of five was also appointed to procure estimates for the entire length of road, equipment, etc., and also take preliminary steps for an organization.

The Five per cent Funded Loan of 1881.

TREASURY DEPARTMENT,
WASHINGTON, D. C. April 17, 1876.

Under the provisions of an act of Congress approved April 11, 1876, to enable the Secretary of the Treasury to pay the judgments of the Commissioners of Alabama Claims, notice is hereby given that sealed proposals will be received at the Treasury Department until 12 o'clock noon on the 24th inst., and opened immediately thereafter for the sale of five per cent. coupon or registered bonds of the funded loan of 1881, authorized by the acts of July 14, 1870, and Jan. 20, 1871, bearing interest payable quarterly from May 1, 1876, in lots of not less than one half million dollars to the total amount, $5,883,000. These bonds will be sold for gold, and payment therefor must be made within three days after the acceptance by the department of the bid. Each bid must be accompanied by a gold deposit of two per cent. of the amount thereof, and no bid at less than par in coin will be considered. Payment may be made at the office of the Assistant Treasurer of the United States in New York, and the bonds will be delivered at the Treasury in Washington, or, if preferred at the office of the Assistant Treasurer in New York at the expense of the purchaser.

The department reserves the right to reject proposals that are not deemed advantageous to the Government. Proposals should be marked "sealed proposals for loan," and addressed to the Secretary of the Treasury, Washington, D. C.

B. H. BRISTOW, Secretary.

☞ The largest armor plate ever made was produced at the Cyclops Works of Messrs. Charles Cammell & Co., in Sheffield, England, on the 15th ult. The thickest made previously was fourteen inches, but the plate made on the 15th was twenty-two inches thick. It is one of several intended for two war vessels, now constructing for the Italian Government. The plate, which weighs thirty-five tons, will be tested by a 100 ton gun. Each vessel will have two turrets, and each turret two guns. The plate was very successfully rolled.

☞ The exports of domestic produce from Philadelphia during March, 1876, amounted to $3,672,363, an increase of one third compared with the exports of March, 1875. For the three months ending March 31, 1876, they were $10,557,644, against $5,652,949 for the first three months of 1875, an increase of $4,904,695. The port has thus nearly doubled its exports as compared with the same period of last year, the aggregate of ten and a half millions being far above any preceding one of the same period.

☞ The United States Supreme Court has reversed the decision of the lower courts in the Illinois railroad cases and holds that the railroad's remedy for alleged excessive or illegal taxation is not by injunction, but only by suits at law after paying the taxes.

☞ The officers of the Wisconsin and Lake Superior Railway Company, recently elected, are: President, O. Beach; Vice President, G. W. Washbourn; Treasurer, G. W. Roe; Secretary, T. S. Allen.

Railroad Earnings.

The earnings of the Canada Southern Railroad for the first week in April, 1876, were $38,276 57, against $25,394 14 for the first week in April, 1875, an increase of $12,882 43.

The earnings of the Missouri, Kansas and Texas Railroad for the first week in April, 1876, were $45,924 32, against $54,546 16 for the first week in April, 1875, a decrease of $8,621 84.

The earnings of the Michigan Central Railroad for the first week in April, 1876, were $135,099 27, against $131,002 99 for the first week in April, 1875, an increase of $4,096 28.

The earnings of the Pacific Railroad of Missouri for the first week in April, 1876, were $62,608, against $63,367 for the first week in April, 1875, a decrease of $759. From January 1, to April 1, 1876, the earnings were $900,223, against $697,609 for the first three months of 1875, an increase of $202,614.

The earnings of the St. Louis, Kansas City and Northern Railroad for the first two weeks in April, 1876, were $115,275, against $114,796 for the first two weeks in April, 1875, an increase of $479.

The earnings of the Chicago, Milwaukee and St. Paul Railway for the second week in April, 1876, were $135,000, against $132,688 for the second week in April, 1875, an increase of $2,312. For the two weeks ending April 14, 1876, the earnings were $292,200, against $282,680 for the first two weeks in April, 1875, an increase of $9,520. From January 1, to April 14, 1876, the earnings were $1,904,501, against $1,574,820 for the corresponding period of the previous year, an increase of $329,681.

☞ The New Bedford Railroad Company have appointed a committee to confer with a committee to be appointed by the Boston, Clinton and Fitchburg Railroad Company upon the subject of a permanent consolidation of the two roads. They are expected to agree upon a plan of consolidation to be reported to the directors and stockholders of the respective roads for their approval. When the union is perfected the consolidated company will control 127 miles of railroad, costing an average of $42,000 a mile, and the gross yearly earnings of which are between $8,000 and $9,000 a mile.

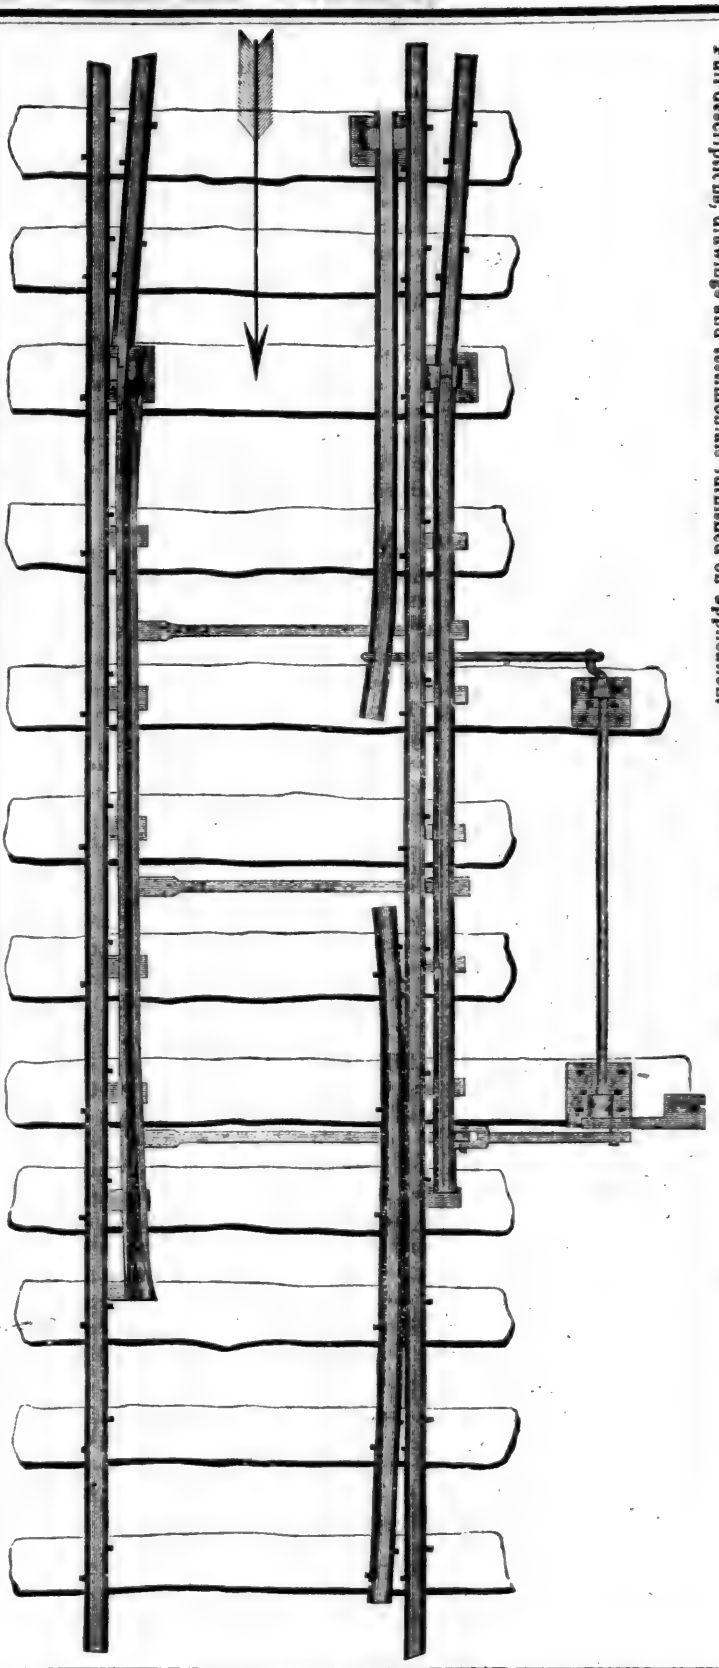
☞ It is stated that the work of laying the double track on the Pittsburg division of the Baltimore and Ohio Railroad will be commenced as soon as the season fairly opens. A very considerable amount of the grading has already been done, and in some places the sidings have been extended for long distances. The work will, accordingly, consist merely of putting on the superstructure, and it will be pushed forward with all the speed possible. The present single line is now taxed to its full capacity.

☞ The location of the Puyallup (Oregon) Railroad having been completed from Tacoma to South Prairie, the engineer is now engaged in making preliminary surveys from the latter place to the Puyallup coal fields. The whole length of the road will be 25 miles.

☞ One hundred and seventy thousand dollars was paid on account of interest on the 3.65 District of Columbia bonds on the 18th inst.

Toledo, Wabash and Western Railway.

A meeting of the stockholders of the Toledo, Wabash and Western Railway Company is called to be held in Toledo, Ohio, on the 31st of May, for the purpose of considering the financial condition of the company, and to see if anything can be done to prevent the sale of the road under foreclosure. General J. D. Cox, receiver, has been appointed special master commissioner to sell the road, and gives notice that, under decrees of foreclosure of the consolidated mortgage, and orders of sale issued by the courts in Ohio, Indiana and Illinois, he will offer the road at public sale in Toledo, Ohio, June 10th. The sale will include the road and its branches extending from Toledo to Camp Point, Hamilton, Naples, and East St. Louis, Illinois, 601 miles in all, with the buildings, franchises, equipment, and all other property pertaining to it. The property will be sold as a unit and subject to all the liens prior to the consolidated mortgage and enumerated in the decree. The minimum price allowed is $1,000,000, payable in cash or in consolidated bonds, to be taken at their *pro rata* value, to be fixed by the court. The sale is to be without redemption, but subject to confirmation by the courts.



New York State Canals.

At a meeting of the Board of Canal Commissioners held in Albany on the 13th inst., it was resolved to open the canals of the State for navigation on Thursday, the 4th day of May next. This is an early opening, but the forwardness of the season and other controlling circumstances warrant it. The canals are reported to be in excellent condition. In fact, it may be said that they were never in better order, and unless some unforeseen disasters occur, the determination is to keep them so. It is practically settled that the toll sheet of 1875 will be continued for 1876, so that forwarders and boatmen can commence preparations for the Summer's business.

☞ At a meeting of the directors of the Valley (Va.) Railroad Company, held in Baltimore on the 14th inst., a resolution was adopted appointing a committee, consisting of Wm. Seemuller, Richard Norris, Jr., and M. G. Harmon, authorizing them to lease the road, and giving them full power to do so as soon as possible, and to report at a meeting of the directors, to be held on the 25th instant. A resolution was also adopted directing the president to ascertain what would be the cost of a proper equipment for the road, and also to ascertain upon what terms an equipment could be leased, and report at the next meeting of the directors.

☞ Mr. Wm. L. Bancroft, Receiver of the Chicago and Lake Huron Railroad, has been authorized by the court to purchase $150,000 worth of iron for the road, and 150,000 new cross ties for the repairing of the track on the Peninsular division, or that portion of the road between Lansing and Valparaiso, and to re-grade the whole line west of Lansing where the ties are being laid.

☞ Samuel Sloan has been elected President, R. S. Hayes Vice President, D. S. H. Smith Treasurer, Jacob S. Wetmore Assistant Treasurer, Ira H. Evans Secretary, and H. M. Hoxie General Superintendent of the International and Great Northern Railroad.

Safety railroad switches with the main track unbroken. Railroad crossings, frogs and other roadway supplies.

WHARTON RAILROAD SWITCH CO.---Office: 28 South Third St., Philadelphia.

Wharton's Patent Safety Railroad Switch.

MAIN TRACK UNBROKEN.

This switch is adopted by the Pennsylvania Railroad Company, Philadelphia, Wilmington and Baltimore Railroad Company, Chesapeake and Ohio Railroad Company, Central Pacific Railroad Company, New Haven and Northampton Railroad Company, Connecticut River Railroad Company, United Companies of New Jersey, New Orleans and Great Northern Railroad Company, Wilmington and Weldon Railroad Company, Boston, Hoosac Tunnel and Western Railroad, and other leading railroads.

Full description, drawings and testimonials furnished on application.

Add specie....	48,905,477	28,549,257
Total exports.....	$246,399,551	$224,543,846

Pierce Rotary Tubular Boiler.

This boiler, a test of which was recently made in this city, is 6 feet long and 4 in diameter, and has 18 four-inch tubes and 18 three and a half-inch tubes running lengthwise through it. It revolves over the fire on two trunnions, which turn on friction rollers. The water is injected through a pipe running through one trunnion, and the steam comes out through a similar pipe at the other trunnion. The boiler is kept revolving all the time and thus has all its surface continually presented to the fire. There are a series of iron buckets inside the boiler and half surrounding the tubes, which carry much of the water up as the revolutions progress and scatter it over the hot surface of the boiler. In this way the bolier, not withstanding its diminutive size, is made to produce sufficient steam to run a ninety-horse power engine. Of course but very little fuel is consumed.

Debt of Louisiana.

A despatch dated New Orleans, April 17th, says that the Supreme Court has decided the issue of $2,500,000 of State bonds to the Mobile and Chattanooga Railroad, under act No. 95 of 1871, to be invalid and unconstitutional on the grounds that the constitutional limit of the State debt had been reached when the bonds were issued, that the issue was fraudulent, and that the State received no consideration therefor. The despatch adds that this decision is in accordance with the general public sentiment.

The present condition of the State debt, according to a statement furnished by the Auditor, is as follows: new consolidated bonds, issued in place of the valid bonds exchanged, $9,035,387; valid outstanding bonds and warrants not yet funded, $4,710,000, which, if all funded in new consols at sixty cents on the dollar, will make the total State debt $11,861,387.

☞ The first passenger train over the Denver and Rio Grande Railway, from Pueblo to Elmor, reached that point on the 16th inst. It was a special, conveying ex-Gov. Burt, several Chicago business men, a number of gentlemen connected with Denver business houses, and representatives of the press. The run of eighty-eight miles was made in less than four hours, and all were delighted with the condition of the track, which, for a new one, was pronounced by all unsurpassed. The road is now open for passenger and freight traffic to all points in the Southwest.

☞ Wm. L. Bancroft, of Port Huron, Michigan, has been appointed Receiver of both divisions of the Chicago and Lake Huron Railroad. Work was to have been commenced on the 10th inst. on the gap between Lansing and Flint. When the connecting link is completed, a new through route via Battle Creek will be opened between Port Huron and Chicago.

☞ The $3,000,000 6 per cent 30 year gold bonds of the city of Cincinnati, recently awarded to Espy, Heidelbach & Co., of Cincinnati, was for the account of a Syndicate, consisting of Messrs. Kuhn, Loeb & Co., Heidelbach, Ickelheimer & Co., Netter & Co., and other bankers, of New York city.

☞ C. W. Mead has been appointed General Superintendent of the Missouri Pacific Railroad.

☞ The first train passed over the new railroad bridge across the Oswego River on the 14th inst., and the rails of the Rome, Watertown and Ogdensburg Railroad Company now extend from Potsdam Junction and Ogdensburg to the Niagara River, thus completing the chain from Portland to Niagara.

RAILROAD IRON.

THE undersigned, agents for the manufacturers, are prepared to contract to deliver best quality **American or Welsh, Steel or Iron Rails,** and of any required weight and pattern.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, light, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Coal Trade.

The return of the trade from all the regions for the week ending the 8th instant foots up 392,662 tons, against 198,561 tons for the corresponding week last year, showing an increase of 194,101 tons. The total amount of anthracite mined for the year is 3,206,341 tons, against 2,915,275 for same period last year, an increase of 291,066 tons. The quantity of bituminous coal sent to market for the week was 80,616 tons, against 88,467 tons for corresponding week last year, a decrease of 7852 tons. The whole bituminous tonnage from the beginning of the coal year is 766,708 tons, against 746,052 tons in corresponding time last year, an increase of 20,658 tons. The total tonnage of all kinds of coal for the week is 473,278 tons, against 287,028 to corresponding date last year, an increase of 186,250 tons, and the total tonnage for the coal year is 3,978,049 tons, against 3,661,327 tons to same date last year, an increase of 311,722 tons. The quantity of coal and coke carried over the Pennsylvania Railroad the last three days in March was 54,714 tons, of which 40,767 tons were coal and 13,947 tons coke. The total carried this year is 842,902 tons, of which 686,497 were coal and 106,905 coke. This total embraces all the coal carried over the road, east and west. At Port Richmond for the week ending on the 15th instant there were receipts of 63,000 tons of coal and shipments of 40,000 tons, leaving 187,500 tons on hand. We continue to quote freight charges to New York at 85 cents, Providence at $1 20@$1 25 and to Boston at $1 35@$1 40 per ton. At Perth Amboy for the week ending on the 8th instant the receipts of coal were 20,868 tons and the shipments 10,954 tons, leaving 89,882 tons on hand.—*Phila. Ledger, Apl.* 17.

☞ A meeting was held at Chelsea, Mass., on the 17th inst. to consider the construction of a narrow gauge railroad from a point on Salem street in East Malden to Winthrop Junction on the Boston, Revere Beach and Lynn Railroad, a distance of four and a third miles. A committee was appointed to obtain right of way, and to obtain subscription to the capital stock which is to be placed at $100,000. The estimated cost is $15,788.

☞ The aggregate earnings of all the French lines in 1875 amounted to £33,576,723, as compared with £31,960,116 in 1874, showing the large increase of £1,616,557 last year. The extent of new line opened in 1875 was 426¼ miles.

TRIPLER RAILROAD CROSS TIE COMPANY,

235 SOUTH THIRD STREET, PHILADELPHIA, PA.

Sectional Tie.

These Ties are now offered to the Railroad public with the assurance that they will meet the growing want of an improvement in this branch of Railroad industry. The Tripler Tie has had three years' severe test on one of the principal roads of this State, and has more than come up to the expectation of the inventor.

These Ties are steam cured and made indestructible by antiseptic compounds. They possess elasticity, durability, even surface, uniform size; can be repaired when worn by the rail; less strain on rolling stock.

The Tripler Railroad Cross Tie Company are now prepared to furnish Railroads with any quantity for immediate delivery or for the ensuing year.

Some of the Ties which have been in use three years are now in the office of the company for inspection.

For further particulars, testimonials, &c., apply to

A. B. TRIPLER, Agent, 235 S. Third Street.

N. B.—Those Roads wishing to adopt this Tie, situated at a distance from the factory, the T. R. R. C. T. Co. are prepared to put up work as near as possible to the line of the road, thus saving the cost of transportation.

American Railroad Journal.

New York, Saturday, April 29, 1876.

Morris and Essex Railroad.

The earnings of this road for the year ending December 31, 1875, were $4,340,350, the expenses $2,967,456, and the net earnings $1,372,894. For the year ending December 31, 1874, the earnings were $3,946,161, the expenses $2,741,273, and the net earnings $1,204,888—showing an increase in earnings of $394,189, an increase in expenses of $226,183, and an increase in net earnings of $168,006. The capital stock of the company is $15,000,000; funded debt, $18,112,000—a total of $33,112,000. Deduct amount expended on new Bergen tunnel and other work not yet available, ($1,313,959), and sundry assets, ($1,320,475), amounting in all to $2,634,435, will leave a balance of $30,477,564. Notwithstanding the increase in coal freights on this road since its lessee, the Delaware, Lackawanna and Western Railroad Co., discontinued coal business on the Central of New Jersey, it appears that after paying interest at 7 per cent. on all the bonded debt the balance remaining would fall short about $946,000 of paying the 7 per cent. guaranteed dividend on stock.

Railroad Map.

The Scranton (Penn.) Times says that a large map of the New York and Oswego Midland Railroad, which Major Von Forstner, of Scranton, was some time since authorized to make, is finished, and will be sent to the State Engineer's office at Albany, N. Y., in a few days. It is 150 feet long and 4 feet wide, on a continuous roll of drafting paper. This mapping begins at Oswego, and passes through Oswego and Oneida Counties. At Oneida Village it is intersected by the New York Central Railroad. Thence it runs through Madison and Chenango Counties. At Sydney Plains it passes the Albany and Susquehanna division of the Delaware and Hudson Canal Company's Railroad. Thence it goes on through Otsego, Delaware, Sullivan and Orange Counties, terminating at the village of Middletown.

Albany and Susquehanna Railroad.

The proposed amendments to the lease of this road, by the Delaware and Hudson Canal Company, have been agreed to by both companies, and the amended lease placed on record. It provides that the capital stock is to be fixed and limited at $3,500,000, on which the lessee is to pay dividends of 7 per cent. annually. The clause of the old lease giving 25,000 shares a preference is annulled, and in consideration thereof the lessee, whenever the $1,000,000 Albany city bonds are paid off, is to apply the $70,000, now paid annually into the sinking fund, to the payment of additional dividends on the stock, making them 9 per cent. annually. The Albany and Susquehanna Company is to execute a first consolidated mortgage for $10,000,000 to the Farmers' Loan and Trust Company, as trustee, the bonds to bear 6 or 7 per cent. interest, as may be deemed best, and to have 30 years to run. Of these new bonds $3,450,000 are to be reserved to exchange for outstanding bonds; $1,595,000 are to be issued to the lessee in exchange for an equal amount of stock now held by it, which stock is to be surrendered and canceled; a further amount is to be issued to the lessee sufficient to pay for improvements heretofore made on the road, and the balance is to be issued as the lessee may require. These new bonds are to be guaranteed, principal and interest, by the lessee, and provision is made for renewing them when the 30 years shall have expired; but the amount of stock and bonds outstanding shall at no time exceed $13,500,000.

International and Great Northern Railroad.

This road is 236 miles in length, extending from Houston to Long View; with branches from Palestine to Rockdale, 121 miles; from Troupe to Mineola, 44¾ miles; from Phelps to Huntsville, 8 miles; and from Houston to Columbia, 49½ miles—making the total length of line owned 459¼ miles. The equipment consists of 40 locomotives, 25 passenger, 8 baggage, mail and express, and 661 freight and construction cars. The earnings of the road during the year ending December 31, 1875, were $1,408,303, and the expenses $792,340, leaving the net earnings $615,963. The assets and liabilities are stated as follows:

Assets:		
Cost of road, buildings, etc.		$16,082,806
Cost of equipment		1,362,524
Stocks and bonds	$1,306,745	
Materials and fuel	98,259	
Bills receivable	1,896	
Other current assets	188,155	
Cash	42,125	
		1,637,180
Total assets		$19,082,510
Liabilities:		
Capital stock paid up		$5,500,000
1st mortgage bonds, 7s, gold, due in 1900-1911		7,346,000
2d and convertible bonds, 8s, due in 1892-1904		4,816,000
Bills payable	$328,789	
Coupons past due	868,745	
Other liabilities	545,763	
		1,743,297
Total liabilities		$19,407,297

The directors are: Samuel Sloan, New York; Moses Taylor, New York; John S. Barnes, New York; Thomas W. Pearsall, New York; W. J. Hutchins, Houston, Texas; R. S. Hayes, Palestine, Texas; H. M. Hoxie, Palestine, Texas; D.

S. H. Smith, Palestine, Texas; Ira H. Evans, Palestine, Texas. President, Samuel Sloan; Secretary, Ira H. Evans; Treasurer, D. S. H. Smith; Gen'l Sup't, H. M. Hoxie.

Virginia Railway Improvement.

During the present week, books were opened at Richmond for subscriptions to the capital stock of the railway which it is proposed to construct from Buchanan, the present western end of the Chesapeake and Ohio Canal, to Valley Forge, the nearest accessible point on the Chesapeake and Ohio Railway. The subscriptions reported are sufficient to secure the organization of the company, and point conclusively to the construction of the road at an early day. Its completion will give to the canal, which has in reality no western terminus, a direct railway connection with the Ohio Valley, and when the Chesapeake and Ohio road shall have been extended to Louisville, and placed in close sympathy with the western railway system, the commercial advantages of the projected road from Buchanan to Valley Forge will be more fully realized. The plan which the business men of Richmond are now pushing forward with determined energy, will do much to realize the benefits which should long since have accrued from that expensive water-route, the Chesapeake and Ohio Canal. Meanwhile nothing should be left undone to secure the enlargement and extension of the canal to the Ohio River. The interests of Virginia, and the entire country, require that it should be pushed forward to the Ohio, and thus secure unbroken water communication between Hampton Roads and the head of navigation on the Upper Missouri.—*Balt. Com., Apl.* 22.

Chicago, Milwaukee and St. Paul Railway.

We have received a copy of the report of this company for the year ending December 31, 1875, from which we learn that a branch of one mile in length, extending from North McGregor to McGregor, was built during the year, making the whole length of road owned and operated by the company 1,400 miles, viz:

	Miles.
Chicago to Milwaukee	85
Milwaukee to St. Paul, via La Crosse	324
Milwaukee to St. Paul, via Prairie du Chien	405
Milwaukee to Portage City, via Horicon	96
North Milwaukee to Schwartzburg	6
Horicon to Berlin and Winneconne	57
Watertown to Madison	37
Milton to Monroe	42
Calmar to Algona	126
Conover to Decorah	10
North McGregor to McGregor	1
Austin to Mason City	40
Mendota to Minneapolis	9
Hastings to Glencoe	75
Sabula to Marion	87
Total miles owned by the company	1,400

In addition to the above, the company own $2,001,000 of the capital stock of the Western Union Railroad, being a majority of the capital stock of that company.

The cost of the 1,400 miles of road, including equipment, bridges and elevators, is as follows:

Mortgage bonds		$27,129,000
Preferred stock		12,274,483
Common stock		15,399,261
		$54,802,744
Less cost of Western Union stock	$1,500,750	
Less cost of Oshkosh and Mississippi River Railway bonds	208,000	
		1,708,750
Cost of 1,400 miles		$53,098,994
Cost per mile		$37,928

In the following table are shown the mileage of trains, the passenger traffic and the freight traffic on all the roads collectively for the years 1874 and 1875:

Mileage:	1874.	1875.
Passenger trains	1,194,310	1,212,738
Freight trains	3,505,561	3,124,603
Wood and gravel trains	344,310	355,450
Total mileage	5,044,181	4,692,791
Passengers carried	1,051,527	1,048,150
Do. carried one mile	58,260,429	54,880,848
Freight (tons) carried	1,735,555	1,832,527
Do. carried one mile	259,168,248	272,539,502
Pass. revenue per mile	3.35 cents.	3.09 cents.
Freight revenue per mile	2.38 cents.	2.10 cents.

The following is a comparative statement of the earnings and expenses during the years ended December 31, 1874 and 1875:

Earnings from:	1874.	1875.
Freight	$6,137,151 84	$5,690,568 26
Passengers	1,933,664 98	1,681,614 32
Mail service	142,484 68	150,254 44
Express service	168,461 46	172,031 71
News service	6,707 78	6,827 04
Rents	3,305 78	2,492 00
Telegraph	9,097 44	6,946 95
Extra baggage	9,411 30	8,662 70
Sleeping cars	36,029 00	38,700 00
Elevator, "A"	214,402 63	214,900 76
Elevators, "B & C"	212,034 15	195,424 88
Elevator, "D"	52,623 97	64,615 95
Stock yards	27,642 15	22,704 63
Total	$8,953,017 11	$8,255,743 64
Expenses (ordinary)—		
Repairs of track	$887,079 33	$754 669 03
" bridges	52,336 63	68,794 22
" fences	23,066 70	19,710 95
" buildings	57,338 88	49,774 29
" engines	348,343 30	310,192 70
" cars	493,829 14	415 892 81
" tools, etc.	31,429 36	25,451 43
Management and general offices	144,856 04	152,860 46
Foreign agency and advertising	89,757 80	89,805 63
Station service	654,760 68	598,730 20
Conductors, baggage and brakemen	302,268 96	299,106 27
Engineers, firemen & wipers	382,130 64	381,288 82
Train and station supplies	112,290 13	106,746 12
Fuel consumed	800,818 68	733,582 06
Oil and waste	78,714 21	69,173 43
Personal injuries	25,661 93	15,946 80
Damage to property	14,469 62	13,174 65
Loss and damage of freight & baggage	18,080 57	9,473 41
Legal expenses	35,553 87	50,949 31
New York office exp.	14,408 32	16,417 31
Taxes	262,706 94	287,969 95
Insurance	44,466 31	32,395 52
Miscellaneous	17,682 61	15,112 13
Stock yard expenses	8,805 65	8,185 99
Rent of cars	80,998 25	76,001 63
Exp. Elevator "A"	53,888 33	31,174 72
Exp. Elevators "B & C"	51,184 84	31,875 58
Exp. Elevator "D"	18,427 92	13,668 74
Expenses (extraordinary)—		
Renewal of track	620,019 47	438,715 03
New bridges	21,629 25	18,929 50
New buildings	35,796 43	33,682 36
New tools and machinery	5,911 98	902 66
Taxes Milwaukee City and County	87,403 61	
Total	$5,871,116 38	$5,170,353 71
Net earnings	$3,081,900 73	$3,085,389 93

Compared with the year 1874, the gross earnings show a decrease of $697,273 47, with a decrease in operating expenses of $700,762 67—making an increase in the net earnings of $3,489 20. The percentage of operating expenses to earnings, including all expenditures, was 62.6 per cent. In 1874 it was about 66 per cent. The operating expenses are divided as follows: ordinary, $4,678,124 16; extraordinary, $492,229 55. In 1874 the ordinary expenses were $5,100,355 64, and the extraordinary expenses $770,760 74.

The earnings, expenses and net revenue per mile of road in the two years compare as follows:

	1874.	1875.
Gross earnings	$6,399 58	$5,896 96
Operating expenses	4,196 65	3,693 11
Net earnings	$2,202 93	$2,203 85

The average price per ton per mile, received for freight, for a series of years past has been as follows:

1865	4.11	1871	2.54
1866	3.76	1872	2.43
1867	3.94	1873	2.50
1868	3.49	1874	2.38
1869	3.10	1875	2.10
1870	2.82		

The equipment of the road at the close of 1874 and 1875 compares as follows:

	1874.	1875.
Locomotives	203	208
Passenger cars, 1st class	64	66
" " 2d class	31	31
Sleeping cars	11	10
Baggage, mail and express	57	57
Box freight and caboose	2,995	3,098
Stock	....	196
Flat and coal	665	797
Boarding	2	2

The expenditures made by the company during the year 1875, not charged to operating account, amounting to $716,068 43, were as follows:

Additional equipment	$217,245 80
Mississippi River Bridge, at La Crosse	9,200 19
Depot grounds, wharves, etc., in Milwaukee	5,858 78
Depot grounds, Minneiska	11 75
Depot grounds, Minneapolis	1,263 20
Depot grounds, Berlin	40 00
Depot grounds, Portage	4,500 00
Milwaukee elevator grounds	1,231 61
Construction of elevator "E" in Milwaukee	3,079 99
New freight house in Milwaukee	6,081 36
Right of way	2,101 33
Extension of line from terminus at North McGregor, into the City of McGregor, (including right of way, depot grounds and new depot)	8,600 00
Improvements at Milwaukee stock yards	4,064 68
Tracks to new elevator at Milwaukee	3,921 54
Improvements in Madison depot grounds	2,263 17
Halstead Street viaduct, Chicago	16,379 33
First Avenue viaduct, Milwaukee	1,500 50
New iron draw bridge at Spring Green	12,475 00
Real estate, Chicago and Milwaukee Division	18,816 66
Real estate, construction, etc., Illinois and Iowa Division	7,013 59
La Crescent connection	4,279 04
Construction of telegraph lines	19,755 41
Cost of new tunnel at Greenfield and approaches	109,662 96
Cost of re-laying with steel rails	256,722 54
	$716,068 43

During the year, 5 locomotives, 2 passenger

cars, 251 box, freight and stock cars and 132 flat cars have been added to the equipment of the road, at a cost of $217,245 80.

At the close of the year the company had 246.56 miles of steel rail upon their road bed, of which 57.74 miles were laid during the year. The St. Paul and Sioux City Railroad Co. and this company laid on joint track between St. Paul and Mendota, 4.77 miles of steel rails, the cost of which was divided equally between the two companies. The cost of all the steel laid has been charged to operating expenses.

The Oshkosh and Mississippi River Railway, between Ripon and Oshkosh, twenty miles in length, is under lease to this company for a period of twenty years, by the terms of which this company engages to pay the interest on the 8 per cent. first mortgage bonds of that company amounting to $240,000, being $12,000 per mile. It is provided by the Consolidated Sinking Fund Mortgage, that these bonds may be purchased by this company, and payment made in sinking fund bonds at par. Purchases to the extent of $203,000 have already been made in accordance with this authority.

The Legislature of the State of Wisconsin, at its recent session, passed an act ratifying and confirming the consolidated sinking fund mortgage of the company, of which the Farmers' Loan and Trust Company is trustee. By the terms of the mortgage, which covers the whole property and franchises of the company, bonds to the amount of $35,000,000 are authorized to be issued, of which $27,339,000 are held to retire the aggregate existing bonded debt of the company, including $240,000 Oshkosh and Mississippi River Railway bonds, and the balance may from time to time be delivered by the trustee to the company, in reimbursement of expenditures for the following named purposes only, to wit:

For relaying the various lines of railroad described in the mortgage, with steel rails.

For the erection of bridges, and elevators.

For additional equipment.

For land for stations, yards and elevators.

For other permanent improvements to the premises mortgaged.

There is applicable to the Second Mortgage Bonds of the Company, (of which the amount outstanding on the 1st of January, 1876, was $1,091,000,) a sinking fund consisting of the net earnings of the grain elevator erected in 1864 by the company, in Milwaukee, and now known as Elevator A.

In discharge of this obligation, the company caused the Farmers' Loan and Trust Co., the trustee, to purchase and cancel $100,000 of said bonds, in October last. The President in his report says:

In our report of last year we referred to the legislation of Wisconsin on the subject of railroads, and to the action of the company and of the courts thereon.

No final decree or judgment has been rendered by the Supreme Court of Wisconsin in the injunction suit commenced by the state to enforce the so-called "Potter law."

Two other causes against this company were prosecuted to final judgment. One, a criminal proceeding against one of our ticket agents for charging more than three cents per mile for a ticket; the other, an action of replevin against the company on tender of the charges allowed by the law for certain freight transported over the road. Both these judgments were affirmed by the Supreme Court of Wisconsin, and the judgments were then removed by writs of error to the Supreme Court of the United States. These two cases, together with the two cases decided by the Circuit Court of the United States against the Chicago and Northwestern Railway, and a case from the state of Minnesota, arising under a similar law, were argued before the Supreme Court of the United States, and fully submitted, in November last; but are still held under advisement by that court.

The Legislature of Wisconsin which assembled in January last, appeared to be fully impressed with the unjust and impolitic character of the legislation in respect to railroads, and at once entered upon a thorough examination and investigation of the laws passed in 1874 and 1875. Their inquiries satisfied them that not only the best interests of the railroad companies, but those of the whole people of the state as well, demanded the substantial repeal of the former legislation. An act was prepared repealing all the provisions of the law which fixed and established arbitrary rates, prescribing our tariff of June 15th, 1872, as a maximum of tariff of rates, and providing for one railroad commissioner, with powers similar to the Board of Railroad Commissioners in Massachusetts. This act was passed by a very large majority, more than two-thirds of each house concurring in its passage.

Therefore, whatever may be the decision of the Supreme Court of the United States in the cases now before it, we may congratulate ourselves that the State of Wisconsin, through its own Legislature, has redressed the wrong done to its railroad interests, and by its own free and voluntary act restored its credit in the markets of the world.

While this law prescribes a former tariff as a maximum, beyond which this company and the Chicago and Northwestern are not to go, in fixing their rates of fare and freight, there will be no interference in the practical operation of the companies, as this maximum is quite as high as any rates which the companies would deem it advisable to adopt if there were no statute on the subject. Within this limit they are left entirely free to fix their own rates.

The earnings of this road, monthly, for a series of years will be found on page 551 of this week's issue. Also a full description of the company's bonds — amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 554.

GENERAL ACCOUNT, December 31, 1875.

☞ The Philadelphia, Wilmington and Baltimore Railroad Company have awarded a contract for the erection of an iron deck bridge of one span one hundred feet in length over Elk creek, below Elkton, Md., the changing of the channel of which has rendered such an improvement necessary.

The New Railroad Transportation Law of California.

The following is the exact text of the new Railroad Transportation Law as approved by Gov. Irwin April 3d, and on file in the Secretary of State's office—Chapter 515 Statutes of 1875-6.

[Enacting Clause.]

CHAPTER I.

Section 1. On or before the 15th day of May, 1876, the Governor shall appoint three competent persons, to be styled Commissioners of Transportation, who shall hold office for the period of two years, and until their successors are appointed and qualified. The persons who are so appointed shall have no official connection with, nor be in the employ of any railroad corporation or company, nor shall they, during their term of office, own, or be interested in the stock, bonds, or other property thereof. Said Commissioners shall have their office in the State Capitol building at Sacramento.

Sec. 2. Before entering upon the discharge of the duties of their office, each of said Commissioners shall take an oath or affirmation to support the Constitution of the United States and of this State, and to faithfully and honestly discharge his duty as such Commissioner, and that he is not an officer, stockholder or employe of any railroad, or in any way interested therein; or a stockholder, officer or employe, or in any way interested in any express or freight company doing business on any of the railroads in the United States; and the said Commissioners shall be citizens of this State; they shall execute and file with the Secretary of State an official bond with good and sufficient sureties, to be approved by the Governor, in the penal sum of ten thousand dollars, conditioned for the faithful performance of their duties under this Act.

Sec. 3. The salary of each Commissioner shall be $3,000 per annum, to be paid by the State of California in the same manner as the salaries of other State officers are paid. They shall have power to elect one of their number President of said Board, to employ a Secretary at a salary of not exceeding $1,800 per annum, and shall be allowed a contingent fund of not exceeding $25 per month to defray the necessary expenses of fuel and stationery. The Commissioners and their Secretary shall be transported, in the discharge of their duties, over the various railroads owned by corporations within the State free of charge.

Sec. 4. It shall be the duty of such Commissioners, whenever they shall deem it necessary, to inspect all railroads operated by steam power within this State, and to examine the same with reference to the security and accommodation of the public; and if, on such examination, in their opinion any of the tracks, bridges, or other structures or works thereof, are unfit for the transportation of passengers with reasonable safety, it shall be their duty to give to the Superintendent, or other executive officer of the company working or operating said defective track, bridge, or other structure, notice of the condition thereof and the repairs necessary to place the same in a safe condition; and if any Superintendent or other executive officer aforesaid, receiving such notice and order, shall willfully neglect to commence repairing the same for the period of two days after receiving such notice and order, such Superintendent, or other executive officer, shall be deemed guilty of a misdemeanor.

Sec. 5. Whenever a petition, signed in good faith by fifty or more property holders residing within ten miles of any proposed station, switch, or side track, shall be presented to the Commissioners, praying for the establishment of a new station, switch, or side track, the Commissioners shall notify the managers of such railroad of such petition, and appoint a time and place for hearing the same. Should the corporation neglect or refuse to comply with the award of the Commissioners it shall forfeit the sum of $100 per day from the time fixed by the Commissioners for the completion of the work required until such work shall be actually completed, to be recovered to the use of the State by suits instituted by said Commissioners, in any Court of competent jurisdiction; provided, that said Commissioners shall not require said new station, switch, or side track to be established within less than six miles of one already established.

Sec. 6. Within thirty days after the appointment of said Commissioners, they shall cause a copy of this Act to be served upon every such railroad corporation engaged in the business of transportation within this State; within ten days after the receipt of such notice, it shall be the duty of such corporation respectively to file with the Commissioners and in the office of the Secretary of State and in the office of the County Clerk in each county in which the road is located, a copy, verified by the oath or affirmation of the President or other chief executive officer, of all and singular, the tariffs and rates of freight, passage money, commutation rates, and charges, together with copies of all their rules, regulations, and instructions to employes concerning the carriage of persons and merchandise, under which the road was being operated on the first day of January, 1876, and it shall not be lawful for any of said corporations to increase any rates of freight or passage, or to raise the classification of any species of goods, or to change any rule or instruction to employes, in such manner as to increase the cost of transportation over and above the rates charged in such tariff or in use on the first day of January, 1876; provided, nevertheless, that any such railroad company may issue excursion tickets at reduced rates for special trains or between certain places, and for a fixed time.

Sec. 7. The several transportation companies or corporations operating any railroad in this State, the cars on which are propelled by steam, shall at all times, on demand, furnish to the Commissioners any and all information required of them concerning the condition, management and operation of the railroads under their control respectively, and particularly with copies of all leases, contracts and agreements for transportation with express companies or otherwise, to which they are parties. The Commissioners shall cause blanks to be prepared, proposing questions calculated to elicit facts and statistics, from which may be deduced the results hereinafter specified as necessary to be accurately known by the people and the Legislature. Such blanks shall be furnished to the several corporations in season to be filled in and returned to the Commissioners on or before the first day of October of each year. They shall be sworn to by the President or other executive officer, and by the Auditor, Secretary or principal book-keeper of the corporation making the same, respectively. They shall be tabulated by the Commissioners, and the reports, together with the tabulations thereof, and the deductions therefrom, and the record of all the matters herein required to be reported to the Legislature, with the drafts of all such bills as the Commissioners desire to recommend for passage, shall be submitted to the Legislature on the first day of the next session thereof.

Sec. 8. It is hereby made the duty of the President or other executive officer in charge of each and every railroad company having a line of railroad in this State, to make an annual report to the Commissioners for the year ending on the 30th day of June preceding, which report shall state:

STOCK AND DEBTS.

1. The amount of capital stock paid in.
2. The amount of capital stock unpaid.
3. The amount of funded debt.
4. The amount of floating debt.

COST OF ROAD AND EQUIPMENTS.

5. Cost of construction.
6. Cost of right of way.
7. Cost of equipment.
8. All other items embraced in the cost of road and equipment, not embraced in the preceding schedule.

CHARACTERISTICS OF ROAD.

9. Length of single main track laid with iron or steel.
10. Length of double main track.
11. Length of branches, stating whether they have single or double track.
12. Aggregate length of sidings and other tracks not above enumerated. Total length of iron embraced in preceding heads.
13. Maximum grade, with its length in main road, and also in branches.
14. The shortest radius of curvature, and locality of each curve, with length of curve in main road, and also in branches.
15. Total degrees of curvature in main road, and also in branches.
16. Total length of straight line in main road, and also in branches.
17. Number of wooden bridges, and aggregate length in feet.
18. Number of iron bridges, and aggregate length in feet.
19. Number of stone bridges, and aggregate length in feet.
20. Number of wooden trestles, and aggregate length in feet.
21. The greatest age of wooden bridges.
22. The average age of wooden bridges.
23. The greatest age of wooden trestles.
24. The number and kind of new bridges built during the year, and length in feet.
25. The length of road unfenced on either side, and the reason therefor.
26. Number of engines.
27. Number of passenger cars.
28. Number of express and baggage cars.
29. Number of freight cars.
30. Number of other cars.
31. The highest rate of speed allowed by express passenger trains when in motion.
32. The highest rate of speed allowed by mail and accommodation trains when in motion.
33. The highest rate of speed allowed by freight trains when in motion.
34. The rate of fare for through passengers charged for the respective classes per mile.
35. The rate of fare for local passengers charged for the respective classes per mile.
36. The highest rate per ton per mile charged for the transportation of the various classes of through freight.
37. The highest rate per ton per mile charged for the transportation of the various classes of local freight.

DOINGS OF THE YEAR.

38. The length of new iron or steel laid during the year.
39. The length of re-rolled iron laid during the year.
40. The number of miles run by passenger trains.
41. The number of miles run by freight trains.
42. The number of through passengers carried in cars.
43. The number of local passengers carried in cars.
44. The number of tons of through freight carried.
45. The number of tons of local freight carried.

EARNINGS FOR THE YEAR.

46. From transportation of through passengers.
47. From transportation of local passengers.
48. From transportation of through freight.
49. From transportation of local freight.
50. From mail and express.
51. From all other sources—total earnings for the year.

EXPENDITURES FOR THE YEAR.

52. For construction and new equipment.
53. For maintenance of way and structures.
54. For transportation expenses, including those of stations and trains.
55. Dividends—rate per cent. and amount.
56, 57, 58, 59, 60. All other expenditures.
61. Total expenditures during the year.

62. The number and kind of farm animals killed, and amount of damages paid therefor.

63. A statement of all casualties resulting in injuries to persons, and the extent and cause thereof, and such other and further information as may be required by the Commissioners.

Sec. 9. Any transportation company subject to the provisions of this Act which shall neglect or refuse to make and file its report, as provided in Section 8 of this Act, or shall neglect or refuse to file its tariffs of freights and fares with the Commissioners, as provided in Section 6 of this Act, shall forfeit and pay to the State of California the sum of not less than $100 nor more than $1,000 for each and every day of such neglect or refusal, the same to be recovered by suit in any Court of competent jurisdiction.

Sec. 10. All prosecutions against any transportation company, railroad company, or any officer or employe thereof, for forfeitures, penalties or fines, for the violation of any of the laws relating to said companies or roads, shall be by action in the name of the people of the State of California, and it shall be the duty of such Commissioners to bring in any Court of competent jurisdiction all such actions.

Sec. 11. Each Commissioner shall have power thereunto authorized by the board to examine the books and papers of any railroad corporation or line, and also any railroad officer, agent or employe, under oath, concerning the condition, management and operation of the railroads under their direction and control, and it is hereby made the duty of the Superintendent of each transportation and railroad company in the State to notify said Commissioners by telegraph of all accidents immediately upon their occurrence.

Sec. 12. Whenever the directors of any railroad company shall fail to agree with the municipal authorities of any town or city as to the route of their railroad in any such town or city, either party may petition the Commissioners of Transportation to fix the route in said town or city, and said Commissioners, after due notice to the other party, shall hear the case and fix the route in such town or city.

Sec. 13. It shall be the duty of the Commissioners of Transportation, upon the petition of either party, after twenty days' notice to the other to hear and decide the following cases: The compensation to be paid by one railroad to another for transporting passengers, merchandise and cars; to fix such periods and time-tables, having reference to the convenience and interest of the corporation, and the public to be accommodated thereby; to determine what accommodations are required, and also the compensation to be paid for the use of terminal accommodations, and for the receiving, transferring and forwarding of passengers and freight.

Sec. 14. Any award made by the Commissioners of Transportation shall be binding upon the respective corporations and parties interested therein, until the same shall have been revised or altered by said Commissioners, or reversed on appeal to the Supreme Court, as hereinafter provided.

Sec. 15. Any award made by the Commissioners of Transportation shall be returnable, with the evidence, on the request, in writing, of any party affected thereby, and filed within thirty days after rendering of such award, in the County Court of the county in which the controversy arose, and shall be there subject to revision in the same manner as if the said Commissioners had derived their power to act in the premises under the appointment of said Court, with the right of appeal to the Supreme Court, as in other cases.

Sec. 16. It shall be the duty of the District Attorneys of the several counties within, into, or through which any railroad runs, or is located, or worked, upon being instructed by said Commissioners, to sue for and recover all penalties for the violation of the railroad laws of this State.

Sec. 17. The provisions of this Act shall be applicable to railroads, the cars of which are propelled by steam, now or hereafter to be operated by corporations, trustees, companies or individuals in this State.

Sec. 18. There shall be printed 2,500 copies of the report of the Commissioners of Transportation.

Sec. 19. The Governor shall remove the Commissioners of Transportation at any time when he becomes satisfied that it is for the public good.

CHAPTER II.

OF EXTORTION AND DISCRIMINATION—EXTORTION DEFINED IN FARES.

Section 1. A railroad company shall be deemed guilty of extortion in the following cases:

First—When it shall knowingly or willfully charge, demand or receive from any passenger as his fare from one station or place to another, any greater sum than is specified as the fare between such stations or places for the same class of passage, and in the same direction, in its tariff of fares on file with the Board of Transportation Commissioners.

Second—When it shall knowingly or willfully charge, demand or receive from any person or persons, as the rate of freight on goods or merchandise, any greater sum than is specified as the rates for the like quantity of goods or merchandise of the same class, between the same places, and in the same direction, in its printed tariff of freights on file with said Commissioners.

Third—When it shall knowingly or willfully charge, collect or receive from any person or persons, a greater amount of rate of toll or compensation than it shall at the same time charge, collect or receive from any other persons for receiving, handling, storing, or delivering freight of the same class and like quantity at the same place.

Fourth—When it shall knowingly or willfully charge, demand or receive from any person or persons, any greater sum for passage or freight than from any other person or persons, at the same time, between the same places, in the same direction, for the same class of passage, or for the like quantity of goods of the same class.

Fifth—When it shall knowingly or willfully charge, demand or receive as compensation for receiving, storing, handling or delivering, or for transporting any lot of goods or merchandise, any greater sum than it shall, by or through any of its authorized agents, wherever situated, have agreed to charge for such service previously to the performance thereof.

Sec. 2. A railroad company shall be deemed guilty of unjust discrimination in the following cases:

First—When it shall, directly, knowingly or willfully charge, demand, or receive from any person or persons, any less sum for passage or freight than from any other person or persons (except as in this Act hereinafter provided), at the same time, between the same places, and in the same direction, for the like class of passage, or for the like quantity of goods of the same class.

Second—When it shall, directly or indirectly, knowingly or willfully charge, demand, or receive from any person or persons, as compensation for receiving, handling, storing, or delivering any lot of goods or merchandise, any less sum than it shall charge, collect, or receive from any other person or persons, for the like service to a like quantity of goods of the same class, at the same place.

Sec. 3. It shall be unlawful for any such railroad company to grant free passes for travel within this State, except to the following persons:

First--Directors, officers, agents and employes of the company and their families.

Second—Officers and agents and railroad contractors of other railroads or telegraph companies.

Third--Destitute persons.

Fourth—The members of the Board of Transportation Commissioners of the State of California, their Secretary, Attorney and employes while traveling in the discharge of their official duties.

Fifth--Public messengers, troops, and other persons, who are under existing laws or any contract of such railroad company with this State, to be transported free of charge.

Every such railroad company shall keep a record of all free passes issued by it, except such as are issued by it to officers, agents, employes and their families, and of the several classes thereof, and of the number of times each pass shall be used, and shall report the same to the Transportation Commissioners whenever required.

Sec. 4. If any such railroad company shall be guilty of extortion, as defined in this Act, it shall forfeit and pay to the person or persons aggrieved three times the amount of the damages sustained by him or them, together with the costs of suit, to be recovered in any Court of competent jurisdiction. It shall be the duty of the Board of Transportation Commissioners to prosecute all such suits for the plaintiff.

Sec. 5. If any such railroad company shall be guilty of unjust discrimination, as defined in section 2 of this chapter, it shall forfeit and pay the sum of $1,000 for each offense, to be recovered on complaint of the Board of Transportation Commissioners as in the last section provided. All forfeitures under this section shall be paid into the State Treasury for the benefit of the public schools of the State.

Sec. 6. Any such railroad company that issues free passes to any person or persons other than those specified in section 3 of this chapter, or shall permit any person whatever to travel free upon their cars, except upon the exhibition of free passes issued as provided in said section, shall forfeit and pay for each offense the sum of $100, to be recovered and paid over, one-half to the State Treasurer, and the other half to the informer, as in the last section provided.

Sec. 7. Whenever it shall come to the knowledge of the Board of Transportation Commissioners that the provisions of this Act are violated by any such railroad corporation in this State, it shall be their duty to investigate the charge, and whenever in their judgment the facts warrant prosecution, it shall be their duty to immediately cause suits to be commenced and prosecuted against any such corporation which shall have been guilty of such violation. Such suits may be brought in any Court of competent jurisdiction. All such suits shall be prosecuted by the District Attorney of the county where such action is brought.

Sec. 8. Any person traveling upon any such railroad in this State, desiring to stop over at any station between the point of his departure and destination, shall, upon request, be entitled to receive from the conductor of the train without further charge thereon, a stop over ticket, which shall be good for the remainder of his journey, and may be used at any time within six months after it shall have been issued.

Sec. 9. The provisions of this Act shall be deemed applicable to such railroads as are therein mentioned, whether operated by corporations, trustees, owner or owners not incorporated.

Sec. 10. This Act shall take effect and be in force from and after its passage.

Railway Progress in Nova Scotia.

We understand that there are only five or six miles of the line between Yarmouth and Weymouth yet to be graded, and not more than a third of the distance between Weymouth and Digby. The railway bridge across Meteghan River will be ready for the rails in a few weeks. The four cargoes of rails already landed here this spring, with the other two to arrive from New Orleans, will extend the track from Yarmouth to Weymouth. As soon as the frost is all out and the ground sufficiently settled, track laying will be resumed. The contractors are pushing the work through vigorously, and there is every prospect that the line will be open from Yarmouth to Digby before next Christmas.—*Yarmouth Herald.*

☞ The Louisville, Paducah and Southwestern Railroad, now in receivers' hands, has been ordered to be sold by the Marshal of the United States Court, at a time to be hereafter specified.
